The Leadership Challenge Routledge

Offers insights on the development of authentic leadership. This volume considers the dynamics whereby such factors as humor, political skill, emotions, resiliency, and moral and spiritual leadership interact with authenticity to foster authentic leader-follower relationships at dyadic, group, and organizational levels.

The Theory and Practice of Change Management Routledge

The Fourth Edition of Peter G. Northouse's bestselling Introduction to Leadership: Concepts and Practice provides readers with a clear overview of the complexities of practicing leadership and concrete strategies for becoming better leaders. The text is organized around key leader responsibilities such as creating a vision, establishing a constructive climate, listening to outgroup members, and overcoming obstacles. Three interactive components in every chapter—self-assessment questionnaires, observational exercises, and reflection and action worksheets—get readers actively involved in applying leadership concepts to their own lives. Grounded in leadership theory and the latest research, the fully updated, highly practical Fourth Edition includes a new chapter on how leaders can embrace diversity and inclusion, as well as new material on the dark side of leadership and a new ethical leadership style questionnaire.

'What makes this book stand out in the crowd is the engaging approach the authors have taken to present their argument and the novel treatment they offer of diversity and diversity management...a must-read for anyone in a leadership position or interested in investigating education leadership and diversity' - Gender and Education 'The authors should be congratulated for tackling the crucial topic of diversity within educational leadership....the book makes a major contribution to the small but emergent body of studies in this area' - Journal of Educational Administration & History 'This book sets out a central aim of stimulating reflection on diversity and implications for leaders in education. It also aims to support the development of practice. It is a useful book for those involved in educational management and for policy makers at all levels' - ESCalate 'The authors challenge the reader to reconsider leadership theory in light of notions of social justice and diversity, and to put into place newly articulated frameworks for action...The text is richly supported by strong empirical research and a sometimes-intricate philosophical approach in making its case for justice and fairness in education and beyond' - Choice Magazine What do we mean by diversity? Why is it an important issue for leaders of schools, colleges and universities? As society becomes increasingly diverse, there is significant international awareness in education about how this impacts on leaders and leadership. For decades the emphasis has been placed on increasing the number of leaders with specific attributes, such as women or those from ethnic minorities, to encourage a true representation of society. This far-reaching book takes a wider view, challenging the reader to recognise the importance of diversity issues and to embed diversity as central within leadership

theory and practice. Drawing on their extensive research the authors establish a clear understanding of what diversity means and use this to develop a distinct approach to conceiving leadership, preparing leaders and acting as leaders. They explain how diversity should be a holistic issue which touches every aspect of leadership and is vital to ensuring effective and appropriate leadership for education in pluralist societies. The authors explore the history of approaches to addressing inequities in access to leadership positions and the experience of leadership, from equal opportunities, to diversity and inclusion, to capabilities approaches. The book also proposes fundamental and concrete changes that leaders can undertake both in their own and their organisation's practice, to reflect a real commitment to social justice in a diverse society.

Applying Theory to Practice Elsevier Health Sciences

This book provides a complete overview of motivation and emotion. Well-grounded in the history of the field, the fourth edition of Motivation: Biological, Psychological, and Environmental combines classic studies with current research. The text provides an overarching organizational scheme of how motivation (the inducement of action, feelings, and thought) leads to behavior from physiological, psychological, and environmental sources. The material draws on topics that are familiar to students while maintaining a conversational tone to sustain student interest.

