This book discusses the latest advances in people-centered design, operation, and management of broadly defined advanced manufacturing systems and processes. It reports on human factors issues related to various research areas such as intelligent manufacturing technologies, web-based manufacturing services, digital manufacturing worlds, and manufacturing knowledge support systems, as well as other contemporary manufacturing environments. The book covers an extensive range of applications of human factors in the manufacturing industry: from work design, supply chains, evaluation of work systems, and social and organization design, to manufacturing

systems, simulation and visualization, automation in manufacturing, and many others. Special emphasis is given to computer aided manufacturing technologies supporting enterprises, both in general and in the manufacturing industry in particular, such as knowledge-based systems, virtual reality, artificial intelligence methods, and many more. Based on the AHFE 2017 International Conference on Human Aspects of Advanced Manufacturing, held on July 17-21, 2017, in Los Angeles, California, USA, the book provides readers with a timely snapshot of the enterprises of the future and a set of cutting-edge technologies and methods for building innovative, human-centered, and computer-integrated manufacturing systems.

UNIX, UNIX LINUX & UNIX TCL/TK. Write software that makes the most effective use of the Linux system, including the kernel and core system libraries. The majority of both Unix and Linux code is still written at the system level, and this book helps you focus on everything above the kernel, where applications such as Apache, bash, cp, vim, Emacs, gcc, gdb, glibc, ls, mv, and X exist. Written primarily for engineers looking to program at the low level, this updated edition of Linux System Programming gives you an understanding of core internals that makes for better code, no matter where it appears in the stack. -- Provided by publisher.

Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (Smithsonian). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped

an international spy ring fueled by cash, cocaine, and the KGB.

Politics on the Nets HarperCollins

The price of betrayal is more than thirty pieces of silver. Two days after Jesus Christ's crucifixion, Judas Iscariot receives an anonymous note stating, I know what you did. Wrapped with it is an eye, complete with trailing optic nerve, and a splintered tooth-trophies ripped from two recently butchered friends. Someone, it seems, knows what Judas did on that fateful night following the Last Supper. And that someone is intent on exacting a bloody and gruesome revenge. As more acquaintances and family members die in increasingly brutal ways, Judas finds himself in a desperate race against time to make amends for his act of treachery, and to uncover the identity of the mysterious hooded killer. A relentlessly paced, gripping thriller, which further explores one of the darkest bargains in human history. You might just find yourself engaged in the unthinkable: rooting for the man who betrayed Christ.

The Silk Sisters—longtime friends Janelle, Sandra and Vicki—have turned their business savvy into a top-tier event agency. And in the wealthy enclave of Wintersage, Massachusetts, there's an abundance of lavish parties, society drama and longing hearts to

keep them busy. Growing up among the powerful and privileged, formal-wear designer Sandra Woolcott learned early on to never show weakness—just smile and hold your head high. And ten years ago, when her young heart was broken, she learned just how strong she really was.... When Isaiah Jacobs left for the Naval Academy, he said he didn't want to hold Sandra back—although he really wanted to hold on to her forever. Sandra let him go, masking her hurt with a glittering social life and career. Now Isaiah is back in Wintersage to care for his ailing father. And when he and Sandra meet again, it's all they can do not to fall for each other once more. But they've built such different lives, and so many years have passed—is their long-ago love worth the risk? Can they bury the pain of the past and build a promising future together?

Jonah doesn't want to run—he has to. There's only so much pain one man can cause before he needs to start over. Unstuck from his tainted past, he craves the anonymity he can only achieve by vanishing like a specter in the night. Before his new life is even underway, a chance encounter leaves him in possession of a curious object—something the mysterious Keepers of The Oracle will kill to obtain, but there's more to the Keepers than Jonah could possibly imagine. They have the ability to do much worse than kill, and now he's in their sights. The Keepers wield power unlike anything Jonah has ever seen, and they're closing in fast. He's placed a new group of innocents in danger this time, and he can't run away again.

The Game that Hypnotized the World Doubleday

“Loved it! One ex-cop who doesn’t want help solving a murder. One current wife whose help he needs to catch the killer. One couple meant for each other who fall in love all over again after decades of marriage. Funny, exciting and very romantic.”

—Verified Purchase Reader Review Blake Weston, is a smart, savvy, no BS former fashion editor. Her handsome, sexy husband, Ralph Marino, is a très James Bond ex-cop and head of security for an international media company. When Blake buys a faux Chanel bag from a sidewalk vendor, the danger starts—but doesn’t end—with a scary mugging in broad daylight. From there, it escalates to face-to-face encounters with a gun-toting jailbird, a

lovelorn Afghan war lord, and a celeb chef in a red balconette bra. Meanwhile, Ralph is about to hit the Big Six Oh! and he’s not happy about it. Not that Blake is exactly thrilled. Especially now that she suspects Ralph might be cheating on her. Again. Just as Blake and Ralph are forced to work together by his über-neurotic boss to bring down a deadly global counterfeiting ring—and save Ralph’s job! “Funny and charming and a delight to read! Really yummy. It is a rare author who can bring to the page such vivid and believable characters with so much sly wit and style.”

—Verified Purchase Reader Review “Perfect for those of us not looking for bubble gum chick lit. The relationship between savvy Blake Weston and her ex-cop husband Ralph Marino is realistic and down to earth. And yet the extraordinary circumstances they find themselves in kept me flipping the pages well past my allotted reading time. If you're looking for a wonderfully fast-paced read that will take your mind off whatever you're stressing about, Harris's The Big Six-Oh! will fit the bill.” —Verified Purchase Reader Review
