Socio-Cultural Impacts of Workplace E-Learning: Epistemology, Ontology and Pedagogy Lippincott Williams & Wilkins
With its intuitive interface and open-source development method, the WordPress web platform has emerged as a uniquely flexible content management system (CMS) with many library-related applications. In this book Jones and Farrington, two web designer/librarians, explore the variety of ways libraries are implementing WordPress as a CMS, from simple "out-of-the-box" websites to large sites with many custom features. Emphasizing a library-specific perspective, the authors Offer a brief history of WordPress, reviewing its genesis and sketching in some possible

future directions Analyze the software's strengths and weaknesses, spotlighting its advantages over other existing web publishing platforms as well as discussing the limitations libraries have encountered Present a variety of case studies, offering first-hand examples which detail why WordPress was selected, methods of implementation and degree of customization, feedback from users, and reflections on usability Discuss essential plug-ins, themes, and other specialized applications for library sites This useful book shows how scores of libraries have used WordPress to create library websites that are both user-friendly and easy to maintain.

Issues in Global Environment—Biology and Geoscience: 2013

Edition is a ScholarlyEditions™ book that delivers timely, authoritative, and comprehensive information about Wildlife Research. The editors have built Issues in Global Environment—Biology and Geoscience: 2013 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Wildlife Research in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Global Environment—Biology and Geoscience: 2013 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

The Oxford Handbook of Music and Disability Studies Oxford University Press

Political and Institutional Issues of the New International Economic Order covers various issues concerning New International Economic Order (NIEO), specifically those of political and institutional in nature. The book is comprised of seven chapters, which are divided into two parts. The first part covers topics relating to political issues in the negotiation of the NIEO, while the second part concerns itself with NIEO institutional and administrative issues. The text will of great interest to readers who are concerned with political and institutional aspects of the NIEO.

Policing Sport Mega-Events IGI Global

Is more government aid needed? Who will pay for care of aging baby boomers? Will all Americans finally get health insurance? These are just some of the topics covered in Issues for Debate in Social Policy. Engaging and reader-friendly articles encourage students to think critically about some of the most pressing social policy issues of our time. Classroom discussions will sparkle as a result! About CQ Researcher Readers In the tradition of nonpartisanship and current analysis that is the hallmark of CQ Press, readers investigate important and controversial policy issues. Offer your students the balanced reporting, complete overviews, and engaging writing that has consistently provided for more than 80 years. Each article gives substantial background and analysis of a particular issue as well as useful pedagogical features to inspire critical thinking and to help students grasp and review key material: A Pro/Con box that examines two competing sides of a single question A detailed chronology of key dates and events An annotated bibliography and Web resources Outlook sections that address possible regulation and initiatives from Capitol Hill and the White House over the next 5 to 10 years Photos, charts, graphs, and maps

Cim 9 Study Txt Emerging Issues ScholarlyEditions

The Oxford Handbook of Disability Studies represents a comprehensive state of current research for the field of Disability Studies and Music. The forty-two chapters in the book span a wide chronological and geographical range, from the biblical, the medieval, and the Elizabethan, through the canonical classics of the eighteenth and nineteenth centuries, up to modernist styles and contemporary musical theater and popular genres, with stops along the way in post-Civil War America, Ghana and the

South Pacific, and many other interesting times and places. Disability is a broad, heterogeneous, and porous identity, and that diversity is reflected in the variety of bodily conditions under discussion here, including autism and intellectual disability, deafness, blindness, mobility impairment often coupled with bodily difference, and cognitive and intellectual impairments. Amid this diversity of time, place, style, medium, and topic, the chapters share two core commitments. First, they are united in their theoretical and methodological connection to Disability Studies, especially its central idea that disability is a social and cultural construction. Disability both shapes and is shaped by culture, including musical culture. Second, these essays individually and collectively make the case that disability is not something at the periphery of culture and music, but something central to our art and to our humanity.

Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World
Simon and Schuster

Show students the relevance of sociology to their lives. Adapted from Ritzer's Introduction to Sociology, this text provides students with a rock-solid foundation in a shorter and more streamlined format.

How to Fall in Love with Anyone SAGE Publications

This book constitutes the refereed conference proceedings of the First International Conference on Emerging Technologies in Computing, iCEtiC 2018, held in London, UK, in August 2018. The 26 revised full papers were reviewed and selected from more than 59 submissions and are organized in topical sections covering Cloud, IoT and distributed computing, software

engineering, communications engineering and vehicular technology, AI, expert systems and big data analytics, Web information systems and applications, security, database system, economics and business engineering, mLearning and eLearning.

