Historically, major women artists have been excluded from the mainstream art canon. Aligned with the resurgence of feminism in pop culture, Broad Strokes offers an entertaining corrective to that omission. Art historian Bridget Quinn delves into the lives and careers of 15 female artists from around the globe in

text that's smart, feisty, educational, and an enjoyable read.

Replete with beautiful reproductions of the artists' works and contemporary portraits of each artist by renowned illustrator Lisa Congdon, this is art history from the Renaissance to Abstract Expressionism for the modern art lover, reader, and feminist.

Art History 101 Without the Exams

Allyn & Bacon

This monumental new book is the first to celebrate the greatest and most iconic paintings from the encyclopedic collections of The Metropolitan Museum of Art, New York, one of the largest, most important, and most beloved museums in the world. This

impressive volume's broad sweep of material, all from a single museum, makes it at once a universal history of painting and the ideal introduction to the iconic masterworks of this world-renowned institution. More than 1,000 lavish color illustrations and details of 500 masterpiece paintings, created over 5,000 years in cultures across the globe, are presented chronologically from the dawn of civilization to the present. These works represent a grand tour of painting from ancient Egypt and classical antiquity and prized Byzantine and medieval altarpieces, to paintings from Asia, India, Africa and the Americas, and and the greatest European and North American

masters. The Metropolitan Museum of Art includes and introduction and illuminating texts about each artwork written specially for this volume by Kathryn Calley Galitz, whose experience as both curator and educator at the Met makes her uniquely qualified. European and American artists include Duccio, El Greco, Raphael, Titian, Botticelli, Bronzino, Caravaggio, Turner, Velázquez, Goya, Rubens, Rembrandt, Brueghel, Vermeer, David, Renior, Monet, Van Gogh, Gauguin, Cézanne, Degas, Sargent, Homer, Matisse, Picasso, Pollock, Jasper Johns, and Warhol. The artworks are arranged in rough chronological order, without regard

to geography or culture, offering a visual timeline of the history of painting, from the earliest examples on pottery jars made over five thousand years ago to canvases on which the paint has barely dried. Freed from the constraints imposed by the physical layout of the Museum, the paintings resonate anew; and this chronological framework reveals unexpected visual affinities among the works. For those wishing to experience the unparalleled breadth and depth of the Met's collection, or study masterpieces of painting from throughout history, this important volume is sure to become a classic cherished by art lovers around the

world.

A Global History

Art loves music: From the tombs of Ancient Egypt to the late 20th century, painting and sculpture have played their variations on musical themes. Tom Phillips examines masterpieces from the history of the visual arts that have been inspired by music. In a series of colorful images we meet the music-makers -- the men and women who, in the act of playing and listening to music, have provided rich subject matter for artists throughout the centuries. The long affair between these arts had its passionate moments. The orchestral angels of the Renaissance and the seraphic choristers of the Baroque yield to

the domestic music-making of the masters of the Dutch interior. The pastoral concerts of Venetian and French artists of the 17th and 18th centuries give way to the Impressionists and the still lifes and soloists of Cubism. Finally, the musical abstractions of Paul Klee and Wassily Kandinsky lead to the often-ironic or iconoclastic references to music in the experimental art of the end of this century. Tom Phillips seeks out these colorful meetings between the sister arts and spins an intriguing web of anecdote and interpretation to link them through the ages. As an artist, he understands how pictures are made and as a writer he can convey this understanding with

humor and clarity. Since he is also a composer in his own right his insights have the added value of musical authenticity as well as artistic authority. Each of the 50 short essays focuses on a particular work of art or contrasts two or more approaches to a similar theme. A diverse range of artists is featured, including Rembrandt, Leonardo, Veronese, Titian, Caravaggio, Renoir, Van Gogh, Matisse and Picasso. We are introduced to composers who are painters, and painters who are accomplished musicians, and learn how their thoughts can often provide the key to understanding musical and artistic styles.

Muse Chronicle Books
Meet the unexpected, overlooked and forgotten models of art history. Who was Picasso's 'Weeping Woman'? Why was Grace Jones covered in graffiti? How did Francis Bacon meet the burglar who became his muse? The perception of the muse is that of a passive, powerless model, at the mercy of an influential and older artist. But is this trope a romanticised myth? Far from posing

silently, muses have brought emotional support, intellectual energy, career-changing creativity and practical help to artists. Muse tells the true stories of the incredible muses who have inspired art history's masterpieces. From Leonardo da Vinci's studio to the covers of Vogue, art historian, critic and writer Ruth Millington uncovers the remarkable role of muses in some of art history's most well-known and significant works. Delving into the real-life relationships that models have held with the artists who immortalised them, it will expose the influential and active part they have played and deconstruct reductive stereotypes, reframing the muse as a momentous and

empowered agent of art history.
