[PDF] Computer Graphics, C Version By Donald D. Hearn, M ...
 ...Computer graphics is the discipline of generating images with the aid of computers. Today, computer graphics is a core technology in digital photography, film, video games, cell phone and computer displays, and many specialized applications. Computer graphics - Wikipedia
 The quaternions are members of a noncommutative division algebra first invented by William Rowan Hamilton. The idea for quaternions occurred to him while he was walking along the Royal Canal on his way to a meeting of the Irish Academy, and

Hamilton was so pleased with his discovery that he scratched the fundamental formula of quaternion algebra, $i^2=j^2=k^2=ijk=-1$, (1) into the stone of the ... Quaternion -- from Wolfram MathWorld
 3D projection is any method of mapping three-dimensional points to a two-dimensional plane. As most current methods for displaying graphical data are based on planar (pixel information from several bitplanes) two-dimensional media, the use of this type of projection is widespread, especially in computer graphics, engineering and drafting.. Graphical projection is a protocol, used in technical ...
