 This work is a history of the Pacific, the ocean that became a theatre of power and conflict shaped by the politics of Europe and the economic background of Spanish America. There could only be a concept of & the Pacific once the limits and lineaments of the ocean were set and this was undeniably the work of Europeans. Fifty years

after the Conquista, Nueva España and Peru were the bases from which the ocean was turned into virtually a Spanish lake.

explorers would henceforth navigate the oceans and history itself. Now updated to include a new introduction commemorating the 500th anniversary of Magellan's voyage.

A special 25th anniversary edition of the extraordinary international bestseller, including a new Foreword by Paulo Coelho. Combining magic, mysticism, wisdom and

wonder into an inspiring tale of self-discovery, *The Alchemist* has become a modern classic, selling millions of copies around the world and transforming the lives of countless readers across generations. Paulo Coelho's masterpiece tells the mystical story of Santiago, an Andalusian shepherd boy who yearns to travel in search of a worldly treasure. His quest will lead him to riches far different—and

far more satisfying—than he ever imagined. Santiago's journey teaches us about the essential wisdom of listening to our hearts, of recognizing opportunity and learning to read the omens strewn along life's path, and, most importantly, to follow our dreams.

An enthralling account of the greatest adventure in

European history - the discovery of the rest of the world The Age of Reconnaissance, as J. H. Parry so aptly named it, was the period in which Europe discovered the rest of the world. It began with Henry the Navigator and the Portuguese voyages in the mid-fifteenth century and ended 250 years later when the 'reconnaissance' was all but complete. This book is less concerned with the voyages of discovery themselves than with an analysis of the factors that made the voyages possible in the first place. Dr Parry examines the inducements - political, economic, religious - to overseas enterprises at the time, and analyses the nature and problems of the various European settlements in the new lands. At the beginning of the period central to this book, the middle of the fifteenth century, the normal educated man believed that the Ancients were more civilized, more elegant, wiser and, except in religious matters, better informed than his contemporaries. But gradually as the reconnaissance proceeded, the European picture became fuller and more detailed and with it the idea of continually expanding knowledge became more

familiar and the links between science and practical life became closer. The unprecedented power which it produced would eventually lead Europe from reconnaissance to worldwide conquest. Open Road + Grove/Atlantic In An African Classical Age, Christopher Ehret brings to light 1,400 years of social and economic transformation across Africa from Uganda and Kenya in the north to Natal and the

Cape in the south. The book offers a much-needed portrait of this region during a crucial period in which basic features of precolonial African societies and cultures emerged. Combining the most recent findings of archaeology and historical linguistics, the author demonstrates that, from 1000 B.C. through the fourth century A.D., eastern and southern African history was invigorated by

technological change and intricately reshaped by the clash of distinctive cultures. Contrary to common presumption, he argues, Africans of this period were not isolated actors on their own historical stage, but direct and indirect participants in the major trends of contemporary world history, such as the Iron Age and the first great rise of long-distance commercial enterprise. In

<p>telling their important story, Ehret shows how powerful yet delicate a tool language evidence can be in detecting both the details and the long-term contours of the past. Kris Manjapra weaves together the study of colonialism over the past 500 years, across the globe's continents and seas. This captivating work vividly evokes living human histories, introducing the reader to interlocking pasts and ongoing legacies of colonialism through the study of: war, conquest, militarization, extractive economies, migration and diaspora,

racialization, biopolitical management, and unruly and creative responses and resistances. He describes some of the most salient political, social, and cultural constellations of our present across the Americas, Africa, Asia, and Europe. By exploring the dissimilar, yet entwined, histories of settler colonialism, racial slavery, and empire across Asia, Manjapra exposes the enduring role of colonial

force and freedom struggle in the making of our modern world. *A New History of the World* Franklin Classics The Portuguese in West Africa, 1415-1670 brings together a collection of documents - all in new English translation - that illustrate aspects of the encounters between the Portuguese and the peoples of North and West Africa in the period from 1400 to 1650. This

period witnessed the diaspora of the Sephardic Jews, the emigration of Portuguese to West Africa and the islands, and the beginnings of the black diaspora associated with the slave trade. The documents show how the Portuguese tried to understand the societies with which they came into contact and to reconcile their experience with the myths and legends

inherited from classical and medieval learning. They also show how Africans reacted to the coming of Europeans, adapting Christian ideas to local beliefs and making use of exotic imports and European technologies. The documents also describe the evolution of the black Portuguese communities in Guinea and the islands, as well as the slave trade and the way that it was organized, understood,

and justified. *An Account of Magellan's Expedition* University of Toronto Press A "lively and engaging" history of the Middle Ages (Dallas Morning News) from the acclaimed historian William Manchester, author of *The Last Lion*. From tales of chivalrous knights to the barbarity of trial by ordeal, no era has been a greater source of awe, horror, and wonder than the Middle Ages. In handsomely crafted prose, and with the grace and authority of his extraordinary gift for narrative history, William Manchester leads us from a civilization tottering on the brink of collapse to the grandeur of its rebirth: the dense explosion of energy that spawned some of history's greatest poets, philosophers, painters, adventurers, and reformers, as well as some of its most spectacular villains. "Manchester provides easy access to a fascinating age when our modern mentality was just being born." -- Chicago Tribune

How Portugal Forged the First Global Empire

Oxford University Press, USA
The only complete political biography by a major Portuguese historian.

A Life John Wiley & Sons
A “wide-ranging, vivid” narrative history of one of the most coveted and complex regions of the

world: the Caribbean (The Observer). Ever since Christopher Columbus stepped off the Santa Maria and announced that he had arrived in the Orient, the Caribbean has been a stage for projected fantasies and competition between world powers. In *Empire's Crossroads*, British American historian Carrie Gibson offers a panoramic view of the region from the northern rim of South America up to Cuba and its rich, important history. After that fateful landing in 1492, the British, French, Spanish, Portuguese, Dutch, Danish, and even the Swedes, Scots, and Germans sought their fortunes in the islands for the next two centuries. These fraught years gave way to a booming age of sugar, horrendous slavery, and extravagant wealth, as well as the Haitian Revolution and the long struggles for independence that ushered in the modern era. Gibson tells not only of imperial expansion—European and American—but also of life as it is lived in the islands, from before Columbus through the tumultuous twentieth century. Told “in fluid, colorful prose peppered with telling anecdotes,” *Empire's Crossroads* provides an essential account of five

centuries of history (Foreign Affairs). "Judicious, readable and extremely well-informed . . . Too many people know the Caribbean only as a tourist destination; [Gibson] takes us, instead, into its fascinating, complex and often tragic past. No vacation there will ever feel quite the same again." —Adam Hochschild, author of *To End All Wars* and *King Leopold's Ghost*
