Three Cups of Tea Maupin House Publishing, Inc. Virginia Woolf's playful exploration of a satirical »Oxbridge« became one of the world's most groundbreaking writings on women, writing, fiction, and gender. *A Room of One's Own* [1929] can be read as one or as six different essays, narrated from an intimate first-

person perspective. Actual history blends with narrative and memoir. But perhaps most revolutionary was its address: the book is written by a woman for women. Male readers are compelled to read through women's eyes in a total inversion of the traditional male gaze. VIRGINIA WOOLF [1882–1941] was an English author. With novels like *Jacob's Room* [1922], *Mrs Dalloway* [1925], *To the Lighthouse* [1927], and *Orlando* [1928], she became a

leading figure of modernism and is considered one of the most important English-language authors of the 20th century. As a thinker, with essays like *A Room of One's Own* [1929], Woolf has influenced the women's movement in many countries.

 A coming-of-age classic about a young girl growing up in Chicago •
 Acclaimed by critics, beloved by readers of all

ages, taught in schools and universities alike, and translated around the world—from the winner of the 2019 PEN/Nabokov Award for Achievement in International Literature. “Cisneros draws on her rich [Latino] heritage...and seduces with precise, spare prose, creat[ing] unforgettable characters we want to lift off the page. She is not only a gifted writer, but an absolutely essential one.” —The New York Times Book Review
The House on Mango Street is one of the most cherished

novels of the last fifty years. Readers from all walks of life have fallen for the voice of Esperanza Cordero, growing up in Chicago and inventing for herself who and what she will become. “In English my name means hope,” she says. “In Spanish it means too many letters. It means sadness, it means waiting.” Told in a series of vignettes—sometimes heartbreaking, sometimes joyous—Cisneros's masterpiece is a classic story of childhood and self-discovery and one of the greatest

neighborhood novels of all time. Like Sinclair Lewis's *Main Street* or Toni Morrison's *Sula*, it makes a world through people and their voices, and it does so in language that is poetic and direct. This gorgeous coming-of-age novel is a celebration of the power of telling one's story and of being proud of where you're from.

This classic novel of a perfectly engineered society is "one of the most prophetic dystopian works of the twentieth

century" (*The Wall Street Journal*). Half a millennium from now, in the World State, the watchword is that every one belongs to every one else. No matter what class of human you are bred to be—from the intellectual Alphas to the Epsilons who provide the manual labor—you are a part of the efficient, well-oiled whole. You are nourished, secure, and blissfully serene thanks to the freely distributed drug called soma. And while sex is strongly encouraged, the old way of procreation is

forbidden, eliminating even the pains of childbirth. But when a man and woman journey beyond these confines to where the "savages" reside, and bring back two outsiders, the cracks begin to show. Named as one of the 100 best English-language novels of the twentieth century by the Modern Library, *Brave New World* is one of the first truly dystopian novels. Influenced by the historic events of Huxley's era yet as relevant today as ever, it is a remarkable depiction of the conflict

between progress and the human spirit. "Chilling. . . . That he gave us the dark side of genetic engineering in 1932 is amazing." —Providence Journal-Bulletin "It is a frightening experience, indeed, to discover how much of his satirical prediction of a distant future became reality in so short a time." —The New York Times Book Review

 To most of us, learning something "the hard way" implies wasted time and

effort. Good teaching, we believe, should be creatively tailored to the different learning styles of students and should use strategies that make learning easier. Make It Stick turns fashionable ideas like these on their head. Drawing on recent discoveries in cognitive psychology and other disciplines, the authors offer concrete techniques for becoming more productive learners. Memory plays a central role in our ability to carry out complex cognitive tasks, such as applying

knowledge to problems never before encountered and drawing inferences from facts already known. New insights into how memory is encoded, consolidated, and later retrieved have led to a better understanding of how we learn. Grappling with the impediments that make learning challenging leads both to more complex mastery and better retention of what was learned. Many common study habits and practice routines turn out to be counterproductive. Underlining and

highlighting, rereading, cramming, and single-minded repetition of new skills create the illusion of mastery, but gains fade quickly. More complex and durable learning come from self-testing, introducing certain difficulties in practice, waiting to re-study new material until a little forgetting has set in, and interleaving the practice of one skill or topic with another. Speaking most urgently to students, teachers, trainers, and athletes, *Make It Stick* will appeal to all those

interested in the challenge of lifelong learning and self-improvement.

