, Praying for health is a significant Islamic custom alongside seeking medical treatment, and has become a vital part of Muslim culture. There are two areas of focus in this book: the methodology and criteria of praying for health, and the results of a study on the effect of prayer on Muslim patients' well-being. This study was conducted at Brigham and Women's Hospital, a Harvard Medical School teaching affiliate in Boston, MA. Twenty-Five Remedies, a work by prominent contemporary Muslim scholar Said Nursi,

included in this book, further enriches the scope of the subject of prayer and healing.

Every year more and more Europeans, including Germans, are embracing Islam. It is estimated that there are now up to one hundred thousand German converts—a number similar to that in France and the United Kingdom. What stands out about recent conversions is that they take place at a time when Islam is increasingly seen as contrary to European values. *Being German, Becoming Muslim* explores how Germans come to Islam within this antagonistic climate, how they manage to balance their love for Islam with their

society's fear of it, how they relate to immigrant Muslims, and how they shape debates about race, religion, and belonging in today's Europe. Esra Özyürek looks at how mainstream society marginalizes converts and questions their national loyalties. In turn, converts try to disassociate themselves from migrants of Muslim-majority countries and promote a denationalized Islam untainted by Turkish or Arab traditions. Some German Muslims believe that once cleansed of these accretions, the Islam that surfaces fits in well with German values and lifestyle. Others even argue that being a German Muslim is wholly compatible with the older values of the German Enlightenment. *Being German, Becoming Muslim* provides a fresh window into the connections and tensions stemming from a growing religious phenomenon in Germany and beyond.

Prayer And Healing In Islam Lushena Books

Islam has been one of the most powerful religious, social and political forces in history. Over the last 1400 years, from origins in Arabia, a succession of Muslim polities and later empires expanded to control territories and peoples that ultimately stretched from southern France to East Africa and South East Asia. Yet many of the contributions of Muslim thinkers, scientists and theologians, not to

mention rulers, statesmen and soldiers, have been occluded. This book rescues from oblivion and neglect some of these personalities and institutions while offering the reader a new narrative of this lost Islamic history. The Umayyads, Abbasids, and Ottomans feature in the story, as do Muslim Spain, the savannah kingdoms of West Africa and the Mughal Empire, along with the later European colonization of Muslim lands and the development of modern nation-states in the Muslim world. Throughout, the impact of Islamic belief on scientific advancement, social structures, and cultural development is given due prominence, and the text is complemented by portraits of key personalities, inventions and little known historical nuggets. The history of Islam and of the world's Muslims brings together diverse peoples, geographies and states, all interwoven into one narrative that begins with Muhammad and continues to this day.
