From Concept to Dialogue
SAGE

Showing students why an understanding of theory is crucial to an understanding of political issues, this text brings introduces the major ideologies that have

shaped the modern world and the ideas that form the currency of political debate.

Political Theory

Palgrave Macmillan
"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an

outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia
Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly

shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This

thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of: · Case studies demonstrate how political ideas, concepts and issues manifest in the real world · 'Focus' boxes encourage students to

appreciate alternative viewpoints · A range of thought provoking photographs challenge students to examine concepts from a different angle · Suggestions for further reading and weblinks are also provided to help students to further their understanding
Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative

'how to read' feature which helps students get to grips with difficult primary texts.

Handbook of Political Theory Cambridge University Press
Feminist Political Theory provides both a wide-ranging history of western feminist thought and a lucid analysis of contemporary debates. It offers an accessible and thought-provoking account of complex theories, which it relates to 'real-life' issues such as sexual violence, political representation and the

family. This timely new edition has been thoroughly updated to incorporate the most recent developments in feminism and feminist scholarship throughout, in particular taking into account the impact of black and postmodern feminist thought on feminist political theory. The Notion of the State SAGE
From Ideologies to Public Philosophies: An Introduction to Political Theory provides a comprehensive and systematic account of the

major ideologies of the 19th and 20th centuries—along with contemporary and emerging outlooks—to address the essential questions of political theory. Explores the major ideologies of the 19th and 20th centuries while making clear distinctions for the reader between often-confused interpretations of ideologies Engaging 'reader friendly' style will appeal to students and facilitate sophisticated discussions Develops and defends pluralism as a

broad public policy that is accepted by diverse political groups Supported by a glossary of terms, suggestions for further reading, and other helpful student and instructor resources at www.blackwellpublishing.com/schumaker

Aristotle's Political Theory Springer

This student textbook introduces the concept of political theory from various viewpoints, such as justice and the law, government and the state, and equality and human rights. It analyzes

the concepts of power, liberty and a series of political principles. *Political Theory* CQ Press This revised edition examines a fairly wide range of issues on political theory, identified at the beginning of the new millennium. Elaborating the nature and significance of political theory, the book delves into the concept of ideology, nature and different views on politics and approaches to the study of politics. It is designed to cater to the needs of various Indian

universities and competitive examinations including the Civil Services examination.

INTRODUCTION TO POLITICAL THEORY.

Bloomsbury Publishing Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth,

both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory. Throughout, the book challenges readers to think critically about

political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

Strategy and Politics SAGE Publications Pvt. Limited What Is Political Theory? provides students with a comprehensive overview of the current state of the discipline. Eleven substantive chapters address the most pressing topics in political theory today, including: - what resources do the classic texts still provide for

political theorists? - what areas will political theorists focus on in the future? - can western political theory alone continue to provide a framework for responding to the challenges of modern political life? The authors assess the intellectual challenges to conventional political theory, such as post-structuralism and the scientific study of politics, that have revitalized the field in the last 30 years. They also broaden the perspective to take in non-western ideas and to

reconceptualize political theory in the light of specifically global challenges. Students and teachers of political theory and political philosophy will find this book invaluable in understanding the factors that have shaped current political theory and which will guide its future development.

An Introduction to Modern Political Theory Oxford [Eng.] ; New York : Clarendon Press
 History of Political Theory: An Introduction not only explores the great works

of Western political theory but demonstrates their continuing relevance. Volume II traces the origin and development of liberal political theory, and so the foundations for contemporary views. The work provides a readable, scholarly introduction to the great figures in Western political theory from Hobbes to Marx. Major theorists examined include Hobbes, Locke, Hume, Montesquieu, Rousseau, Burke, Mill, and Marx, not only major figures in the liberal tradition but liberal

political theory's most important critics. Theorists are examined in their historical contexts, with extensive quotations allowing them to speak for themselves. Central concepts employed in their works are carefully examined, with special attention to both how they fit together to form coherent theories and how they bear on issues of contemporary concern. Major concepts examined include freedom, rights, political obligation, and revolution. Emphasizing depth rather than

breadth, this work is an ideal introduction tool for instructors who have been searching for a text that combines careful exposition of important political theorists and clear, critical analysis.

An Introduction to Political Theory (by) Carl J.

