*The Cape Town Commitment: A  
Confession of Faith, A Call to Action* G.  
McBride

The Cape Town Commitment, which arose from The Third Lausanne Congress on World Evangelization (Cape Town, 2010), stands in the historic line of The Lausanne Covenant (1974) and The Manila Manifesto (1989). It has been translated into twenty-five languages and has commanded wide

acceptance around the world. The Commitment is set in two parts. Part 1 is a Confession of Faith, crafted in the language of covenantal love. Part 2 is a Call to Action. The local church, mission agencies, special-interest groups, and Christians in the professions are all urged to find their place in its outworking. This annotated bibliography of The Cape Town Commitment, arranged by topic, has been compiled by specialists in a range of fields. As such, it is the first bibliography of its kind. Arranged in sections for graduate-level teaching Equally useful for research

We all have dreams when we are sleeping. Some we cannot remember; others we can. Some are humorous; some are sad. Some dreams can be frightening. I wonder though, how many of us have dreams that come true? This is a very difficult question to answer. Dulk travels down the road of dreams and finds out if his dreams come true, how they might affect his life and his beliefs, and how they might help him contribute to helping solve problems and difficulties of his friends as well has

humankind and the world. Join Dulk on his adventures through dreamland. He will make you laugh and cry, hopefully, resetting on dreams that might have come true or have interesting outcomes. So keep dreaming!

An introduction to critical pedagogy for all those working within higher education. Critical Pedagogy is an approach that is fundamentally democratic, informal, non-hierarchical, determined by participants, privileges the oppressed and their perspectives and is committed to action. Higher education (HE), conversely, is often un-democratic, formal, hierarchical, determined by tutors and national bodies, re-inscribes existing privileges and is distant from lived experience. The book starts from the premise that critical pedagogies are possible in HE, while recognising the tensions to be ameliorated in trying to enact them. It re-examines the concept and explores its practical application at an institutional level, within the curriculum, within assessment, through learning and teaching and in the spaces in-between. The Critical Practice in

Higher Education series provides a scholarly and practical entry point for academics into key areas of higher education practice. Each book in the series explores an individual topic in depth, providing an overview in relation to current thinking and practice, informed by recent research. The series will be of interest to those engaged in the study of higher education, those involved in leading learning and teaching or working in academic development, and individuals seeking to explore particular topics of professional interest. Through critical engagement, this series aims to promote an expanded notion of being an academic – connecting research, teaching, scholarship, community engagement and leadership – while developing confidence and authority.

In her attempts to juggle work and family life, Brigid Schulte has baked cakes until 2 a.m., frantically (but surreptitiously) sent important emails during school trips and then worked long into the night after her children were in bed. Realising she had become someone who constantly burst in late, trailing shoes and schoolbooks and

biscuit crumbs, she began to question, like so many of us, whether it is possible to be anything you want to be, have a family and still have time to breathe. So when Schulte met an eminent sociologist who studies time and he told her she enjoyed thirty hours of leisure each week, she thought her head was going to pop off. What followed was a trip down the rabbit hole of busy-ness, a journey to discover why so many of us find it near-impossible to press the 'pause' button on life and what got us here in the first place. Overwhelmed maps the individual, historical, biological and societal stresses that have ripped working mothers' and fathers' leisure to shreds, and asks how it might be possible for us to put the pieces back together. Seeking insights, answers and inspiration, Schulte explores everything from the wiring of the brain and why workplaces are becoming increasingly demanding, to worldwide differences in family policy, how cultural norms shape our experiences at work, our unequal division of labour at home and why it's so hard for everyone – but women especially – to feel they deserve an elusive moment of peace.

Between 2007 and 2012, Nashville's local jail participated in an immigration enforcement program called 287(g), which turned jail employees into immigration officers who identified over ten thousand removable immigrants for deportation. The vast majority of those identified for removal were not serious criminals, but Latino residents arrested by local police for minor violations. *Protect, Serve, and Deport* explains how local politics, state laws, institutional policies, and police practices work together to deliver immigrants into an expanding federal deportation system, conveying powerful messages about race, citizenship, and belonging.

Evidence for the negative effects of segregation and concentrated poverty in

America's cities now exists in abundance; poor and underrepresented communities in segregated urban housing markets suffer diminished outcomes in education, economic mobility, political participation, and physical and psychological health. Though many of the aggravating factors underlying this inequity have persisted or even grown worse in recent decades, the level of energy and attention devoted to them by local and national policymakers has ebbed significantly from that which inspired the landmark civil rights legislation of the 1960s. Marking 50 years since the passage of the Fair Housing and Civil Rights Acts, *Facing Segregation* both builds on and departs from two generations of scholarship on urban development and inequality. Authors provide historical context for patterns of segregation in the United States and present arguments for bold new policy actions ranging from local innovations to national initiatives. The volume refocuses attention on achievable solutions by providing not only an overview of this timely subject, but a roadmap forward as the twenty-first century assesses the successes and failures of the housing

policies inherited from the twentieth. Rather than introducing new theories or empirical data sets describing the urban landscape, Metzger and Webber have gathered the field's first collection of prescriptions for what ought to be done.

'Mozart for Guitar' is the second volume in the Schott Composers' series which makes the most famous masterpieces accessible to guitar players thanks to special arrangements for the guitar. Pupils, students and music lovers are of course interested in getting to know better both original guitar music and famous works and their music. The guitar moves the music into a tonal area which gives the music a rather intimate and sometimes dreamy character. The ideal album for guitar-playing Mozart lovers!

Speaking at a 1913 National Geographic Society gala, Hiram Bingham III, the American explorer celebrated for finding the "lost city" of the Andes two years earlier, suggested that Machu Picchu "is

an awful name, but it is well worth remembering." Millions of travelers have since followed Bingham's advice. When Bingham first encountered Machu Picchu, the site was an obscure ruin. Now designated a UNESCO World Heritage Site, Machu Picchu is the focus of Peru's tourism economy. Mark Rice's history of Machu Picchu in the twentieth century—from its "discovery" to today's travel boom—reveals how Machu Picchu was transformed into both a global travel destination and a powerful symbol of the Peruvian nation. Rice shows how the growth of tourism at Machu Picchu swayed Peruvian leaders to celebrate Andean culture as compatible with their vision of a modernizing nation. Encompassing debates about nationalism, Indigenous peoples' experiences, and cultural policy—as well as development and globalization—the book explores the contradictions and ironies of Machu Picchu's transformation. On a broader level, it calls attention to the importance of tourism in the creation of national identity in Peru and Latin America as a whole.

Rooktime It is an ordinary summer's day when Mark and Laura Murray set off for a picnic. To their astonishment, as they ride round a familiar corner they find their way blocked by a high hedge. Abandoning their bikes, they push through the tangle of spiky twigs and find themselves not in Pike Lane, as they had expected, but standing at the edge of a vast lake. Although they do not know it, they are in Rookland, kingdom of Silver Crest, lord of the birdmen: creatures with the bodies of men and the heads and talons of giant birds. Two of Silver Crest's servants are at this moment rowing across the lake to capture the brother and sister, in order to add them to the team of other children who

already work as slaves in the pine forests of Rookland. Will Mark and Laura be condemned to live for ever as prisoners of these vicious birdmen, with their terrifying eyes on the backs of their hands, and their malicious pets, the rook-spies? 'Rooktime' tells of the many dangers they and their fellow slaves have to face, dangers that unite them all and reveal reserves of courage they never knew they possessed.
