An exciting new critical voice explores
what it is that makes great art great
through an illuminating analysis of the
world's artistic masterpieces. From a

carved mammoth tusk (ca. 40,000 BCE) to Bosch's Garden of Earthly Delights (1505–1510) to Duchamp's Fountain (1917), a remarkable lexicon of astonishing imagery has imprinted itself onto the cultural consciousness of the past 40,000 years. Author Kelly Grovier devotes himself to illuminating these and more than fifty other seminal works in this radical new history of art. Stepping away from biography, style, and the chronology of "isms" that preoccupies most of art history, *A New Way of Seeing* invites a new interaction with art, one in which we learn from the artworks and not just about them. Grovier identifies that part of the artwork that bridges the divide between art and life and elevates its value beyond the visual to the vital. This book challenges

the sensibility that conceives of artists as brands and the works they create as nothing more than material commodities to hoard, hide, and flip for profit. Lavishly illustrated with many of the most breathtaking and enduring artworks ever created, Kelly Grovier casts fresh light on these famous works by daring to isolate a single, and often overlooked, detail responsible for its greatness and power to move. The British Museum has one of the world's finest collections of antiquities from medieval Europe, and this is the first fully illustrated guide to the highlights of the collection, now in paperback. In one beautiful volume are displayed 150 of the most important

objects, including the most famous such as the Lewis chessmen, the Borradaile triptych, the St Eustace head reliquary, the Royal Gold Cup, the Royal Gittern and medieval court art from the palaces of Westminster and Clarendon as well as a selection of lesser-known but equally impressive pieces. These remarkable treasures are placed in their historical context through an exploration of themes such as devotional art and pilgrimage, royal patronage and the arts of love, leisure and feasting, to provide a visually stunning insight into the artistic production of this critical period in Western history.

Great paintings cannot be fully understood in a single encounter; there is always more to be derived from them. Art lovers may revisit and reconsider the masterpieces throughout their lives, but a deeper understanding can only be gained by analysing the painting in detail, be it the placement of the

subject, the lighting, the style of brushstrokes or the themes. *Art in Detail* examines 100 iconic paintings from the Western canon and spotlights the finer points a quick glance will almost certainly fail to reveal. These include subtle internal details, such as hidden symbols and artistic tricks employed by the painter to achieve particular effects. In addition, Susie Hodge writes intelligently about external influences on the artist - everything from the socioeconomic context in which he or she flourished, to smaller local difficulties, such as the level of air pollution at the time the painting was created. And she treats each of her subjects not only, to quote Matthew Arnold, 'as in itself it really is', but also as part of a tradition that links the oldest

painting to the most recent, as artists pass a metaphorical baton down through the ages. With 700 illustrations *Sister Wendy's 1000 Masterpieces* Bloomsbury Publishing USA

"Great art has dreadful manners," Simon Schama observes wryly at the start of his epic and explosive exploration of the power, and whole point, of art. "The hushed reverence of the gallery can fool you into believing masterpieces are polite things; visions that soothe, charm

and beguile, but actually they are thugs. Merciless and wily, the greatest paintings grab you in a headlock, rough up your composure, and then proceed in short order to re-arrange your sense of reality. . . ." With the same disarming force, *The Power of Art* propels us on an eye-opening, breathtaking odyssey, zooming in on eight extraordinary masterpieces, from Caravaggio's *David and Goliath* to Picasso's *Guernica*. Jolting us far from the comfort zone of the hushed art gallery, Schama closes in on intense make-or-break turning points in the lives of eight great artists who, under extreme stress, created something unprecedented, altering the course of art forever. The embattled heroes—Caravaggio, Bernini, Rembrandt, David, Turner, Van Gogh,

Picasso and Rothko—each in his own resolute way, faced crisis with steadfast defiance, pitting passion and conviction against scorn and short-sightedness. The masterpieces they created challenged convention, shattered complacency, shifted awareness and changed the way we look at the world. With vivid storytelling and powerfully evocative descriptive passages, Schama explores the dynamic personalities of the artists and the spirit of the times they lived through, capturing the flamboyant theatre of bourgeois life in Amsterdam, the passion and paranoia of Revolutionary Paris, and the carnage and pathos of Civil War Spain. Most compelling of all, *The Power of Art* traces the extraordinary evolution of eight "eye-popping" world-class works of art.

