The cricket spends the warm summer days playing and singing while the ant collects food. What will happen when winter comes?

*White Oleander* Routledge

Life is an adventure to embark upon. Having traveled around the world, my life has been full of separations, and new beginnings. Time flows incessantly, no matter what happens around us. The last six years of my life describe a unique journey from high school in Sudan to a university in Canada. The experience enabled me to learn the importance of family, friends, and love-along with the need to live life without regrets. My story begins with my struggles as an eleventh grader at Khartoum American

School in Sudan, revealing the raw emotions of my first infatuation with a girl, her rejection, and my subsequent efforts to move on without her. Nothing could have prepared me then for the sequence of events that were to unfold in my life that summer, and the few years that followed. It all began when I found a friend in Tina. Our Last Summer offers a poignant glimpse into a young man's coming-of-age journey through laughter, tears, betrayal, infatuation, and love as he cherishes the memories of his past, learns to live in the present, and happily anticipates his future.

A framework for understanding the distinctiveness of Indian cinema as a national cinema within a global context dominated by Hollywood is proposed by this book. With its sudden explosions into song-and-dance sequences, half-time intermissions and heavy traces of censorship, Indian cinema can

be identified as a 'Cinema of Interruptions'. To the uninitiated viewer, brought up on the seamless linear plotting of Hollywood narrative, this unfamiliar tendency towards digression may appear random and superfluous, yet this book argues that such devices assist in the construction of a distinct visual and narrative time-space. In the hands of imaginative directors, the conventions of Indian cinema become opportunities for narrative play and personal expression in such films as 'Sholay' (1975), 'Nayakan' (1987), 'Parinda' (1989), 'Hathiyar' (1981) and 'Hey Ram!' (1999). 'Cinema of Interruptions' places commercial Indian film within a global system of popular cinemas, but also points out its engagement with the dominant genre principles implemented by Western film. By focusing on the action-genre work of leading contemporary directors J.P. Dutta, Mani Ratnam, and Vidhu Vinod Chopra, brazen national style is shown to interact with international genre films to produce a hybrid form that reworks the gangster film, the western and the avenging woman genre. Central to this study is the relationship Indian cinema shares with its audience, and an understanding of the pleasures it offers the cinephile. In articulating this bond the book presents not only a fresh framework for understanding popular Indian cinema but also a contribution to film genre studies.

Rajinikanth is, quite simply, the biggest superstar cinema-crazy India has ever seen. His stylized dialogues and screen mannerisms are legion, and his guy-next-door-cum-superhero

image has found a hysterically appreciative following among millions of moviegoers. Naman Ramachandran's marvellous biography recounts Rajini's career in meticulous detail, tracing his incredible cinematic journey from Apoorva Raagangal (1975) to Kochadaiyaan (2013). Along the way, the book provides rare insights into the Thalaivar's personal life, from his childhood days to his times of struggle—when he was still Shivaji Rao Gaekwad—and then his eventual stardom: revealing how a legend was born.

The Cambridge Companion to Film Music IGI Global

Almost all show-world success stories in India appear the same. What sets individuals apart is the approach and the attitude once they reach the top. No one can resist a rags-to-riches story. It is every common man's dream. But Rajinikanth's story is irresistible. He continues to be an enigma to both his fans and contemporaries. He is simple Shivaji Rao Gaekwad who, by way of luck and hard work became a superstar, and continues to remain on top notwithstanding the vagaries of time. His starrer Muthu gave him an enviable identity globally, and sky seemed the limit after its unprecedented success in Japan. His latest, Shivaji has further spread his charisma globally. One can love Rajinikanth as millions do, one can hate him, as his detractors do, but the fact also remains no one can ignore him. None can shrug away his presence unless he or she is extremely insensitive to the film world. The book painstakingly seeks to record every nuance of Rajinikanth's life: the joys and sorrows, the pains and ecstasies, loves and betrayals. It also does not shy away from underlining the two extremes that have remained an intrinsic part of his highly eventful career: the human and the divine. The

book tells the essential truth about Rajinikanth that has thus far remained unknown to his vast fan following.

