The Silence of the White City Hogarth "You'll want to race through *The Silence of the White City*, but it's best to slow down and savor the full effect of the volatile, intoxicating universe Sáenz has created. This is the first novel of the White City trilogy to be translated into English—the second can't come fast enough." —AirMail
HOW DO YOU STOP A KILLER WHO'S ALWAYS TWO STEPS AHEAD? A madman is holding Vitoria hostage, killing its citizens in brutal ways and staging the bodies. The city's only hope is a brilliant detective struggling to battle his own demons. Inspector Unai López de Ayala, known as "Kraken," is charged with investigating a

series of ritualistic murders. The killings are eerily similar to ones that terrorized the citizens of Vitoria twenty years earlier. But back then, police were sure they had discovered the killer, a prestigious archaeologist who is currently in jail. Now Kraken must race to determine whether the killer had an accomplice or if the wrong man has been incarcerated for two decades. This fast-paced, unrelenting thriller weaves in and out of the mythology and legends of the Basque country as it hurtles to its shocking conclusion.

Best Place to be Today Quercus John Naughton is *The Observer's* "Networker" columnist, a prominent blogger, and vice president of Wolfson College, Cambridge. *The Times* has said of his writing, "[it] draws on more than two decades of study to explain how the internet works and the challenges and

opportunities it will offer to future generations," and Cory Doctorow raved that "this is the kind of primer you want to slide under your boss's door." In *From Gutenberg to Zuckerberg*, Naughton explores the living history of one of the most radically transformational technologies of all time. From Gutenberg to Zuckerberg is a clear-eyed history of one of the most central features of modern life: the internet. Once a technological novelty and now the very plumbing of the Information Age, the internet is something we have learned to take largely for granted. So, how exactly has our society become so dependent upon a utility it barely understands? And what does it say about us that this is the case? While explaining in highly engaging language the way the internet works and how it got that way, technologist John Naughton has distilled the noisy chatter surrounding the technology's relentless evolution into nine essential areas of understanding. In doing so, he affords readers deeper insight into the information economy and supplies the requisite knowledge to make better use of the technologies and networks around us, highlighting some of their fascinating and far-reaching implications along the way.

The decisions that we make, as small as they may be, set the course of our life. When Nora Clayton, a magnificent executive vice president of an important pharmaceutical Company in New York, has to fire ten thousand workers who will be substituted with sophisticated machines, she triggers the rage of Bonnie Larson, a woman who is invisible to society, but who comes from a long line of evil witches. After a long time of not having used her magic, she decides to curse Nora, who will watch how her life takes a 180o turn. The people she shares her comfortable life with don't recognize her, her luxurious apartment on the Upper East Side no longer belongs to her and the only option she is left with is returning to Kutztown (Pennsylvania), her hometown, and to redo the inexistent relationship with her mother and live a life she had not chosen. A story about parallel worlds, about the decisions we don't make, about memories, life, love and, in the end, fate. A lesson on life in every page.

An old man sits in a room, with a single door and window, a bed, a desk and a chair. Each day he awakes with no memory, unsure of whether or not he is locked into the room. Attached to the few objects around him are one-word, hand-written, labels and on the desk is a series of vaguely familiar black-and-white photographs and four piles of paper. Then a

middle-aged woman called Anna enters and talks of pills and treatment, but also of love and promises. Who is this Mr Blank, and what is his fate? What does Anna represent from his past - and will he have enough time to ever make sense of the clues that arise? After the huge success of *The Brooklyn Follies*, Travels in the Scriptorium sees Auster return to more metaphysical territory. A dark puzzle, and a game that implicates both reader and writer alike, it is an ingenious exploration of language, responsibility and the passage of time.

A CURSED PLACE. A COLD CASE. A KILLER WHO LEFT NO TRACE. The huge International bestseller. Gripping, unputdownable and packed with twists, *The Mountain* is a thriller that you will never forget. "Can be compared (with no fear of hyperbole) to Stephen King and Jo Nesbø" - Massimo Vincenz, *La Repubblica*. Jeremiah Salinger blames himself. The crash was his fault. He was the only survivor. Now the depression and the nightmares are closing in. Only his daughter Clara can put a smile on his face. But when he takes Clara to the Bletterbach - a canyon in the Dolomites rich in fossil remains - he overhears by chance a conversation that gives his life renewed focus. In 1985 three students were murdered there, their bodies savaged, limbs severed and strewn by a killer who was never found. Salinger, a *New Yorker*, is far from home, and these Italian mountains, where his wife was born, harbour a close-knit, tight-lipped community whose mistrust of outsiders can turn ugly. All the same, solving this mystery might be the only thing that can keep him sane. Translated from the Italian by Howard Curtis