In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. Four months later, his decomposed body was found by a moose hunter. This is the unforgettable story of how

Christopher Johnson McCandless came to die. "It may be nonfiction, but Into the Wild is a mystery of the highest order."
—Entertainment Weekly
McCandless had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Not long after, he was dead. Into the Wild is the mesmerizing, heartbreaking tale of an enigmatic young man who goes missing in the wild and whose story captured

the world's attention. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered

experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent

mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare

understanding—and not an ounce of sentimentality. Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Building Blocks for Social-Emotional Learning
Penguin

When writing workshops first blossomed in classrooms, its hallmarks were genuine curiosity, individual choice, quality conversations, and engaging children's literature. A joyous hum of intention, creativity, and

craft enlivened the school day. Today's teachers are often faced with a range of obstacles, as new initiatives are embraced, mandates handed down, and scripted programs are purchased. Sometimes teachers must sacrifice the original principles of the writing workshop and lose the creative venue they provide. Above and Beyond the Writing Workshop is filled with original writing challenges designed to bring back the spirit of the original writing workshop model and encourage teachers

to enhance it with invention, innovation, and inspiration. Teaching creative writing is not only possible, but an important process in their instruction. Author Shelley Harwayne invites teachers to keep the workshop spirit alive by: Encouraging professional conversations on classroom ideas and methods between colleagues; Developing writing cues that allow young writers to be inquisitive, outspoken, and independent; Showing how high quality

writing can make a difference; Offering an inspired and stimulating outlet for students to express their passions. Harwayne's book will help teachers encourage students to write the world around them, which can generate more critical thinking and make for a more well-rounded child. *Hatchet DigiCat* There are many 'how-to' books on writing for academics; none of these, however, relate specifically to the discipline of geography. In this book, the author

identifies the principle modes of academic writing that graduate students and early-career faculty will encounter – specifically focusing on those forms expected of geographers, that is, those modes that are reviewed by academic peers. This book is readily accessible to senior undergraduate and graduate students and early-career faculty who may feel intimidated by the process of writing. This volume is not strictly a ‘how-to’ or ‘step-by-step’ manual for writing

an article or book; rather, through the use of real, concrete examples from published and unpublished works, the author de-mystifies the process of different types of scholarly pieces geographers have to write with the specific needs and challenges of the discipline in mind. Although chapters are thematic-based, e.g., stand-alone chapters on book reviews, articles, and books, the manuscript is structured around the concept of story-telling, for it is the

author’s contention that all writing, whether a ‘scientific’ study or more humanist essay, is a form of story-telling.

Holes Penguin

An instant classic and eerily prescient cultural phenomenon, from “the patron saint of feminist dystopian fiction” (New York Times). Now an award-winning Hulu series starring Elizabeth Moss. In this multi-award-winning, bestselling novel, Margaret Atwood has created a stunning Orwellian vision of the near future. This is the

story of Offred, one of the unfortunate “Handmaids” under the new social order who have only one purpose: to breed. In Gilead, where women are prohibited from holding jobs, reading, and forming friendships, Offred’s persistent memories of life in the “time before” and her will to survive are acts of rebellion. Provocative, startling, prophetic, and with Margaret Atwood’s devastating irony, wit, and acute perceptive powers in full force, *The Handmaid’s Tale* is at

once a mordant satire and a dire warning.

How We Write

Penguin
The astonishing, uplifting story of a real-life Indiana Jones and his humanitarian campaign to use education to combat

terrorism in the Taliban's backyard Anyone who despairs of the individual's power to change lives has to read the story of Greg Mortenson, a homeless mountaineer who, following a 1993 climb of Pakistan's treacherous K2, was inspired by a chance

encounter with impoverished mountain villagers and promised to build them a school. Over the next decade he built fifty-five schools—especially for girls—that offer a balanced education in one of the most isolated and

dangerous regions on earth. As it chronicles Mortenson's quest, which has brought him into conflict with both enraged Islamists and uncomprehending Americans, *Three Cups of Tea* combines adventure with a celebration of the humanitarian spirit.
