Understanding Race and Ethnic Relations
Routledge

Social work practice with refugees and immigrants requires specialized knowledge of these populations and specialized adaptations and applications of mainstream services and interventions. Because they are often confronted with cultural, linguistic, political, and socioeconomic barriers, these groups are especially vulnerable to psychological problems such as anxiety, depression, alienation, grief, and post-traumatic stress disorder, as well as concerns arising from inadequate health care. Institutionalized discrimination and anti-immigrant policies and attitudes only exacerbate these challenges. The second edition of *Best Practices for Social Work with Refugees and Immigrants* offers an update to this comprehensive guide to social work with foreign-born clients and an evaluation of various helping strategies and their methodological strengths and weaknesses. Part 1 sets forth the context for evidence-based service approaches for such clients by describing the nature of these populations, relevant policies designed to assist them, service-delivery systems, and culturally competent practice. Part 2 addresses specific problem areas common to refugees and immigrants and evaluates a variety of assessment and intervention techniques in each area. Using a rigorous evidence-based and pancultural approach, Miriam

Potocky and Mitra Naseh identify best practices at the macro, meso, and micro levels to meet the pressing needs of uprooted peoples. The new edition incorporates the latest research on contemporary social work practice with refugees and immigrants to provide a practical, up-to-date resource for the multitude of issues and interventions for these populations.

They and We Pearson Higher Ed
For undergraduate and graduate introductory level courses in race and ethnic relations. Introducing the core theories, concepts, and issues concerning race and ethnic relations in the United States. Based on the top-selling title by the same author, *Strangers to These Shores*, this book provides a framework for understanding the interpersonal dynamics and the larger context of changing intergroup relations. Following a presentation of introductory concepts in the first chapter—particularly that of the stranger as a social phenomenon and the concept of the Dillingham Flaw—the first group of chapters examines differences in culture, reality perceptions, social class, and power as reasons for intergroup conflict. These chapters also look at the dominant group's varying expectations about how minorities should "fit" into its society. Chapters 2 and 3 include coverage of some middle-range conflict and interactionist theories. Chapters 4 and 5 explore the dimensions and interrelationships of prejudice and discrimination, and Chapter 6 covers the dominant—minority response patterns so common across different groups and time periods. This chapter presents middle-range conflict theories about

economic exploitation too. Chapter 7 employs holistic sociological concepts in discussing ethnic consciousness; ethnicity as a social process; current racial and ethnic issues, fears, and reactions; and the various indicators of U.S. diversity in the 21st century.

Race and Ethnic Relations in the Twenty-First Century examines the major theoretical and empirical approaches regarding race and ethnicity. Its goal is to continue to place race and ethnic relations in a contemporary, intersectional, and cross-comparative context and progress the discipline to include groups past the Black/White dichotomy. Using various sociological theories, social psychological theories, and subcultural approaches, this book gives students a sociohistorical, theoretical, and institutional frame with which to view race and ethnic relations in the twenty-first century.

Racial and Ethnic Relations in America uses a multidisciplinary approach, drawing on sociology, history, psychology, and other social sciences to focus on the factors that contribute to the merger or separation of different racial and ethnic groups in the U.S. The authors present historical information and contemporary examples of the largest ethnic and minority groups in the United States. They analyze the strengths and weaknesses of the assimilation model in explaining how various racial and ethnic groups have been incorporated (or not) into U.S. society. Focusing on interracial and interethnic relations in the U.S., the authors give a sociological analysis of inter-group processes and the history of the interactions of racial and ethnic groups. Organized thematically rather than chronologically, the text illuminates the main racial and ethnic dilemmas faced in America. New to the Seventh

Edition: As a response to the growing Asian population in the United States over the past four decades, the authors expand their extensive coverage to include an additional chapter on Asian Americans (Ch. 12) that discusses Chinese, Asian, Indian, Korean, and Filipino Americans. Increases focus on global conflict and refugees to include both Vietnamese and Arab Americans. New "Discussion Questions" at the end of each chapter are intended to stimulate open discussion and debate and engage readers with the issues at hand regarding racial and ethnic relations. Further emphasizes divisions between whites and non-whites, whites as an ethnic group, Puerto Ricans as an example of a colonized group, and racial and ethnic relations in other countries. Updates the material on assimilation theory with current studies, such as the social construction of ethnic identity and the emergence of whiteness as an ethnic group. In addition, perspectives from other theories, such as contact theory, dual labor markets, segmented assimilation, and pan-ethnic identity are discussed.

Reflecting the latest data and theoretical literature available, RACE AND ETHNIC RELATIONS: AMERICAN AND GLOBAL PERSPECTIVES, 10e tackles diversity issues from both the American and

global perspective, offering an in-depth exploration of today's globally diverse world. The text's expansive coverage of race and ethnic relations across the globe highlights major points of difference and similarity between the United States and a number of other societies, as well as includes a unique case study comparing four different countries. This unique comparative approach is vital with the increasing ethnic diversity in most contemporary societies as well as the prominence of ethnic conflicts in virtually all world regions. Current statistics, figures, maps, and citations provide up-to-the-minute insight. The Tenth Edition also includes an all-new chapter devoted to Arab Americans. In addition, end-of-chapter critical-thinking questions encourage readers to think in a sociological mode and examine current issues using concepts presented in the text.

