This book is the most comprehensive and up-to-date book on gold prospecting. Within its pages is everything you need to know to find gold today. Full of practical information and great illustrations, it is designed to be the one prospecting book you will never outgrow. Whether you are a beginner or have twenty years of prospecting experience, you will find a wealth of new information and tips in these pages. From equipment operations, to the geology of how gold deposits form, to the nature of coarse gold nuggets, this book takes a unique and different approach in teaching the "trade skills" of prospecting. It focuses primarily on the knowledge you need to find locations rich with recoverable

gold. This is critical because in the final analysis, no matter how well you operate your dredge, metal detector or other prospecting equipment, unless you can find the places where gold is located, your equipment cannot help you recover it.

'I am invisible, understand, simply because people refuse to see me.' Defeated and embittered by a country which treats him as a non-being, the 'invisible man' retreats into an underground cell, where he smokes, drinks, listens to jazz and recounts his search for identity in white society: as an optimistic student in the Deep South, in the north with the black activist group the Brotherhood, and in the Harlem race riots. And explains how he came to be living underground . . . 'An American classic . . . one of the most original voices of Black America.' The Times

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

How many times can you cheat death on your path to enlightenment? Meet Ralph "Corky" Matson, a modern-day urban shaman who consistently beats the odds. In this captivating memoir, Matson leads us through Woodstock, down drug alleys, over mountain ashrams and around gamblers on a never-ending quest for higher consciousness as he struggles with his inner demons--and angels. Born to a devoted mother who struggled to protect him from the unjustified hatred of a tyrannical father, Matson grew up in poverty with a negative self-image that haunted him even as he associated with remarkable people such as Ram Dass, Timothy Leary, Rammurti S. Mishra, Swami Rama, Elias DeMohan and Patricia Cota Robles. His many brushes with death, including accidents, tumors, overdoses and heart failure only confirmed his spiritual beliefs and demonstrated the miraculous power of healing. Journey with him as he not only overcomes the hardships of an uncertain early life, but grieves the loss of two wives to illness and forgives the father who tormented him. There is a tangible love felt in these pages, for every character we encounter. Even in his depictions of heartbreak or cruelty, Matson generously renders a world--and a

philosophy--of devotion, kindness, and perseverance that is the underlying thread of his life story. Edgy, yet inspirational, *Prodigious Son: A Memoir of Miracles* offers hope and spiritual awakening in the middle of despair.

Inner city communities in the US have become "junkyards of dreams," to quote Mike Davis--wastelands where gangs package narcotics to stimulate the local economy, gunshots occur multiple times on any given day, and dreams of a better life can fade into the realities of poverty and disability. Laurence Ralph lived in such a community in Chicago for three years, conducting interviews and participating in meetings with members of the local gang which has been central to the community since the 1950s. Ralph discovered that the experience of injury, whether physical or social, doesn't always crush dreams into oblivion; it can transform them into something productive: renegade dreams. The first part of this book moves from a critique of the way government officials, as opposed to grandmothers, have been handling the situation, to a study of the history of the historic "Divine Knights" gang, to a portrait of a duo of gang members who want to be recognized as "authentic" rappers (they call their musical style "crack music") and the difficulties they face in exiting the gang. The second part is on physical disability, including being wheelchair bound, the prevalence of HIV/AIDS among heroin users, and the experience of brutality at the hands of Chicago police officers. In a final chapter, "The Frame, Or How to Get Out of an Isolated Space," Ralph offers a fresh perspective on how to understand urban violence. The upshot is a total portrait of the interlocking complexities, symbols, and

vicissitudes of gang life in one of the most dangerous inner city neighborhoods in the US. We expect this study will enjoy considerable readership, among anthropologists, sociologists, and other scholars interested in disability, urban crime, and race.

From the author of bestselling *Invisible Man*—the classic novel of African-American experience—this long-awaited second novel tells an evocative tale of a prodigal of the twentieth century. Brilliantly crafted, moving, and wise, *Juneteenth* is the work of an American master. "Tell me what happened while there's still time," demands the dying Senator Adam Sunraider to the itinerate preacher whom he calls Daddy Hickman. As a young man, Sunraider was Bliss, an orphan taken in by Hickman and raised to be a preacher like himself. Bliss's history encompasses the joys of young southern boyhood; bucolic days as a filmmaker, lovemaking in a field in the Oklahoma sun. And behind it all lies a mystery: how did this chosen child become the man who would deny everything to achieve his goals? Here is the master of American vernacular at the height of his powers, evoking the

rhythms of jazz and gospel and ordinary speech. "An extraordinary book, a work of staggering virtuosity. With its publication, a giant world of literature has just grown twice as tall." —Newsday

A Study of Odd Meters and Rhythms for the Drummer W. W. Norton & Company

Torture is an open secret in Chicago. Nobody in power wants to acknowledge this grim reality, but everyone knows it happens—and that the torturers are the police. Three to five new claims are submitted to the Torture Inquiry and Relief Commission of Illinois each week. Four hundred cases are currently pending investigation. Between 1972 and 1991, at least 125 black suspects were tortured by Chicago police officers working under former Police Commander Jon Burge. As the more recent revelations from the Homan Square "black site" show, that brutal period is far from a historical anomaly. For more than fifty years, police officers who took an oath to protect and serve have instead beaten, electrocuted, suffocated, and raped hundreds—perhaps thousands—of Chicago residents. In *The Torture Letters*, Laurence Ralph chronicles the history of torture in Chicago, the burgeoning activist movement against police violence, and the American public's complicity in perpetuating torture at home and abroad. Engaging with a long tradition of epistolary meditations on racism in the United States, from James Baldwin's *The Fire Next Time* to Ta-Nehisi Coates's *Between the World and Me*, Ralph offers in this book a collection of open letters written to protesters, victims, students, and others. Through these moving, questing, enraged letters, Ralph bears witness to police violence that began in Burge's Area Two and

follows the city's networks of torture to the global War on Terror. From Vietnam to Geneva to Guantanamo Bay—Ralph's story extends as far as the legacy of American imperialism. Combining insights from fourteen years of research on torture with testimonies of victims of police violence, retired officers, lawyers, and protesters, this is a powerful indictment of police violence and a fierce challenge to all Americans to demand an end to the systems that support it. With compassion and careful skill, Ralph uncovers the tangled connections among law enforcement, the political machine, and the courts in Chicago, amplifying the voices of torture victims who are still with us—and lending a voice to those long deceased.

"A modern-day classic."—Ron Charles, Washington Post "A spectacular invention."—The New York Times "Compulsively readable."—NPR Things do not bode well for Father Julius. . . A street preacher decked out in denim robes and running shoes, Julius is a source of inspiration for a community that knows nothing of his scandalous origins. But when a nearby mental hospital releases its patients to run amok in his neighborhood, his trusted if bedraggled flock turns expectantly to Julius to find out what's going on. Amid the descending chaos, Julius encounters a hospital escapee who babbles prophecies of doom, and the growing palpable sense of impending danger intensifies . . . as does the feeling that everyone may be relying on a street preacher just a little too much. Still, Julius decides he must confront the forces that threaten his congregation—including the peculiar followers of a religious cult, the mysterious men and women dressed all in red seen fleetingly amid the bedlam, and

an enigmatic smoking figure who seems to know what's going to happen just before it does. The Revisionaries is a wildly imaginative, masterfully rendered, and suspenseful tale that conjures the bold outlandish stylishness of Thomas Pynchon, Margaret Atwood, and Alan Moore—while being unlike anything that's come before.
