Saab 99 and 900 is a detailed account of the cars that came from Saab, the aeroplane maker, whose first car - the 92 model - set the standard for advanced design epitomized by the 99 and 900 cars. The author delves deep into the cars' design and history, and into the core Saab values that they carried into production. Topics include: detailed design history of the 99 and 900; year-by-year developments; technically detailed engineering overviews; detailed specifications; advice on owning and buying and, finally, coverage of rallying and special models.

The domestic and international rules governing the qualifications for personnel serving on tank vessels have changed in recent years. To address those new requirements, the fourth edition of *Tanker Operations* incorporates new material by Mark Huber and other contributors, providing an updated textbook for maritime schools and individuals pursuing a tankerman endorsement. It is also a standard reference for anyone involved in the tanker industry. The subject areas from the third edition have been expanded and address such basics as vessel construction and cargo characteristics; cargo piping and venting systems; cargo measurement and transfer operations; ballasting and deballasting; tank cleaning operations and pollution regulations; gas freeing and inert gas systems. New sections include inspection procedures for chartering, cargo pump troubleshooting, and details concerning the role of the tankerman from a commercial perspective in the transportation industry. Separate chapters are devoted to the hazards and precautions relating to enclosed space entry and the emergency operations that involve situations specific to the cargo area of a vessel. Review questions have been incorporated at the end of each chapter to ensure that the information has been covered and understood by the reader. A comprehensive glossary is also provided.

"Well, he said he started, became a fan in 2000. Hes just been a fan of the game ever since." - Carolyn Peck, ESPN Commentator "I think its great to have fans that are that passionate, who care about (the league) that much to invest their time, their energy, their summer vacation to follow the WNBA." -Donna Orender, WNBA President (2005-2010) "Oh, the journey dude? Man vs. Wild, WNBA style!" -Diana Taurasi, Phoenix Mercury My name is Alex Chambers, and I love women's basketball. Yes, it really is that simple. Now come to think of it, loving the game is that simple; being a fan, well, that's another story. The difficulty in being a fan of women's basketball might lie within the struggle to find a televised game, or media coverage you don't have to dig for. It could mean sifting past paragraphs and even pages of negative comments on message boards or blogs to get to a recap of a recent game. Even still, it could be that when I wear my home team's jersey, people ask me, "Is that a professional sports team?" It might also have to do with the fact that (drum roll please) I'm a guy. In 2009, I traveled to all thirteen WNBA arenas. Along the way, I was fortunate enough to meet some of the athletes in the WNBA as well as many passionate fans. This is the story of my twenty-eight day, twelve thousand mile journey, filled with adventure and amazing experiences. Interviews include: Diana Taurasi, Sue Bird, Lauren Jackson, Becky Hammon, Janel McCarville, Lindsay Whalen, Tamika Catchings, Renee Montgomery, Alana Beard, Erin Phillips, Candice Wiggins, and many others!
