This Streamlining

Advanced English is

not intended as a

textbook only, but

rather as a companion

to those who are still

not satisfied with their

ability to use and

understand English,

particularly in

enriching the vocals,

idioms, and structures,

to pass the

examination at the

university level. The

book is designed to

give adequate reading

material in an area of

education, so then the readers may be well familiar with some terms, styles, and glossaries used in daily communication in this due regard.

This is made because the main the purpose of learning any language should be to communicate, either in speech or in writing, with other people anywhere in the world. It is mostly by our writing or speaking that we are judged by other persons meeting us for the first time in person, or reading letters from us, even if they have never met us at all before. The way we write and the way we speak are indications of our character. Knowledge, education, and ability are good things to have but if they have not taught us what is

good and bad in writing and speaking then they have not really helped us. The care we take in gathering our knowledge and thoughts together and expressing them in words is the true indication of what kind of education and background we have had and also what sort of persons were. In this regard, the book presents some sections, include Reading Comprehension, Grammar, vocabulary, and usage as well as structure. The comprehension passages have been chosen for the interesting content, their rich vocabulary, and their varied styles. There is a balance between passages that are almost used to enrich the knowledge

in education and which are used to introduce some aspects of character construction. In the grammar section, the readers are introduced to some grammatical expressions completed with their exercises, so the readers may improve their ability to recognize the truth from the wrong expression of English. The vocabulary and usage section is designed to give an example of what detailed language expressions must be mastered by the readers. And finally, some styles of language examination questions are also introduced at the end of the section for further measuring the reader's language competence. The intention of this simple

book, no doubt is to streamline the spirit of learning English for the readers who have passed the level of intermediate, wishing to learn the advanced one. The writer firmly believes that they or one master this language the more he could make himself a dynamic and could play an important role in the next social life. Based on the fact that the English language at the time being is considered as a medium of science and technology development. It is the belief of the writer that once the mind of the reader is stimulated and interest created in him for this reading comprehension, he will find the joy of creation for himself which is the ultimate aim of the writer. At last, the

writer is pleased and welcome any suggestions from the readers to further make up this very humble and writing presentation.
