The Book of
CorrectionsReflections
on the National Crisis
During the Japanese
Invasion of Korea,
1592-1598

In September of 1859,
the entire Earth was
engulfed in a gigantic
cloud of seething gas,
and a blood-red aurora
erupted across the
planet from the poles
to the tropics. Around
the world, telegraph
systems crashed,
machines burst into
flames, and electric

shocks rendered operators unconscious. Compasses and other sensitive instruments reeled as if struck by a massive magnetic fist. For the first time, people began to suspect that the Earth was not isolated from the rest of the universe. However, nobody knew what could have released such strange forces upon the Earth--nobody, that is, except the amateur English astronomer Richard Carrington. In this riveting account, Stuart Clark tells for the first time the full story behind Carrington's observations of a mysterious explosion on the surface of the Sun and how his brilliant insight--that the Sun's magnetism directly influences the Earth--helped to usher

in the modern era of astronomy. Clark vividly brings to life the scientists who roundly rejected the significance of Carrington's discovery of solar flares, as well as those who took up his struggle to prove the notion that the Earth could be touched by influences from space. Clark also reveals new details about the sordid scandal that destroyed Carrington's reputation and led him from the highest echelons of science to the very lowest reaches of love, villainy, and revenge. *The Sun Kings* transports us back to Victorian England, into the very heart of the great nineteenth-century scientific controversy about the Sun's hidden influence over our planet.

Avantika Singh, better known as General Gosling, was born aboard a Boeing 747 somewhere over the Arabian Sea. Gosling and her siblings - Duckling and the twins Dingaling and Dumpling - have been brought up at Shadow House by their grandfather, the crazy, zany Nana and his lovely partner Shabby Aunty. Nana, an ex-army surgeon, is completely whacko and life at Shadow House is exasperating, funny and unforgettable, what with Nana's fixation for his ten Classic and Vintage cars, Duckling's collections of virtually everything 'collectible' and the twins' notorious business swindles. But then when it becomes clear that Nana is slowly

falling prey to dementia and Alzheimer's, his daughter makes diabolical plans for him-and for the children's future. Plans that Gosling and the others are determined to thwart, without foreseeing how terribly things could go wrong for everyone. Will dear nutcase Nana survive all this and return to his beloved Shadow House and Shabby Aunty? At once funny and heart-breaking, Our Nana Was a Nutcase is a delightfully touching story about growing up, growing old and loving your grandparent no matter how nutty he may seem. He chose 13 subjects he has been interested

in out of the traditional Korean culture and folded into six categories. This book is intended not only for foreign readers who would like to learn more about traditional Korean culture but do not have easy access to it, but also for Korean readers as well who are in search of this country's beauty. Tuttle Publishing "Earth Dance," the story of four generations of Balinese women, centers on conflicts that arise between the demands of caste and personal desires. Narrated by Ida Ayu Telaga, a Balinese woman in her thirties, the novel shows Balinese women-as depicted by her mother, grandmother and female peers-to be motivated by two factors: the yearning to be beautiful, and the desire for a high-caste husband. Headstrong Telaga defies her mother's wishes and marries the man of her dreams, who is a commoner. Thus, in a reversal of societal expectations, as shown in the novel by images

of women who aspire to "liberation" through "marrying up," Telaga's emancipation is implicitly characterized as a move downwards, through transformation to the status of a commoner. "Earth Dance" also reveals that-like high-caste status-beauty, too, has a price. Behind the thick, glossy hair and golden complexion, lies a web of jealousy, derision and intrigue. Telaga, whose life is controlled by her mother's avarice, her mother-in-law's bitterness and the greed of her sister-in-law, has frequent cause to wonder: "Is this what it means to be a woman?"

A brilliant investigation into the debates

surrounding Marilyn Monroe's life and the cultural attitudes that her legend reveals. There are many Marilyns: sex goddess and innocent child, crafty manipulator and dumb blonde, liberated woman and tragic loner. Indeed, the writing and rewriting of this endlessly intriguing icon's life has produced more than six hundred books, from the long procession of "authoritative" biographies to the memoirs and plays by ex-husband Arthur Miller and the works by Norman Mailer and Joyce Carol Oates. But even as the books have multiplied, myth, reality, fact, fiction, and gossip have become only more intertwined; there is still no agreement

about such fundamental questions as Marilyn's given name, the identity of her father, whether she was molested as a child, and how and why she died. The Many Lives of Marilyn Monroe reviews the unreliable and unverifiable-but highly significant-stories that have framed the greatest Hollywood legend. All the while, cultural critic Sarah Churchwell reveals us to ourselves: our conflicted views on women, our tormented sexual attitudes, our ambivalence about success, our fascination with self-destruction. In incisive and passionate prose, Churchwell uncovers the shame, belittlement, and anxiety that we bring to the story of a

woman we supposedly adore. In the process, she rescues a Marilyn Monroe who is far more complicated and credible than the one we think we know.

Using engaging stories and a diverse cast of characters, Lisa Wade memorably delivers what C. Wright Mills described as both the terrible and the magnificent lessons of sociology. With chapters that build upon one another, *Terrible Magnificent Sociology* represents a new kind of introduction to sociology. Recognizing the many statuses students carry, Wade goes beyond race, class, and gender, considering inequalities of all kinds—and their

intersections. She also highlights the remarkable diversity of sociology, not only of its methods and approaches but also of the scholars themselves, emphasizing the contributions of

women, immigrants, and people of color. The book ends with an inspiring call to action, urging students to use their sociological imaginations to improve the world in which they live.
