#### Complete Graded Spelling Lists for Years One to Six Teacher Created Resources

The new Spelling for Literacy series will consist of six books designed to reflect fully the demands of the latest National Curriculum: the books cover all the statutory requirements, which specify sounds and spelling patterns, as well as the non-statutory guidance including all the curriculum's example

words...together with many others! Preserving the popular format of the original series, each book will contain forty sets of words with each set arranged across three pages: a display page, for pinning to the wall or showing on screen, a practice page, to include using the words in context, and a 'Learn, Write, Check' page to reinforce the learning process. Teachers will know confidently that, by using these books, they will cover every word and every spelling pattern required for the 2014 curriculum.

#### No Nonsense Spelling Instructional Fair

'No Nonsense Spelling' is a new complete spelling programme designed to meet the needs of the 2014 National Curriculum in a manageable way.

Written by the Babcock LDP Primary Literacy team, the programme is easy to use, flexible and comprehensive, providing sufficient guidance to implement an effective spelling teaching programme from Year 2 to Year 6.

This spelling book provides a basis for a fun and exciting spelling curriculum in your classroom. Each Word List has been carefully selected to focus on a specific

spelling element that fifth grade students would encounter in their reading and writing. In addition to the Word List and activity on each worksheet, students are encouraged to make a list of "special words" that they would like to learn to spell. Each lesson also suggests a "writing" activity that complements the page and is intended to encourage student writing. "Extensions" pages provide exercises that require the students to build more words based on the spelling patterns of the previously studied Word Lists.

Morph Mastery is an accessible, practical guide designed to support learners with specific learning difficulties (SpLD) who are struggling with spelling, reading and vocabulary. It is an effective, research-based and fun solution for when phonics-based teaching has run its course.

Understanding the morphological regularities in English helps to support both spelling and reading

comprehension, yet there are few practical interventions that take a morphological approach. Morph Mastery combines this exciting new approach with tried-and-tested teaching methods that work. The activities in this book follow three engaging ninja-like characters, Prefa, Root and Sufa, who

represent the three core components of morphology (prefixes, root words and suffixes) and use their sceptres to craft words. Key features include:

- Exciting and engaging activities and games, designed to be used by individuals or small groups
- Detailed, curriculum-linked assessments, enabling specific

target setting

- Photocopiable and downloadable activity sheets and resources

Written in a user-friendly tone, for teaching assistants, teachers and other professionals with little or no specialist knowledge, this book is a must for any school with struggling readers and writers aged 9-13.