Friedrich Palgrave
Macmillan

Positive Political Theory I is concerned with the formal theory of preference aggregation for collective choice. The theory is developed as generally as possible, covering classes of

aggregation methods that include such well-known examples as majority and unanimity rule and focusing in particular on the extent to which any aggregation method is assured to yield a set of "best" alternatives. The book is intended both as a contribution to the theory of collective choice and a pedagogic tool. Austen-Smith and Banks have made the exposition both rigorous and accessible to people with some technical background (e.g., a course in multivariate calculus). The

intended readership ranges from more technically-oriented graduate students and specialists to those students in economics and political science interested less in the technical aspects of the results than in the depth, scope, and importance of the theoretical advances in positive political theory. "This is a stunning book. Austen-Smith and Banks have a deep understanding of the material, and their text gives a powerfully unified and coherent perspective

on a vast literature. The exposition is clear-eyed and efficient but never humdrum. Even those familiar with the subject will find trenchant remarks and fresh insights every few pages. Anyone with an interest in contemporary liberal democratic theory will want this book on the shelf." --Christopher Achen, University of Michigan David Austen-Smith is Professor of Political Science, Professor of Economics, and Professor of Management and

Strategy, Northwestern University. Jeffrey S. Banks is Professor of Political Science, California Institute of Technology. *Against the State* Polity Blending high-interest original writing with select primary sources on political theory, From Concept to Dialogue: An Introduction to Political Theory fosters appreciation for and critical thinking about major political concepts. The text poses thought-provoking questions that guide readers into

drawing critical information out of challenging material. Part I introduces students to several concepts that political philosophers assume regarding human nature, knowledge, rationality, and morality. Part II examines different arguments for why government exists, how extensive political authority is, and who should rule. In Part III, students draw upon the knowledge they gained in Parts I and II to consider two main variants of democratic citizenship:

liberal citizenship and participatory citizenship. Students are challenged to distinguish between these two models and consider what rights and obligations they have as citizens. The second edition features updated information and concepts throughout to reflect recent developments in politics and society. The book has been reorganized into three parts to better explore the overarching topics of political assumptions, government, and good citizenship. Dialogue

boxes at the end of certain chapters engage students in applying concepts to different situations. Designed to help readers become more informed on popular policy debates and to inspire a greater level of civic mindedness, From Concept to Dialogue is an ideal textbook for courses in introductory political science and political philosophy.

An Introduction to Political Philosophy Oxford

University Press

The fifth edition of this seminal textbook by best-

selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of

tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics

courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - New Politics in Action features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?';

and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and

a guide to using the book. *Introduction To Political Ideologies* OUP Oxford Political Theory: An Introduction is a pioneering political theory textbook that is a step towards making students do and evolve an Indian political theory, that is, theory born out of reflection on and engagement with Indian social and political practices. It innovatively embeds Indian cases and contexts in the theoretical discussions and involves students in applying theories to current issues.

Without oversimplifying concepts, this textbook uses the conversational, context-specific style of a good teacher and recreates the flavour of the classroom inside its covers. Some of its special features are: An outline for each chapter highlighting its main elements, an introductory section discussing the concept, and rationale of chapter organization, cross-referencing of important terms, points for discussion and a detailed reading list. Political Theory Wiley-

Blackwell "This new edition of Will Kymlicka's best selling critical introduction to contemporary political theory has been fully revised to include many of the most significant developments in Anglo-American political philosophy in the last 11 years, particularly the new debates on political liberalism, deliberative democracy, civic republicanism, nationalism, and cultural pluralism." "The book now includes two new chapters on citizenship theory and

multiculturalism, in addition to updated chapters on utilitarianism, liberal egalitarianism, libertarianism, Marxism, communitarianism, and feminism. Extended guides to further reading have been added at the end of each chapter, listing the most important books and articles on each school of thought, as well as relevant journals and web sites."--BOOK JACKET.

Education India

The philosophy of politics

As an introduction to political theory and science, this collection of writings by the great philosophers will be of close interest to general readers. It also forms a basic textbook for students of government and political theory. Such fundamental concepts as Democracy, the Rule of Law, Justice, Natural Rights, Sovereignty, Citizenship, Power, the State, Revolution, Liberty, Reason, Materialism, Toleration, and the Place of Religion in Society are traced from their origins,

through their development and changing patterns, to show how they guide political thinking and institutions today. And new in this edition, examinations of selected works by Sophocles, Francois Hotman, and Francisco Suarez. Also new are a detailed table of contents and an updated, comprehensive bibliography--each clear and concise for easy reference. The second volume of Professor Curtis' work, also available in a Discus

edition, includes the writings of the eighteenth, nineteenth, and twentieth century thinkers--from Burke, Rousseau, and Kant to modern times.
