When Zach Thomas broke his wrist going into the boards early in the hockey season, he thought he was done for the year. But as his Cochrane, Alberta, Pee Wee team gets ready for the play-offs, his doctor tells him he's healed-up enough to pay. Zach isn't so sure. His fear of being checked hard in the corner makes him very reluctant to head back out on the ice. To make matters worse, a tough guy on an opposing team claims he has unfinished business with Zach. When he gets to talk with an NHL pro, however, Zach learns from experience how to stand up to his fears--and to the bully. "Power Play" shows how sport helps us face our fears, and overcome them. The narrative around flexible working needs flipping. After being able to work flexibly for 14 of her 23 years in education across teaching, school leadership and MAT leadership roles, Emma

Turner realised that sadly, she's actually in the minority and has just been kinda lucky. Across the education system, although there is a recent groundswell of support for developing more life friendly, innovative and flexi ways of working, there are still a great deal of misconceptions, biases and prejudices about flexible working and flexible workers. Through her 'playlist' of educational floor fillers, Emma explores some of the successful ways in which flexible working can be viewed by both employers and employees for staff at all levels, including senior and school leadership. Designed to open up the flexible working conversation, this book outlines what can work, what has worked and what could work. This new way of viewing the flexi narrative from an experienced flex-pert encourages all to revisit our views on flexible working.
