**As Duke of Gloucester and King of England. By Caroline A. Halsted. In 2 volumes** Knopf

On 22 August 1485 Richard III was killed at Bosworth Field, the last king of England to die in battle. His victorious opponent, Henry Tudor went on to display Richard's body for two days in nearby Leicester and then hurriedly buried in the church of the Greyfriars. Fifty years later, the king's grave was lost, its contents believed to be emptied into the river Soar, and Richard III's reputation was buried under a mound of Tudor propaganda. Now - in an incredible find - Richard III's remains have been uncovered beneath a car park in Leicester. The King's Grave traces this remarkable journey.

[History of King Richard III ...](#) Yale University Press

"The definitive biography and assessment of the wily and formidable prince who unexpectedly became monarch-the most infamous king in British history. The reign of Richard III, the last Yorkist king and the final monarch of the Plantagenet dynasty, marked a turning point in British history. But despite his lasting legacy, Richard only ruled as king for the final two years of his life. While much attention has been given to his short reign, Michael Hicks explores the whole of Richard's fascinating life and traces the unfolding of his character and career from his early years as the son

of a duke to his violent death at the battle of Bosworth. Hicks explores how Richard—villainized for his imprisonment and probable killing of the princes—applied his experience to overcome numerous setbacks and adversaries. Richard proves a complex, conflicted individual whose Machiavellian tact and strategic foresight won him a kingdom. He was a reformer who planned big changes, but lost the opportunity to fulfill them and to retain his crown."--Provided by publisher.

[A Royal Tragedy](#) Arkose Press

Shakespeare's history plays have been performed more in recent years than ever before, in Britain, North America, and in Europe. This 2002 volume provides an accessible, wide-ranging and informed introduction to Shakespeare's history and Roman plays. It is attentive throughout to the plays as they have been performed over the centuries since they were written. The first part offers accounts of the genre of the history play, of Renaissance historiography, of pageants and masques, and of women's roles, as well as comparisons with history plays in Spain and the Netherlands. Chapters in the second part look at individual plays as well as other Shakespearean texts which are closely related to the histories. The Companion offers a full bibliography, genealogical tables, and a list of principal and recurrent characters. It is a comprehensive guide for students, researchers and theatre-goers alike.

[King Richard II](#). Phoemixx Classics Ebooks

Richard III is a history play by William Shakespeare, believed to have been written in approximately 1591. The play is an unflattering depiction of the short reign of Richard III of England. While generally classified as a history, as grouped in the First Folio, the play is sometimes called a tragedy (as in the first quarto). It picks up the story from Henry VI, Part 3 and concludes the historical series that stretches back to Richard II.

[King Richard III's Armour](#) Macmillan

New edition of the bestselling biography of the controversial king whose bones were discovered in a car park in 2012. Contains NEW material, including an account of the reburial in March 2015.

*With Preface, Glossary, &c* King Richard III

The head of The Richard III Society recounts the search that led to the unearthing of the last Plantagenet monarch's remains—a discovery that sheds light on what happened to the king following the Battle of Bosworth Field.

[Richard III Annotated](#) Pan Macmillan

A hospitalized English policeman reconstructs historical evidence concerning Richard III's role in the murder of Edward IV's two sons.

[The Cambridge Companion to Shakespeare's History Plays](#) Sutton Pub Limited

"As gripping as any detective fiction. Proof that one doesn't need to be fascinated with Richard III

to be enthralled by the story of his body's discovery." —Publisher's Weekly In August 2012 a search began, and on February 4, 2013, a team from Leicester University delivered its verdict to a mesmerized press room and to the world: they had found the remains of Richard III, whose legacy was perhaps the most contested of all British monarchs. Prior to this major discovery, there had been little new information about Richard III for some time. With no new evidence to fuel it, the debate over what kind of man he might have been seemed to have stalled. Thus the story of the discovery of Richard III is a story of the value of archaeology—careful analysis of physical evidence backed up by the latest science and technology—and how it can change our understanding of history. Firsthand accounts from the team that found the king, along with photographs from the author's own archives and an expanded epilogue incorporating new DNA evidence, augment this compelling detective story as the evidence is uncovered.

[The Maligned King](#) History PressLtd

From the author of the acclaimed *One Minute to Midnight*- a sharply focused, riveting account--told from inside the White House--of the crucial days, hours, and moments when the Watergate conspiracy consumed, and ultimately toppled, a president. In January 1973, Richard Nixon had just been inaugurated after winning re-election in a historic landslide. But by April 1973, his presidency had fallen apart as the Watergate scandal metastasized into what White House counsel John Dean called "a full-blown cancer." King Richard is the intimate, utterly absorbing narrative of the tension-packed hundred days when the Watergate burglars and their handlers in the administration turned on one another, revealing their direct connection ties to the White House. Drawing on thousands of hours of newly-released taped recordings, Michael Dobbs takes us into the very heart of the conspiracy, recreating these dramatic events in unprecedentedly vivid detail. He captures the growing paranoia of the principal players and their desperate attempts to deflect blame as the noose tightened around them and the daily pressures became increasingly unbearable. At the center of this spellbinding drama is Nixon himself, a man whose strengths, particularly his determination to win at all costs, were also his fatal flaws. Structured like a classical tragedy with a uniquely American twist, this is an epic and deeply human story of ambition, power, and betrayal.

[The King's Grave](#) Imprimis Imprimatur

An "impeccably researched and beautifully written" biography of Lady Margaret Beaufort, matriarch of the Tudor dynasty (Tracy Borman, author of *The Private Lives of the Tudors* and *Elizabeth's Women*). In 1485, Henry VII became the first Tudor king of England. His victory owed much to his mother, Lady Margaret Beaufort. Over decades and across countries, Margaret had schemed to install her son on the throne and end the War of the Roses. Margaret's extraordinarily close relationship with Henry, coupled with her role in political and ceremonial affairs, ensured that

she was treated -- and behaved -- as a queen in all but name. Against a lavish backdrop of pageantry and ambition, court intrigue and war, historian Nicola Tallis illuminates how a dynamic, brilliant woman orchestrated the rise of the Tudors.