Created in a bolt of illumination, such works "tell us something about how the world is, how it is to be inside our skins, that no more prosaic source of wisdom can deliver. And when they do that, they answer, irrefutably and majestically, the nagging question of every reluctant art-conscript . . . 'OK, OK, but what's art really for?'"

Marvin lives with his family under the kitchen sink in the Pompadays' apartment. He is very much a beetle. James Pompaday lives with his family in New York City. He is very much an eleven-year-old boy. After James gets a pen-and-ink set for his birthday, Marvin surprises him by creating an elaborate miniature drawing. James gets all the

credit for the picture and before these unlikely friends know it they are caught up in a staged art heist at the Metropolitan Museum of Art that could help recover a famous drawing by Albrecht Dürer. But James can't go through with the plan without Marvin's help. And that's where things get really complicated (and interesting!). This fast-paced mystery will have young readers on the edge of their seats as they root for boy and beetle. In Shakespeare's *Secret Elise Broach* showed her keen ability to weave storytelling with history and suspense, and *Masterpiece* is yet another example of her talent. This time around it's an irresistible miniature world, fascinating art history, all wrapped up in a special friendship—something for everyone to enjoy.

The Renaissance was probably the most influential and fertile period of European cultural history. We are all familiar with the giants of High Renaissance art – Michelangelo, Leonardo, Raphael – but how much do you really know about how it all started and why it was so revolutionary? This easily accessible, fresh and beautiful introduction to this wonderful world takes you from the stirrings of a revival in classical learning and humanist thought in late medieval Italy through the application of technical developments in painting and scientific knowledge, to the blossoming of astounding artworks that we all know

and love, reaching its peak in the sixteenth century. A digestible introduction to the background and history of the Renaissance is followed by a gallery of treasured works focusing on the most popular Italian art, from Giotto's frescoes and Fra Angelico's delightful Annunciation, to Botticelli's willowy Venuses, that ceiling of Michelangelo's and the master of Venetian painting, Titian.

In this captivating novel, New York Times bestselling author Fiona Davis takes readers into the glamorous lost art school within Grand Central Terminal, where two very different women, fifty years apart, strive to make their mark on a world set against them. For most New Yorkers, Grand Central Terminal is a crown jewel, a masterpiece of design.

But for Clara Darden and Virginia Clay, it represents something quite different. For Clara, the terminal is the stepping stone to her future. It is 1928, and Clara is teaching at the lauded Grand Central School of Art. Though not even the prestige of the school can override the public's disdain for a "woman artist," fiery Clara is single-minded in her quest to achieve every creative success—even while juggling the affections of two very different men. But she and her bohemian friends have no idea that they'll soon be blindsided by the looming Great Depression...and that even poverty and hunger will do little to prepare Clara for the greater tragedy yet to come. By 1974, the terminal has declined almost as sharply as Virginia Clay's life. Dilapidated and dangerous, Grand

Central is at the center of a fierce lawsuit: Is the once-grand building a landmark to be preserved, or a cancer to be demolished? For Virginia, it is simply her last resort. Recently divorced, she has just accepted a job in the information booth in order to support herself and her college-age daughter, Ruby. But when Virginia stumbles upon an abandoned art school within the terminal and discovers a striking watercolor, her eyes are opened to the elegance beneath the decay. She embarks on a quest to find the artist of the unsigned masterpiece—an impassioned chase that draws Virginia not only into the battle to save Grand Central but deep into the mystery of Clara Darden, the famed 1920s illustrator who disappeared from history

in 1931.
