By contrast

this one is not

a Hanon at all

by which I

mean

exercises in all

keys each

focusing on a

specific

technical

problem,

which at least

the other one

was in format.

This book is

more of an

introduction to

blues piano

and has some

material of

possible value

but the

"exercises"

are essentially

a few written

out songs that

do (to the

books credit)

focus on a

particular

technical

issue.