Since its release shortly after the famous March on Washington in 1963, They and We has been a leading text in the field of racial and ethnic relations in the United States. The tradition continues. They and We, 6th edition, presented in the form of twelve linked essays plus an epilogue,

offers a jargon-free introduction to the critical study of America's people, their origins and encounters. In addition to a four chapter section devoted to the social history of our diverse population, the author examines the roots of prejudice, patterns of discrimination, the meaning of "minority status," and the issues of power, politics, and pluralism. Particular attention is paid to continuing struggles for group rights among those most beleaguered, reactions to the dramatic increases in immigration from Asia and Latin America and the resurgence of nativism among those who once again feel threatened by "alien" forces, recent political crises such as occurred in the aftermath of the attack on the World Trade Towers and the Pentagon on September 11, 2001, and the war and occupation in Iraq, and continuing debates over multiculturalism. Every chapter has been updated and, where appropriate, changed or added to in light of new challenges and new perspectives. Those familiar with this sociological classic will be pleased to note that Peter Rose's approach to this subject continues to be grounded in his sensitive and engaging approach to the consideration and assessment of troubling issues. Others will come to appreciate this orientation. And all will benefit from the explication of key concepts, the clarity of exposition, and the comprehensiveness of coverage - from the observations of the French visitor Alexis de Tocqueville to contemporary Critical Race Theorists -- in what is still a rather small book.

Divided into four volumes, *Race and Ethnicity in America* provides a complete overview of the history of racial and

ethnic relations in America, from pre-contact to the present. The five hundred years since Europeans made contact with the indigenous peoples of America have been dominated by racial and ethnic tensions. During the colonial period, from 1500 to 1776, slavery and servitude of whites, blacks, and Indians formed the foundation for race and ethnic relations. After the American Revolution, slavery, labor inequalities, and immigration led to racial and ethnic tensions; after the Civil War, labor inequalities, immigration, and the fight for civil rights dominated America's racial and ethnic experience. From the 1960s to the present, the unfulfilled promise of civil rights for all ethnic and racial groups in America has been the most important sociopolitical issue in America. *Race and Ethnicity in America* tells this story of the fight for equality in America. The first volume spans pre-contact to the American Revolution; the second, the American Revolution to the Civil War; the third, Reconstruction to the Civil Rights Movement; and the fourth, the Civil Rights Movement to the present. All volumes explore the culture, society, labor, war and politics, and cultural expressions of racial and ethnic groups.

This accessible, challenging discussion of race relations looks at how institutions shape individual experience and asks how we can prevent a violent splintering of American society along racial lines in the 21st century. Arguing that the best way to understand race relations is through the personal accounts of individuals as they go through the life cycle, this highly readable book uses real life stories to illuminate how families, peer groups, and workplaces influence views about other racial and ethnic groups. The authors hope to inspire readers to intervene and counteract negative perceptions of racial difference through their open, frank discussion of the racial divide.

"Rashawn Ray's edited collection has woven together a textured tapestry of some of the most seminal and outstanding scholarship on the evolution of the concepts of race and racial relations across the social sciences. This fine compendium of articles is an engaging read and provides a great service to scholars, teachers, and students of race relations in the United States." -- Prudence Carter Author of *Keepin' It Real: School Success Beyond Black and White* "In a field crowded with race anthologies, this exciting new volume stands out from the crowd. Through a powerful combination of the best of critical race scholarship by senior scholars as well as cutting-edge work by up-and-coming thinkers, the selections in *Race and Ethnic Relations in the Twenty-First Century* not only survey where critical race studies has been but, more importantly, point the way to where this important field is going." --

Patricia Hill Collins Author of *Another Kind of Public Education: Race, the Media, Schools, and Democratic Possibilities* "During the twenty-first century, Americans desperately need some clear and penetrating analyses of how race operates throughout society, affecting life chances and shaping who we are as a people. This volume fits the bill exquisitely. Its collection of classic and contemporary essays thoroughly interrogates the role of race helping both advanced scholars and beginning students to come to grips with the vast realities of race. It is a timely volume that will help to wipe away the confusion surrounding race in America and point to ways the nation can overcome one of its original sins." -- Aldon Morris Author of *The Origins of the Civil Rights Movement: Black Communities Organizing for Change* "This excellent collection brings together well-known, established authors whose theories have influenced contemporary research on race with those emerging scholars whose findings will shape future research and policy. It lays the groundwork for revisiting social psychological theories in the context of institutional and interactional approaches to the study of race, gender and social status. These readings help explain the persistence of obstacles facing old and new minorities in the United States as well as highlighting the opportunities for and promise of overcoming them." -- Wanda Rushing Author of *Memphis and the Paradox of Place: Globalization in the American South* *Race and Ethnic Relations in the Twenty-First Century* examines the major theoretical and empirical approaches regarding race and ethnicity. Its goal is to continue to place race and ethnic relations in a contemporary,

intersectional, and cross-comparative context and progress the discipline to include groups past the Black/White dichotomy. Using various sociological theories, social psychological theories, and subcultural approaches, this book gives students a sociohistorical, theoretical, and institutional frame with which to view race and ethnic relations in the twenty-first century. Dr. Rashawn Ray is an associate professor of sociology at the University of Maryland, College Park. Ray's research addresses the mechanisms that manufacture and maintain racial and social inequality. His work also speaks to ways that inequality may be attenuated through racial uplift activism and social policy. He has written op-eds for New York Times, Huffington Post, and Public Radio International. Currently, Ray runs the #DailyThought Vlog at rashawnray.com.
