One of the most common questions new writers ask professionals is how they wrote their book—what was their process for storytelling? Did they use an outline to plan the book, or write it from the seat of their pants? But really the question should be about the general principles and nature of storycraft—does every

part of a story have what it needs to keep readers turning the pages? Bestselling author and creator of StoryFix.com Larry Brooks changes the sound of the writing conversation by introducing a series of detailed criteria for novelists of every level and genre to refer to while writing, regardless of their preferred writing method. Beginning with the broadest part of the story, the early checklists help writers to ensure that their novel is based on a premise rather than an idea, and gradually hones in on other elements to keep the story moving forward including: · dramatic tension · narrative strategy · scene construction Readers won't

know or care about the process. But what Brooks offers here is a chance for readers to make the most of whichever process they choose, and in doing so cut years off their learning curve.

A powerful secret and a fresh approach to writing bestselling fiction! What's the best way to write a "next level" novel? Some writers start at the beginning and let the story unfold without a plan. They are called "pantsers," because they write by the "seat of the pants." Other writers plan and outline and know the ending before they start. These are the "plotters." The two sides never seem to agree with each other on the best approach. But what if it's not the beginning or the end that is the key to a successful book? What if, amazing as it may seem, the place to begin writing your novel is in the very middle of the story? According to #1 bestselling writing teacher James Scott Bell, that's exactly where you'll find your story's heart and heat. Bell's "Mirror Moment" is the secret, and its power is available to any writer, at any stage of the writing process. Bringing together years of craft study and personal discovery, Bell presents a truly unique approach to writing a novel, one that will stand the test of time and serve you all your writing life. "I need three things before I tackle a new novel: Diet Coke, a laptop, and my dog-eared copies of James Scott Bell's books on writing craft!"- Kami Garcia, #1 NYT Times & International Bestselling author

Why I Write Compendium Press

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism.

While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Why I Write, the first in the Orwell's Essays series, Orwell describes his journey to becoming a writer, and his movement from writing poems to short stories to the essays, fiction and non-fiction we remember him for. He also discusses what he sees as the 'four great motives for writing' – 'sheer egoism', 'aesthetic enthusiasm', 'historical impulse' and 'political purpose' – and considers the importance of keeping these in balance. Why I Write is a unique opportunity to look into Orwell's mind, and it grants the reader an entirely different vantage point from which to consider the rest of the great writer's oeuvre. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

This remarkable and monumental book at last provides a comprehensive answer to the age-old riddle of whether there are only a small number of 'basic stories' in the world. Using a wealth of examples, from ancient myths and folk tales via the plays and novels of great literature to the popular movies and TV soap operas of today, it shows that there are seven archetypal themes which recur throughout every kind of storytelling. But this is only the prelude to an investigation into how and why we are 'programmed' to imagine stories in these ways, and how they relate to the inmost patterns of human psychology. Drawing on a

vast array of examples, from Proust to detective stories, from the Marquis de Sade to E.T., Christopher Booker then leads us through the extraordinary changes in the nature of storytelling over the past 200 years, and why so many stories have 'lost the plot' by losing touch with their underlying archetypal purpose. Booker analyses why evolution has given us the need to tell stories and illustrates how storytelling has provided a uniquely revealing mirror to mankind's psychological development over the past 5000 years. This seminal book opens up in an entirely new way our understanding of the real purpose storytelling plays in our lives, and will be a talking point for years to come.

"I told you mothers do not matter here. We are all your mothers. Isn't that better than just having one?" An ordinary weekend becomes surreal when Celena's mother, whom she has not seen for years, returns to claim her. Told that she is going to visit a place called Synanon, six-year-old Celena leaves her native Los Angeles on a bus for a secluded ranch setting in Northern California where the residents are strangely bald and dressed uniformly in overalls. Coming to realize this eerie institution is to be her new home, Celena is ultimately forced to develop a new strength of being to protect herself against the abusive school demonstrators, the troubled children, and the chilling thought that she and her mother might never leave. C.A. Wittman's daring memoir is a coming-of-age story about growing up in a cult, the unconditional love between a mother and daughter, and how that love helped a young girl to grow and flourish against the odds of her distorted childhood.

In their youth, Manni and Franzi, together with their brothers,

Ziggy and Sebastian, captured Germany's collective imagination as the Flying Magical Loerber Brothers -- one of the most popular vaudeville acts of the old Weimar days. The ensuing years have, however, found the Jewish brothers estranged and ensconced in various occupations as the war is drawing near its end and a German surrender is imminent. Manni is traveling through the Ruhr Valley with Albert Speer, who is intent on subverting Hitler's apocalyptic plan to destroy the German industrial heartland before the Allies arrive; Franzi has become inextricably attached to Heinrich Himmler's entourage as astrologer and masseur; and Ziggy and Sebastian have each been employed in pursuits that threaten to compromise irrevocably their own safety and ideologies. Now, with the Russian noose tightening around Berlin and the remnants of the Nazi government fleeing north to Flensburg, the Loerber brothers are unexpectedly reunited. As Himmler and Speer vie to become the next Führer, deluded into believing they can strike a bargain with Eisenhower and escape their criminal fates, the Loerbers must employ all their talents -- and whatever magic they possess -- to rescue themselves and one another. Deftly written and darkly funny, Germania is an astounding adventure tale -- with subplots involving a hidden cache of Nazi gold, Hitler's miracle U-boats, and Speer's secret plan to live out his days hunting walrus in Greenland -- and a remarkably imaginative novel from a gifted new writing talent.
