*Homecoming: Volume 2* Macmillan

The war for survival of the planet Lusitania will be fought in the heart of a child named Gloriously Bright. On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last. Or so he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Starways Congress so fears the effects of the descolada, should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. The Fleet is on its way, a second xenocide seems inevitable. Xenocide is the third novel in Orson Scott Card's *The Ender Saga*. *THE ENDER UNIVERSE* Ender series Ender's Game / Ender in Exile / Speaker for the Dead / Xenocide / Children of the Mind Ender's Shadow series Ender's Shadow / Shadow of the Hegemon / Shadow Puppets / Shadow of the Giant / Shadows in Flight Children of the Fleet The First Formic War (with Aaron Johnston) Earth Unaware / Earth Afire / Earth Awakens The Second Formic War (with Aaron Johnston) The Swarm /The Hive Ender novellas A War of Gifts /First Meetings At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The first volume in the Homecoming saga from bestselling author Orson Scott Card, *The Memory of Earth* High above the planet Harmony, the Oversoul watches. Its task, programmed so many millennia ago, is to guard the human settlement on this planet--to protect this

fragile remnant of Earth from all threats.

To protect them, most of all, from themselves. The Oversoul has done its job well. There is no war on Harmony.

There are no weapons of mass destruction. There is no technology that could lead to weapons of war. By control of the data banks, and subtle interference in the very thoughts of the people, the artificial intelligence has fulfilled its mission. But now there is a problem. In orbit, the Oversoul realizes that it has lost access to some of its memory banks, and some of its power systems are failing. And on the planet, men are beginning to think about power, wealth, and conquest. The American Empire has grown too fast, and the fault lines at home are stressed to the breaking point. The war of words between Right and Left has collapsed into a shooting war, though most people just want to be left alone. The battle rages between the high-technology weapons on one side, and militia foot-soldiers on the other, devastating the cities, and overrunning the countryside. But the vast majority, who only want the killing to stop and the nation to return to more peaceful days, have technology, weapons and strategic geniuses of their own. When the American dream shatters into violence, who can hold the people and the government together? And which side will you be on? Orson Scott Card is a master storyteller, who has earned millions of fans and reams of praise for his previous science fiction and fantasy novels. Now he steps a little

closer to the present day with this chilling look at a near future scenario of a new American Civil War. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**A Novel** Macmillan

Orson Scott Card and Aaron Johnston return to their Ender's Game prequel series with this first volume of an all-new trilogy about the Second Formic War in *The Swarm*. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese army. China has been devastated by the Formic's initial

efforts to eradicate Earth life forms and prepare the ground for their own settlement. The Scouring of China struck fear into the other nations of the planet; that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading into the system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. There is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. There's a Polemarch, responsible for organizing all the military forces of the planet into the new International Fleet. But there is an enemy within, an enemy as old as human warfare: ambition and politics. Greed and self-interest. Will Bingwen, Mazer Rackam, Victor Delgado and Lem Juke be able to divert those very human enemies in time to create a weapon that can effectively defend humanity in the inexorable Second Formic War? **Ender's Game: Formic Wars**

Macmillan

A hundred years before Ender's Game, humans thought they were alone in the

galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. The mining ship El Cavador is far out from Earth, in the deeps of the Kuiper Belt, beyond Pluto. Other mining ships, and the families that live on them, are few and far between this far out. So when El Cavador's telescopes pick up a fast-moving object coming in-system, it's hard to know what to make of it. It's massive and moving at a significant fraction of the speed of light. But the ship has other problems. Their systems are old and failing. The family is getting too big. There are claim-jumping corporates bringing Asteroid Belt tactics to the Kuiper Belt. Worrying about a distant object that might or might not be an alien ship seems...not important. They're wrong. It's the most important thing that has happened to the human race in a million years. This is humanity's first contact with an alien race. The First Formic War is about to begin. Earth Unaware is the first novel in The First Formic War series by Orson Scott Card and Aaron Johnston. prequel series follows an invasion of terraforming aliens on Earth, which is complicated by politics and power struggles until a small band of humans organize a desperate defense. *Homecoming: Volume 3* Tor Books The story of The First Formic War continues in Earth Awakens. Nearly 100 years before the events of Orson Scott Card's bestselling novel Ender's Game, humans were just beginning to step off Earth and out into the Solar System. A thin web of ships in both asteroid belts; a few stations; a corporate settlement on Luna. No one had seen any sign of other space-faring races; everyone expected that First Contact, if it came, would happen in the future, in the empty reaches between the stars. Then a young navigator on a distant mining ship saw something moving too fast, heading directly for our sun. When the alien ship screamed through the solar system, it disrupted communications between the far-flung human mining ships and supply stations, and between them and Earth. So Earth and Luna were unaware that they had been invaded until the ship pulled into Earth orbit, and began landing terra-forming crews in China. Politics and pride slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. But there are a few men and women who see that if Earth doesn't wake up and pull together, the planet could be lost. 'The fifth and last volume in Card's sprawling Homecoming saga. More than parable, not quite allegory, Card's far-future religious saga manages, brilliantly, to be at once entertaining, unobjectionable, and edifying.' - Kirkus Reviews 'The conclusion of the story, in which the first born son of a former priest and leader sees the evil he has caused and selects his future, is vintage Card and a joy to read.' - Publishers Weekly High above the Earth orbits the starship Basilica. On board the huge vessel is a sleeping woman. Of those who made the journey, Shedemai alone has survived the hundreds of years since the Children of Wetchik returned to Earth. She now wears the Cloak of the Starmaster, and the Oversoul wakes her sometimes to watch over her descendants on the planet below. The population has grown rapidly - there are cities and nations now, whole peoples descended from those who followed Nafai or Elemak. But in all the long years of searching, the Oversoul has not found the thing it sought. It has not found the Keeper of Earth, the central intelligence that alone can repair the Oversoul's damaged programming. The fifth and final volume in Card's majestic Homecoming saga. That is, until space stations and ships and colonies went up in sudden flame. And when that happened, only Mazer Rackham and the Mobile Operations Police could organize in time to meet the threat. Earth Awakens — Politics slowed the response on Earth, and on Luna, corporate power struggles seemed more urgent than distant deaths. It's up to Mazer Rackham's squad in China, who have developed a method to destroy the alien landers one by one; and Lem Jukes and his crew on the Moon, who may have the key to destroying the Formic mother ship in orbit.
