Globalization has adversely affected working-class organization and mobilization, increasing inequality by redistribution upwards from labour to capital. However, workers around the world are challenging their increased exploitation by globalizing corporations. In developed countries, many unions are transforming themselves to confront employer power in ways more appropriate to contemporary circumstances; in developing countries, militant new labour movements are emerging. Drawing upon insights in anti-determinist Marxian perspectives, Verity Burgmann shows how working-class resistance is not futile, as protagonists of globalization often claim. She identifies eight characteristics of globalization harmful to workers and describes and analyses how they have responded collectively to these problems since 1990 and especially this century. With case studies from around the world, including Greece since 2008, she pays particular attention to new types of

labour movement organization and mobilization that are not simply defensive reactions but are offensive and innovative responses that compel corporations or political institutions to change. Aging and less agile manifestations of the labour movement decline while new expressions of working-class organization and mobilization arise to better battle with corporate globalization. This book will be of interest to students and scholars of labour studies, globalization, political economy, Marxism and sociology of work.

Catalog of Copyright Entries, Third Series Routledge

This is an important book not only because it describes archival and manuscript collections in 40 states, but because it is also the first of its kind devoted exclusively to journalism history. Entries are further subdivided by institution and special collection, and include address, hours, and services. This source also contains seven authoritative essays on historical writing, research, databases, bibliographies, oral history, etc. . . . Caswell has identified in painstaking detail a large number of collections and finally made them accessible to educators, historians, graduate students, and communications librarians. Highly recommended. *Library Journal* The history of journalism is generally regarded as one of the least developed and most widely overlooked areas of mass communications scholarship and teaching. This comprehensive volume, undertaken under the aegis of the American Journalism Historians Association (AJHA), was developed to meet the needs for definitive information and resources in this area. It is the only work available which focuses specifically on manuscript sources relating to journalism history. The guide includes essays by authorities in the areas of historiography, bibliographic sources, databases relating to journalism history, U.S. Newspaper Program, and oral history. Historical sources documenting the news function of print and electronic media in the U.S. are listed along with specific information about collections in archival and manuscript repositories in 40 states. An extensive name index to special collections enables the researcher to link related materials held by different institutions.

A History of the Town of Union, in the County of Lincoln, Maine Univ of California Press

Now a Netflix Original Documentary America was once celebrated for and defined by its large and prosperous middle class. Now, this middle class is shrinking, a new oligarchy is rising, and the country faces its greatest wealth disparity in eighty years. Why is the economic system that made America strong suddenly failing us, and how can it be fixed? Leading political economist and bestselling author Robert B. Reich presents a paradigm-shifting, clear-eyed examination of a political and economic status quo that no longer serves the people, exposing one of the most pernicious obstructions to progress today: the enduring myth of the “free market” when, behind the curtain, it is the powerful alliances between Washington and Wall Street that control the invisible hand. Laying to rest the specious dichotomy between a free market and “big government,” Reich shows that the truly critical choice ahead is between a market organized for broad-based prosperity and one designed to deliver ever more gains to the top. Visionary and acute, *Saving Capitalism* illuminates the path toward restoring America’s fundamental promise of opportunity and advancement.

The Working Press of the Nation Greenwood

This completely rewritten and updated new edition of a practical text continues to provide a firm introduction to law and legal processes and their relation to social work practice. Using Clinton's welfare reform act of 1996, Albert provides a conceptual framework to illustrate how socio-legal problems emerge in the welfare state, and presents the skills base necessary for effective social work response. A new section on socio-legal issues highlights many fields where social worker-lawyer partnerships can occur, such as civil rights and advocacy, the death penalty, liability for neglect in nursing homes, informed consent and medical treatment, and much more. Filled with techniques for reading and understanding judicial opinion, legislative statutes, and bills, this new edition will appeal to all professors of law and social work courses, as well as courses on the welfare state.

Business Torts: A Fifty State Guide, 2021 Edition provides the most recent statutory and case law developments on business torts laws for each of the fifty states and the District of Columbia. Practitioner-oriented, and written by leading state experts, each chapter summarizes the variants and developments particular to a specific state jurisdiction. You will find detailed coverage of each state's standards regarding: misappropriation of trade secrets; tortious interference with contracts; fraud and misrepresentation; trade libel and commercial disparagement; breach of fiduciary duty; officers and directors liability; conversion; unfair competition, fraudulent transfer; economic loss; and statutes of limitation. The 2021 Edition incorporates recent changes in the law of the various states, including: The Nebraska Supreme Court has recognized the tort of trade libel and commercial disparagement in a long-awaited landmark case. The Missouri legislator amended the Missouri's Merchandising Practices Act to require a consumer bringing a claim under that act to establish that they acted as a reasonable consumer would in light of all circumstances and that the business practice alleged to be unlawful would cause a reasonable person to enter into the transaction that resulted in damages. The Florida Ninth Judicial Circuit has reopened its "Business Court", a division of the Court which handles exclusively business matters. The Business Court was closed in 2017 due to budget constraints. The Hawaii Supreme Court held that a plaintiff may claim equitable tolling for fraudulent concealment. State Laws Included: Alabama, Alaska, Arizona, Arkansas, California, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming.
