the nation’s

to the present

As nature’s
largest and
longest-lived
creations,
trees play an
extraordinarily
important role
in our cities;
they are living
landmarks
that define
space, cool
the air, soothe
our psyches,
and connect
us to nature
and our past.
Today, four-
fifths of
Americans live
in or near
urban areas,
surrounded by
millions of
trees of
hundreds of
different
species.
Despite their
ubiquity and
familiarity,
most of us

take trees for granted and know little of their fascinating natural history or remarkable civic virtues. Jill Jonnes's *Urban Forests* tells the captivating stories of the founding mothers and fathers of urban forestry, in addition to those arboreal advocates presently using the latest technologies to illuminate the value of trees to public health and to our urban infrastructure. The book

examines such questions as the character of American urban forests and the effect that tree-rich landscaping might have on commerce, crime, and human well-being. For amateur botanists, urbanists, environmentalists, and policymakers, *Urban Forests* will be a revelation of one of the greatest, most productive, and most beautiful of our natural resources. **Slip of the Tongue**

Jessica Hawkins
Arguably the most influential document in the history of urban planning, Daniel Burnham's 1909 Plan of Chicago, coauthored by Edward Bennett and produced in collaboration with the Commercial Club of Chicago, proposed many of the city's most distinctive features, including its lakefront parks and roadways, the Magnificent

Mile, and Navy Pier. Carl Smith's fascinating history reveals the Plan's central role in shaping the ways people envision the cityscape and urban life itself. Smith's concise and accessible narrative begins with a survey of Chicago's stunning rise from a tiny frontier settlement to the nation's second-largest city. He then offers an illuminating exploration of the Plan's creation and reveals how it

embodies the renowned architect's belief that cities can and must be remade for the better. The Plan defined the City Beautiful movement and was the first comprehensive attempt to reimagine a major American city. Smith points out the ways the Plan continues to influence debates, even a century after its publication, about how to create a vibrant and habitable

urban environment. Richly illustrated and incisively written, his insightful book will be indispensable to our understanding of Chicago, Daniel Burnham, and the emergence of the modern city.

Panic grips Washington, DC, in this thriller featuring “a lightning-paced plot [and] a charmingly likeable character” (Tess Gerritsen). Author of House Witness, 2019 Edgar Award Finalist for Best Novel Two foiled terrorist attacks and a law targeting Muslim Americans are about to send Joe DeMarco on a

dangerous mission among mobsters, meth dealers, and the political elite. First there was the bomb meant for the Baltimore Harbor Tunnel. Then a private plane headed straight for the White House is shot down. An atmosphere of fear and panic overruns the country, and when a senator proposes to run extensive background checks on all Muslims and deport any who aren’t

citizens, his bill gains surprising traction. John Mahoney, the larger-than-life Speaker of the House, is not pleased. But Mahoney has a connection to one of the attackers, one he wants kept secret. So he calls on Joe DeMarco . . . “Full of insider information, this novel reinforces Lawson’s place in the upper rank of Washington thriller specialists.” —Publishers Weekly

From award-winning journalist David Kushner, a regular contributor to Rolling Stone, The New Yorker, and Vanity Fair, Alligator Candy is “a raw story about courage, survival, and most certainly about love” (Tampa Bay Times). David Kushner grew up in the suburbs of Florida in the early 1970s, running wild with his friends, exploring, riding bikes, and

disappearing into the nearby woods for hours at a time. One morning in 1973, however, everything changed when David's older brother Jon took a short bike trip to the local convenience store. He never returned. Alligator Candy is the story of Jon's murder at the hands of two sadistic drifters, and everything that happened after. Jon's death was one of the first in what turned

out to be a rash of child abductions and murders that dominated headlines for much of the 1970s and 80s. It was around this the time that milk cartons began to feature the images of missing children, and newscasters began asking, "It's 10:00, do you know where you children are?" Alligator Candy chronicles Jon's story, but also tells how parenting in America has changed,

casting light on the transition between two generations of children—one raised on freedom, the other on fear. "Parents today can understand the love, hope, and fear Kushner so eloquently describes in this account of one family's transcendent courage in the face of crushing pain" (Bookpage, "Top Ten Book of the Month"). Alligator Candy is a disturbing, insightful, and inspiring

meditation on grief, growth, and what childhood has become: “not only a memorial to a brother tragically deprived of his right to live; but also a meditation on the courage necessary to live freely in a world riven by pain, suffering, and evil” (Kirkus Reviews).