The traditional idea of leadership as being about the solo, heroic leader has now run its course. A new way of thinking about leadership is now needed to address major challenges such as achieving greater social responsibility, enhancing leadership capacity and recognising the importance of context as affecting how leadership occurs. Relational leadership offers a new perspective of leadership that addresses these challenges. At its core, relational leadership recognises leadership as centred in the relationships that form between both formal and informal leaders and those that follow them, far more so than the personality or behaviours of individual leaders. This book introduces readers to the most up-to-date research in this area and the differing theoretical perspectives that can help us better understand leadership as a relational phenomenon. Important characteristics of effective leadership relationships such as trust, respect and mutuality are discussed, focusing on how they develop and how they bring about leadership effects. Specific forms of relational leadership such as shared leadership, responsible leadership, global team leadership and complexity leadership are addressed in subsequent chapters. The book is the first to examine recent ideas about how these new forms of relational leadership are put into practice as well as techniques, tools and strategies available to organisations to help do so. The inclusion of three detailed case studies is specifically designed to help readers understand many of the key concepts covered in the book, with key learning points emphasised. The book offers an excellent summary of the state-of-the-art topics in this new and exciting field of relational leadership.

Adaptive Leadership: The Heifetz Collection (3 Items) Harvard Business Review Press

The subject of leadership raises many questions: What is it? How does it differ from management and command? Are leaders born or bred? Who are the leaders? Do we actually need leaders? Inevitably, the answers are provocative and partial; leadership is a hugely important topic of debate.

There are constant calls for 'greater' or 'stronger' leadership, but what this actually means, how we can evaluate it, and why it's important are not very clear. In this Very Short Introduction Keith Grint prompts the reader to rethink their understanding of what leadership is. He examines the way leadership has evolved from its earliest manifestations in ancient societies, highlighting the beginnings of leadership writings through Plato, Sun Tzu, Machiavelli and others, to consider the role of the social, economic, and political context undermining particular modes of leadership. Exploring the idea that leaders cannot exist without followers, and recognising that we all have diverse experiences and assumptions of leadership, Grint looks at the practice of management, its history, future, and influence on all aspects of society. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The sixth edition of this classic text continues its popular interdisciplinary approach to the topic of leadership by examining fundamental elements of military leadership: the 'process' of leadership, the dynamic personal interactions between leader and followers, and the individual and organizational values that foster effective military leadership. *Military Leadership* provides a thoroughly reconsidered and greatly expanded mix of classic and contemporary articles as well as original essays, with authors representing all of the services. Incisive introductory essays to each section highlight themes and connections. Eric B. Rosenbach joins the editorial team for this edition, helping infuse the text with fresh perspectives. The essays of the sixth edition confront the kudos and criticisms that surround military leadership today, offer international viewpoints, and relate military leadership to contemporary leadership theory and approaches.

Leadership Case Studies in Education SAGE

In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas on how to adapt and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: *Leadership on the Line*, by Ron Heifetz and Marty Linsky, and *The Practice of Adaptive Leadership*, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article, "Leadership in a (Permanent) Crisis," written by all three authors. Available together for the first time, this collection includes full digital editions of each work. Adaptive leadership is a practical framework for dealing with today's mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive leadership serves as a guide to distinguishing the essential from the expendable, beginning the meaningful process of adaptation, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of leadership. Marty Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior Advisor to CLA, having previously held the position of CEO.

This book develops a new paradigm in the field of leadership studies, referred to as the "leadership-as-practice" (L-A-P) movement. Its essence is its conception of leadership as occurring as a practice rather than residing in the traits or behaviours of particular individuals. A practice is a coordinative effort among participants who choose through their own rules to achieve a distinctive outcome. It also tends to encompass routines as well as problem-solving or coping skills, often tacit, that are shared by a community. Accordingly, leadership-as-practice is less about what one person thinks or does and more about what people may accomplish together. It is thus concerned with how leadership emerges and unfolds through day-to-day experience. The social and material contingencies impacting the leadership constellation - the people who are effecting leadership at any given time - do not reside outside of leadership but are very much embedded within it. To find leadership, then, we must look to the practice within which it is occurring. The leadership-as-practice approach resonates with a number of closely related traditions, such as collective, shared, distributed, and relational leadership, that converge on leadership processes. These approaches share a line of inquiry that acknowledges leadership as a social phenomenon. The new focus opens up a plethora of research opportunities encouraging the study of social processes beyond influence, such as intersubjective agency, shared sense-making, dialogue, and co-construction of responsibilities.