The first full-length memoirs of a Namboodiri woman, the work reveals little-known facets of a Namboodiri woman's life lived behind closed doors. Told without a trace of self-pity, the work throws interesting sidelights on the social history of a largely insular community.

The Story Behind THE LEGEND OF BAGGER VANCE If you've read his books THE WAR OF ART and TURNING PRO, you know that for thirty years Steven Pressfield (GATES OF FIRE, THE AFGHAN CAMPAIGN etc.) wrote spec novel after spec novel before any publisher took him seriously. How did he finally break through? Ignoring just about every rule of commercial book publishing, Pressfield's "first" novel not only became a major bestseller (over 250,000 copies sold), it was adapted into a feature film directed by Robert Redford and starring Matt Damon, Will Smith, and Charlize Theron. Where did he get the idea? What magical something did THE LEGEND OF BAGGER VANCE have that his previous manuscripts lacked? Why did Pressfield decide to write a novel when he already had a well established screenwriting career? How does writing a publishable novel really work? Taking a page from John Steinbeck's classic JOURNAL OF A NOVEL, Steven Pressfield offers answers for these and scores of other practical writing questions in THE AUTHENTIC SWING.

Earning money is important for sustenance and people resort to it by working at a job or starting a venture. But to meet the material aspirations of individuals, it is important to make money earn too instead of lying idle. Wealth creation is the buzzword, and being successful at it is no matter of chance. A proper understanding of the various instruments of investment, how they appreciate and depreciate, and when to buy and sell/invest in or withdraw are important for this. 'Bulls and Bears all about shares' by Soma Valliappan breaks this very myth. Unlike the popular belief, investing in the stock market is not like gambling. It works on certain basic principles and is well governed by rules and regulations, like all other legal modes of investments. What one requires is the eye to identify good companies to invest in, the right price and a certain watchfulness. 'Bulls and Bears all about shares' was first published in Tamil (by name Alla Alla Panam) and became a handbook for the several people who had always lingered on the sidelines, fearing to take the plunge into the uncertain world of stock markets. The English version is being published to reach out to a wider population across the country so that they may benefit too from Soma Valliappan's experience and insights.

As records of the link between a manuscript and the texts it

contains, paratexts document many aspects of a manuscript's life: production, transmission, usage, and reception.

Comprehensive studies of paratexts are still rare in the field of manuscript studies, and the universal categories of time and space are used to create a common frame for research and comparisons. Contributions in this volume span over three continents and one millennium.

Ammu to Amma Createspace Independent Publishing Platform One of the first ethnographic studies to explore use of social media in the everyday lives of people in Tamil Nadu, Social Media in South India provides an understanding of this subject in a region experiencing rapid transformation. The influx of IT companies over the past decade into what was once a space dominated by agriculture has resulted in a complex juxtaposition between an evolving knowledge economy and the traditions of

rural life. While certain class tensions have emerged in response to this juxtaposition, a study of social media in the region suggests that similarities have also transpired, observed most clearly in the blurring of boundaries between work and life for both the old residents and the new. Venkatraman explores the impact of social media at home, work and school, and analyses the influence of class, caste, age and gender on how, and which, social media platforms are used in different contexts. These factors, he argues, have a significant effect on social media use, suggesting that social media in South India, while seeming to induce societal change, actually remains bound by local traditions and practices.

Memoirs of a Namboodiri Woman Little, Brown

In Radiant Infrastructures Rahul Mukherjee explores how the media coverage of nuclear power plants and cellular phone antennas in India—what he calls radiant infrastructures—creates environmental publics: groups of activists, scientists, and policy makers who use media to influence public opinion. In documentaries, lifestyle television shows, newspapers, and Bollywood films, and through other forms of media (including radiation-sensing technologies), these publics articulate contesting views about the relationships between modernity, wireless signals, and nuclear power. From testimonies of cancer patients who live close to cell towers to power plant operators working to contain information about radiation leaks and health risks, discussions in the media show how radiant infrastructures are at once harbingers of optimism about India's development and emitters of potentially carcinogenic radiation. In tracing these dynamics, Mukherjee expands understandings of the

relationship between media and infrastructure and how people make sense of their everyday encounters with technology and the environment.
