Come As You Are is as good as rock bios get” —Billboard Nirvana came out of nowhere in 1991 to sell nearly five million copies of their landmark album *Nevermind*, whose thunderous sound and indelible melodies embodied all the confusion, frustration, and passion of the emerging Generation X. *Come As You Are* is the

close-up, intimate story of Nirvana—the only book with exclusive in-depth interviews with bandmembers Kurt Cobain, Krist Noveselic, and Dave Grohl, as well as friends, relatives, former bandmembers, and associates—now updated to include a final chapter detailing the last year of Kurt Cobain's life, before his tragic suicide in April 1994. **The New Books**  
 Harvard Business Review Press Numerical procedures based on the 2-D and 3-D full potential equations and the 2-D Navier-Stokes equations were developed to study the effects of leading and trailing edge flap motions

on the aerodynamics of parallel airfoil-vortex interactions and on the aerodynamics and acoustics of the more general self-generated rotor blade vortex interactions (BVI). For subcritical interactions, the 2-D results indicate that the trailing edge flap can be used to alleviate the impulsive loads experienced by the airfoil. For supercritical interactions, the results show the

necessity of using a leading edge flap, rather than a trailing edge flap, to alleviate the interaction. Results for various time dependent flap motions and their effect on the predicted temporal sectional loads, differential pressures, and the free vortex trajectories are presented. For the OLS model rotor, contours of a BVI noise metric were used to quantify the effects of the

trailing edge flap on the size and directivity of the high/low intensity noise region(s). Average reductions in the BVI noise levels on the order of 5 dB with moderate power penalties on the order of 18 pct. for a four bladed rotor and 58 pct. for a two bladed rotor were obtained.  DISCIPLE IV  
 UNDER THE  
 TREE OF LIFE  
 is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY.  
 The study concentrates

on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of

the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30

<p>minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship</p>	<p>experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New</p>	<p>Testament video segments emphasizes the simpler life of New Testament times. <u>Teach Your Dragon To Understand Consequences</u> Routledge The bestselling book, now with a new preface by the authors At once a bold defense and reimagining of capitalism and a blueprint for a new system for doing business, <u>Conscious Capitalism</u> is for anyone hoping to build a more</p>

cooperative, humane, and positive future. Whole Foods Market cofounder John Mackey and professor and Conscious Capitalism, Inc. cofounder Raj Sisodia argue that both business and capitalism are inherently good, and they use some of today's best-known and most successful companies to illustrate their point. From Southwest Airlines, UPS, and Tata to Costco, Panera, Google, the Container

Store, and Amazon, today's organizations are creating value for all stakeholders—including customers, employees, suppliers, investors, society, and the environment. Read this book and you'll better understand how four specific tenets—higher purpose, stakeholder integration, conscious leadership, and conscious culture and management—can help build strong

businesses, move capitalism closer to its highest potential, and foster a more positive environment for all of us. Identify, Pinpoint, Strike, Protect, and Act!

In this book Kornhaber and Woodward explore the vital connections which link generations to each other and expose a new social contract that destroys the emotional bonds between grandparents and grandchildren.

, This is the first book which reviews,

in a careful ethnographic manner, the relationship of grandchildren to grandparents and the place of love at one end and abandonment at the other by grandparents. The authors probe the deep, unexplored emotional histories of hundreds of grandparents; how they feel about themselves, their grandchildren, and their loss of function within today's nuclear family., With

sharp increases in the number of broken families and working mothers, grandparents are more vital than ever and also more available than ever. This basic research document shows how grandparents recover their natural role as elders of the family and of society. The author's basic premise is that to exist is to be connected, and that no matter how grandparents act, they affect the

emotional well-being of their grandchildren, for better or for worse, simply because they exist., In an age when mounting economic and social pressures make it increasingly easier to split a family than to sustain one, the authors alert us to a forgotten source of family strength, the power of grandparents to enrich the lives as a whole. The case studies reported in	this volume represent a first effort in an area left unexplored by developmental researchers. There are lessons here for social scientists, but even more for our alienated society.—Urie Bronfenbrenner, Cornell University <u>Baby Log Book: Planner and Tracker For New Moms, Daily Journal Notebook To Record Sleeping and Feeding.</u> Dg Books Publishing First published in 2005. Routledge is	an imprint of Taylor & Francis, an informa company. <u>Behold a Pale Horse</u> Chronicle Books Albania provides a small amount of social assistance to nearly 20% of its population through a system which allows a degree of community discretion in determining distribution. This study investigates the poverty targeting of this program. It indicates that relative to other safety

net programs in low income countries, social assistance in Albania is fairly well targeted to the poor.