Pride Goes Before Destruction Elsevier

#1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as "required reading," a bold and personal literary exploration of America's racial history by "the most important essayist in a generation and a writer who changed the national political conversation about race" (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE'S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation's history and current crisis. Americans have built an empire on the idea of "race," a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and

murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates's attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children's lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

Issues in Pharmacology, Pharmacy, Drug Research, and Drug Innovation: 2012 Edition Springer

Whether espoused by sports leagues, teams, or individual athletes, social issues are part of the sporting world fabric. The sports media often plays the gatekeeper, deciding how messages are presented and to what extent they're covered—if at all. *Sports, Media, and Society* investigates the impact of societal issues in sports and how the media reports those stories. Why does the sports media operate in the manner that it does, and what's the impact of its decisions on the audience? With *Sports, Media, and Society*, there is now a resource that combines mainstay class discussion points, current case studies, and theoretical and historical foundations in one comprehensive text. The book's 34 chapters are each short and concise—a format

preferred by instructors—covering a wide range of topics and easily digestible for students. Part I covers sports media history and the media's role as gatekeeper. Chapters explore the history and evolution of various media—newspapers, magazines, radio, television, and social media—and the business of and competition between sports media entities. Case studies examine NBC's Olympics coverage and the nimbleness of *Sports Illustrated* in the digital space. Part II showcases television's impact on how fans follow sports. Discussions include ABC's *Wide World of Sports*, which exposed viewers to events around the globe; ESPN's foray into 24/7 sports coverage; and Fox Sports' shocking NFL deal, which marked a new era in media rights negotiations and sports broadcasting technologies. The intersection of sports and social issues is the focus of part III. Numerous issues are addressed, punctuated by case studies involving key players and events related to each topic. Cases concerning Colin Kaepernick, USWNT (and coverage of women's sports generally), LGBTQ+ issues, and obstacles faced by women working in sports media are highlights, while examinations of social identity theory and framing provide context on how people identify with specific groups and how the media influences opinions. Athletes and sport entities are constantly in the news—not always in a positive light. Part IV addresses crisis management and communication, featuring case studies about Tiger Woods, Lance Armstrong, LeBron James (*The Decision*), Kobe Bryant (his death and the misreporting of facts surrounding it), and the Houston Astros sign-stealing scandal. The text concludes with part V, which explores emerging trends in sports media and society. Through social media, virtually anyone can become a thought leader (wresting control from traditional

outlets), and teams and athletes can dialogue directly with fans, effectively sidelining sports journalists. Chapters on the formerly taboo subjects of athlete mental health and sports wagering, as well as the exploding popularity of esports, round out the text. Sports shape our culture in numerous ways, and the sports media plays a transformative role in how it occurs. Sports, Media, and Society prepares tomorrow's sports journalists and communicators to venture beyond the how-tos of developing content to understanding the whys behind it.

Issues in Ecological Research and Application: 2013 Edition MDPI

In chemistry, a catalyst accelerates change without being depleted. As we seek school improvement, we need sustainable, scalable changes, and therefore catalytic structures are ideal. From communities of practice to professional learning communities to Networked Improvement Communities (NICs) much has been made in the scholarly and consultancy literature about collaborative approaches to improvement. The benefit of improvement communities that operate in networks over professional learning communities or isolated communities of practice is that they allow for broader experimentation, more rapid iteration, and greater possibility for scaling improvement. Educators have many tools and protocols to support the various approaches to improvement, evidenced by the many tools the Carnegie Foundation has developed for NICs alone. However, we need to understand how these are being used in a wide range of contexts and iterations. This book answers three questions: 1) How can improvement communities act as catalysts? 2) How do improvement communities serve as discipline, creative inquiry? 3) Most importantly, how do improvement communities support

flourishing individuals? These three questions serve as the drivers of three sections with practical recommendations and insights for teachers, administrators, and policymakers that will lead to more sustainable leadership practices and thriving educators, students, and communities.