Come Alive

Jessica Hawkins
The “heartstopping” conclusion to the USA Today bestselling White Monarch

series. I’ve become a queen to the forsaken, a leader to thieves, and the wife of a man who instills fear in all who cross his path. He was the husband I didn’t want. Now, I can’t fathom life without my king. I should’ve been ready for anything. Like the caterpillar that feeds on poison during metamorphosis, I was raised in the dangerous world of cartel crime. But nothing could’ve

prepared me for Cristiano de la Rosa, his brother’s poison, or the Calavera cartel. This is still a story about a love strong enough to topple households, unite enemies, and divide brothers. Resilient enough to bring down those who would try to destroy it . . . and selfless enough to make the ultimate sacrifice. But I was warned, and so were you. Death’s day always comes. This time, it will

find what was
once a
caterpillar is
now a
butterfly—and
hell hath no
fury like the
White
Monarch.

Everyone
knows the
hits: “Hanky

All of these songs, which epitomize great pop music of the late 1960s, are now widely used in television and film and have been covered by a diverse group of artists from Billy Idol to Tiffany to R.E.M. Just as compelling as the music itself is the life Tommy James lived while making it. James tells the

incredible story, revealing his complex and sometimes terrifying relationship with Roulette Records and Morris Levy, the legendary Godfather of the music business. Me, the Mob, and the Music is a fascinating portrait of this swaggering, wildly creative era of rock 'n' roll, when the hits kept coming and payola and the strong-arm tactics of the Mob were the norm, and what it was like, for better or worse, to

be in the middle of it.

Urban Forests

Jessica Hawkins Ever since the story of his transformation from homeless, single and struggling father to millionaire became known the world over, Chris Gardner --whose life story both inspired the movie *The Pursuit of Happyness* and became a #1 New York Times bestseller by the same name--has been

inundated with two questions: "How Did You Do It" and "How Can I Do it Too?" Gardner's power-packed, transformational reply is the basis of this long-anticipated book. As a departure from standard self-help tomes that promise overnight riches and exclusive secrets for success, Gardner avoids any tilt toward magical thinking by staying with real issues

and solutions impacting individuals in all walks of life. If you've had the rug pulled out from under you, or have been dealing with the loss of a home, a job, a health or financial crisis, or simply can't find the motivation to pursue new challenges, *Start Where You Are* abounds with life lessons that offer hope and provide a road map for starting anew. This is also the book for anyone ready

to launch a personal, professional undertaking, or break generational cycles that hem in their potential. Taking stock of his own credos, including "The Cavalry Ain't Coming," "Find Your Button," and "Seek the Furthest Star"- - Gardner's 44 life lessons are earthy, soulful, and always accessible. With an array of stories from the author's own life, as well as from those he has known or

admired, both famous and not, Start Where You Are has arrived just in time to embolden and encourage all of us, even in our era of great global change, reminding us of the infinite resources we already have in our collective pursuit of happiness, and spurring us on in only one direction - forward!

 The final book in the Something in the Way series, a love saga. Now a USA Today and Google Play bestseller. Manning and I have what

happily-ever-after is made of . . . A home he built us on the unshakeable foundation we fought for. A life of laughter carved out of heartache and betrayal. A love story to stand the test of time. But between a trust that can't be broken, joy that can't be bridled, and passion that would scorch the sun, the empty spaces are becoming more and more difficult to ignore . . . Fears that keep Manning up at night as

he slips from our bed. Our complicated relationship with a man he respects and one I don't know how to forgive. And a sprawling, beautiful home with one small room I'm afraid I'll never be able to fill. Manning and I have what happily-ever-after is made of . . . but I'll beg the heavens for just one thing more.
