Part of a series designed to support poor readers. Here we read of the 2CV connection with the James Bond franchise and through that a curious connection to Queen Elizabeth I. We also see how the car can be adapted for the 21st Century and the need to clean up the air. This car was a combination of engineering innovation and utilitarian bodywork for extra strength without extra weight.

Chapters: Volkswagen Jetta, Mercedes-Benz C-Class, Honda Accord, Citroen 2CV, Ford Fiesta, Lexus LS, Toyota Camry (XV40), Holden Commodore, Chevrolet Impala, Chevrolet Caprice, Toyota Prius, Holden VE Commodore, Pontiac Grand Prix. Excerpt: The Volkswagen Jetta is a compact car, produced by German automaker Volkswagen Group for the Volkswagen Passenger Cars marque since 1979. Positioned to fill a saloon/sedan niche above the firm's Golf hatchback offering, it has been marketed over six generations variously as the Atlantic, Fox, Vento, Bora, City Jetta, Jetta City, GLI, Jetta, and Sagitar. The Jetta was originally adapted by adding a conventional trunk to the Golf hatchback, and some distinctive styling (usually the front end, and sometimes slight interior changes). It has been offered in two- and four-door saloon (sedan), and five-door estate (station wagon) versions - all as five-seaters. As of 2005, over 6.6

million cars have been sold worldwide, over one-third in the United States alone. Since the original version in 1980, the car has grown in size and power with each successive generation. By mid 2011, almost 10 million Jettas have been produced and sold all over the world. The Jetta nameplate is a reference to the Atlantic 'jet stream', reflecting the period in Volkswagen's history when it named its vehicles after prominent winds. These also included the Volkswagen Passat (after the German word for trade wind), Volkswagen Bora (after bora), and Volkswagen Scirocco (after sirocco). Although the Golf had reached considerable success, in the North American markets, Volkswagen observed that the hatchback body style lacked some of the appeal to those who preferred the traditional three-box configuration. The styling of the 1970 AMC Gremlin was controversial for truncating the Hornet sedan, but Volkswagen stylists reversed...

The Auto Biography of the Citroen looks at the history of this unusual vehicle from its pre-war conception through to the last car to roll off the production line in 1990. It explains how the 2CV was intended to be a lightweight cheap car for farmers and the common person and how the designers developed this umbrella on wheels. It also takes a nostalgic look at its many derivatives, including a four wheel drive version and kit cars built on the 2CV chassis. Though the car is often the butt of jokes and given derogatory names such as "dustbin on wheels"--it was manufactured for over 40 years and nearly 4 million were produced. To top everything it beat flashier cars such as Aston Martin and Lotus Esprit to come top of a poll in James Bond car chases. Not bad for a modest little car! The 2CV has become something of a cult car with its unique and quirky design and The Auto Biography of the 2CV provides a brief but fascinating look at this enduring motoring icon.
