From reviews of the text: "The writing style is clear, appropriate and engaging....I loved the post chapter activities - case studies, vignettes, check lists, etc. I thought this was a great opportunity for students to practice and apply the content they had just read about." --Sara Cranford, George Mason University ". . . suited for undergraduate students, students in an alternate route teaching program, or for new teachers in a district's teacher orientation program. As a superintendent, I would consider giving this to every new teacher." --Marilyn Birnbaum, Rutgers University "Strengths: easy to read, varied types of graphs, narratives, activities; good end of chapter summaries; practical tips and applications . . . I like MyEdLab [and that] there are a large number of case studies and activities at the end of each chapter. The amount of detail provided on most topics is exceptional. It is very thorough and understandable." --Teri Walseth, University of South Florida Personalize learning with MyEducationLab(R) MyEducationLab is an online homework, tutorial, and assessment program designed to work with the text to engage students and

Intended primarily for Managerial Economics courses, this text also provides practical content to current and aspiring industry professionals. Economics is a powerful tool that can help managers to manage effectively. In Managerial Economics Jeffrey Perloff and James Brander use real-world issues and examples from actual markets to show future managers how economic principles can be used in business decisions. In text examples and boxed mini-cases use actual data to illustrate how to use basic models. For example, to illustrate rivalry in oligopolistic markets, the authors look at rivalry between United and American Airlines and between Coke and Pepsi. Mini-case examples include why American Apparel is vertically integrated and why upscale manufacturers limit the number of designer hand-bags a customer is allowed to buy. To help future managers learn to solve new problems, Perloff and Brander repeatedly demonstrate problem-solving through in-text Q&As. Each Q&A poses an important managerial or economic issue and demonstrates how to solve it using a step-by-step approach.
