TANYA LEE

Performance Evaluation of Cold In-place Recycling Projects in Arizona Springer-Verlag
 В курсе представлен обзор основных машин, применяемых при сооружении водохозяйственных объектов, добыче полезных ископаемых, строительстве автомобильных дорог, газо- и нефтепроводов, промышленных и коммунальных сооружений. Кратко рассмотрены механические передачи, детали передач и специальные узлы и детали грузоподъемных машин. Представлены основные сведения о машинах для земляных работ, поскольку эти работы по своему удельному весу в общих объемах строительных работ являются наиболее массовыми и трудоемкими. Рассмотрены уплотняющие машины, необходимые для уплотнения грунтов при возведении насыпей автомобильных дорог, железнодорожных магистралей, при укладке аэродромных покрытий и др. Большое внимание уделено грузоподъемным машинам, широко используемым для выполнения

строительно-монтажных работ в гражданском, промышленном и энергетическом строительстве. Представлены машины для бурения шпуров, скважин и ям в грунтах и скальных породах, а также машины и оборудования для сооружения свайных фундаментов. Отражены основы рациональной эксплуатации машин и оборудования организация своевременного проведения профилактических и ремонтных работ без существенного отвлечения машин от производства. Соответствует актуальным требованиям федерального государственного образовательного стандарта высшего образования. Курс предназначен для студентов высших учебных заведений, обучающихся по направлению «Наземные транспортно-технологические комплексы».

 SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2020 from AECOM gives costs for both general and civil engineering works and highway works. It provides a full breakdown of labour, plant and material elements, with labour rates updated. cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing, and in conformity with CESMM4 and the Highways Method of Measurement. This 34th edition gives a strong development of prices for excavations and rail, and a general overhaul of prices through the book. Use the access code inside the front cover of the book to get set up with an ebook of this 2020 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2020. In a time when it is essential to gain 'competitive advantage' in a sometimes turbulent market, this price book provides instant-access cost information and forms a one-stop reference. ... along with the standard features you have come to expect from SPON'S CIVIL

ENGINEERING AND HIGHWAY WORKS PRICE BOOK: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates, outputs, man hour constants for detailed pricing: unit costs with full breakdown, or specialist prices, with advice on item coverage, waste allowances and comparative costs for incidental advice: tables and formulae, technical information, professional advice updates, free of charge, twice a year – see inside for registration details. Updates are available online at www.pricebooks.co.uk

Public Works Manual CRC Press

This interdisciplinary volume comprises papers from several fields related to compaction. Topics include: soil compaction for pavements and roads; deep soil compaction by vibration, impact and underground explosion; compaction control; and compaction processes in engineering.

Official South African Municipal Year Book CRC Press

Captures real material, plant and labour costs from the UK's major live rail, civils and highways projects. SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK 2021 from AECOM gives a full breakdown of labour, plant and material elements, with labour rates updated. Cost guidance is given at a number of levels, varying from the more general functional costs to detailed resource costing; and in conformity with CESMM4 and the Highways Method of Measurement, and updated to the CIJC wage agreement. This 35th edition gives more items on shafts, tunnelling, drainage and water proofing – covering some brand new materials and methods. Notes have been added to tunnelling, viaducts, D-walls and piling under the output section. The book partially reflects costs and new ways of working resulting from the Covid-19 pandemic. Use the access code inside the front cover of the book to get set up with an ebook of this 2021 edition on the VitalSource® Bookshelf platform, available for access and use until the end of December 2021. ... along with the standard features you have come to expect from SPON'S CIVIL ENGINEERING AND HIGHWAY WORKS PRICE BOOK: for budgeting: estimating principles, on-cost advice, method-related charges for resource costings: labour costs, plant costs, material prices for rapid cost information: approximate estimates, dayworks, cost indices for plant and labour allowances: production rates,
