On June 18, 1812, the United States formally declared war for the first time. President James Madison's call to arms against Great Britain provoked outpourings of patriotic fervor and

vigorous—some said treasonous—domestic opposition. Over the next three years the War of 1812 would prove as divisive as it was rich in nationalist myth-making: We have met the enemy, and he is ours . . . Don't give up the ship! . . . Oh, say can you see . . . . Now, on the bicentennial of a conflict that shaped the future of a continent, here is the first comprehensive collection of eyewitness accounts in over a century. Reflecting several generations of scholarly discoveries, it covers all the theaters of war, from frontier battles in Canada, Michigan, and New York to naval confrontations on the high seas and Great Lakes, from the burning of Washington to the defense of New Orleans. Here are 140 letters, memoirs, poems, songs, editorials, journal entries, and proclamations by more than 100 participants, both famous—Thomas Jefferson, Andrew Jackson, Tecumseh, Dolley Madison, and the Duke of Wellington, among others—and less well known, such as Laura Secord, the Canadian Paul Revere, and William B. Northcutt, whose remarkable diary provides a common soldier's view. Features helpful notes, a chronology of the war, and full color endpaper maps.

This eBook edition of "Ode to a Nightingale" has been formatted to the highest digital standards and adjusted for readability on all devices. "Ode to a Nightingale" is either the garden of the Spaniards Inn, Hampstead, London, or, according to Keats' friend Charles Armitage Brown, under a plum tree in the garden of Keats House, also in Hampstead. According to Brown, a nightingale had built its nest near his home in the spring of 1819. Inspired by the bird's song, Keats composed the poem in one day. It soon became one of his 1819 odes and was first published in Annals of the Fine Arts the following July. "Ode to a Nightingale" is a personal poem that describes Keats's journey into the state of Negative Capability. The

tone of the poem rejects the optimistic pursuit of pleasure found within Keats's earlier poems and explores the themes of nature, transience and mortality, the latter being particularly personal to Keats. The nightingale described within the poem experiences a type of death but does not actually die. Instead, the songbird is capable of living through its song, which is a fate that humans cannot expect. John Keats (1795-1821) was an English Romantic poet. The poetry of Keats is characterized by sensual imagery, most notably in the series of odes. Today his poems and letters are some of the most popular and most analyzed in English literature.