Emerging Technologies in Computing BPP Publishing

Open data and policy implications coming from data-aware planning entail collection and pre- and postprocessing as operations of primary interest. Before these steps, making data available to people and their decision-makers is a crucial point. Referring to the relationship between data and energy, public administrations, governments, and research bodies are promoting the construction of reliable and robust datasets to pursue policies coherent with the Sustainable Development Goals, as well as to allow citizens to make informed choices. Energy engineers and planners must provide the simplest and most robust tools to collect, process, and analyze data in order to offer solid data-based evidence for future projections in building, district, and regional systems planning. This Special Issue aims at providing the state-of-the-art on open-energy data analytics; its availability in the different contexts, i.e., country peculiarities; and its availability at different scales, i.e., building, district, and regional for data-aware planning and policy-making. For all the aforementioned reasons, we encourage researchers to share their original works on the field of open data and energy analytics. Topics of primary interest include but are not limited to the following: 1. Open data and energy sustainability; 2. Open data science and energy planning; 3. Open science and open governance for sustainable development goals; 4. Key

performance indicators of data-aware energy modelling, planning, and policy; 5. Energy, water, and sustainability database for building, district, and regional systems; 6. Best practices and case studies.

CIM - Emerging Themes SAGE

Bringing together interconnected discussions to make explicit the complexity of the Arctic region, this book offers a legal discussion of the ongoing territorial disputes and challenges in order to frame their impact into the viability of different governance strategies that are available at the national, regional and international level. One of the intrinsic features of the region is the difficulty in the determination of boundaries, responsibilities and interests. Against this background, sovereignty issues are intertwined with environmental and geopolitical issues that ultimately affect global strategic balances and international trade and, at the same time, influence national approaches to basic rights and organizational schemes regarding the protection of indigenous peoples and inhabitants of the region. This perspective lays the ground for further discussion, revolving around the main clusters of governance (focusing on the Arctic Council and the European Union, with the particular roles and interest of Arctic and non-Arctic states, and the impact on indigenous populations), environment (including the relevance of national regulatory schemes, and the intertwinement with concerns related to energy, or migration), strategy (concentrating in geopolitical realities and challenges analysed from different perspectives and focusing on different actors, and covering security and climate change related challenges). This collection provides an avenue for parallel and converging research of

complex realities from different disciplines, through the expertise of scholars from different latitudes.

Open Data and Energy Analytics ScholarlyEditions

Jesus said, "Blessed are the peacemakers"--but in our increasingly polarized communities and nation, where can a person of faith begin? In *Reconciling Places*, pastor and scholar Paul Hoffman introduces laypeople and ministry leaders to a "theology of reconciliation" that equips Christians to act as reconcilers and bridge builders, wherever they are and whatever issues divide their communities.

Political and Institutional Issues of the New International Economic Order Human Kinetics

The Coding Manual for Qualitative Researchers is unique in providing, in one volume, an in-depth guide to each of the multiple approaches available for coding qualitative data. In total, 29 different approaches to coding are covered, ranging in complexity from beginner to advanced level and covering the full range of types of qualitative data from interview transcripts to field notes. For each approach profiled, Johnny Saldaña discusses the method's origins in the professional literature, a description of the method, recommendations for practical applications, and a clearly illustrated example.

Emerging Issues And Trends In Innovation And Technology Management Routledge

Caribbean Childhoods: From Research to Action is an annual publication produced by the Children's Issues Coalition at the University of the West Indies, Mona. The series seeks to provide an avenue for the dissemination of research and experiences on children's health, development, behaviour and education, and to

provide a forum for the discussion of these issues.

Issues for Debate in Social Policy IGI Global

This book is a compilation of papers published in International Journal of Innovation and Technology Management. The chapters in the book focus on recent developments in the field of innovation and technology management. Carefully selected on the basis of relevance, rigor and research, the chapters in the book take the readers through various emerging topics and trends in the field. Written in a simple and accessible manner, the chapters in this book will be of interest to academics, practitioners and general public interested in knowing about emerging trends in innovation and technology management.

Professional Issues in Nursing Informing Science

The exciting follow-up to *I Will Abolish the Bow: Christianity, Personhood, and the End of Animal Exploitation*, *Pride Goes Before Destruction* takes a critical look at factory farming, which is driven by humanity's pride towards animals. Fitting to the title, this relationship with animals has bled into human affairs, as factory farming is responsible not only for animal cruelty but also for antibiotic resistance, environmental destruction, climate change, and many other issues. Matthew A. King criticizes

humanity's pride and offers a biblical solution to its consequences: *The New Covenant in Jesus Christ*. Bristling with persuasive historical evidence and thoughtful, biblical interpretation, King makes a compelling case for the inclusion of animals within the sphere of Christian moral consideration, which can help heal humanity's fractured relationship with the planet and even their own health. Additionally, this book answers many questions and offers supplemental material to build on the arguments established in *I Will Abolish the Bow*.
