The New Mindset for Innovating Smarter
Harvard Business Press
The Power of Empowering Others
Leadership isn't easy. It takes grit, courage, and vision, among other things,

that can be hard to come by on your toughest days. When leaders and aspiring leaders seek out advice, they're often told to try harder. Dig deeper. Look in the mirror and own your natural-born strengths and fix any real or perceived career-limiting deficiencies. Frances Frei and Anne Morriss offer a different worldview. They argue that this popular leadership advice glosses over the most important thing you do as a leader: build

others up. Leadership isn't about you. It's about how effective you are at empowering other people—and making sure this impact endures even in your absence. As Frei and Morriss show through inspiring stories from ancient Rome to present-day Silicon Valley, the origins of great leadership are found, paradoxically, not in worrying about your own status and advancement, but in the unrelenting focus on other people's potential. Unleashed

provides radical advice for the practice of leadership today. Showing how the boldest, most effective leaders use a special combination of trust, love, and belonging to create an environment in which other people can excel, Frei and Morriss offer practical, battle-tested tools—based on their work with companies such as Uber, Riot Games, WeWork, and others—along with interviews and stories from their own personal experience, to make these ideas come alive. This book is your indispensable guide for unleashing greatness in other people . . . and, ultimately, in yourself. To learn more, please visit theleadersguide.com.

Radical Candor Harper Collins
Discover the Proven “Low Drama, High Joy” Method for Productive, Empathy-Based Communication and Collaboration. Why do so many organizations, teams, couples, families, and groups who should be working together end up wasting

energy on unproductive conflict? Even when everyone has the same general goals, what’s often missing is a deeper alignment based on mutual trust, respect, and empathy. With Radical Alignment, top-level life and business coaches (and happily married couple) Alexandra Jamieson and Bob Gower share their potent method for helping groups to stop clashing and start working together—to jump from “we can’t” to an enthusiastic “hell yes!” The essential tool at the heart of Radical Alignment is the All-In Method: a four-step approach to communication designed to increase clarity, minimize miscommunication, honor each person’s individuality, and build a shared sense of trust and respect for long-term success. With easy-to-follow instruction, Jamieson and Gower bring you: • The Foundations of Great Communication—what works, what doesn’t, and how to analyze the strengths and weaknesses of your own style • The All-In Method—a step-by-step walk-through of this proven approach to getting into radical alignment with others • The Method in Action—examples and exercises for using the All-In Method at work, at home, and in any situation • Scripts,

suggestions, guidance, and additional resources for making this a lifelong practice for greater connection and intimacy “We believe passionately that the world needs more aligned teams in our businesses, organizations, communities, families, and intimate partnerships,” write the authors. “This means we need people who are able to have powerful and clear exchanges that build better connections.” Radical Alignment brings you a “low drama, high joy” technique to transform the way you collaborate and communicate in every area of your life.

We can both share and teach perspective, and we can be society's elders -- in the grandest sense of the word. But we have to be interested. We have to be curious.

Iteration rules product development, but it isn't enough to produce dramatic results. This book champions Radical Product Thinking, a systematic methodology for building visionary, game-changing products. Methodologies such as Lean and

Agile have democratized innovation by teaching us to harness the power of iteration to innovate faster, but our ability to set a clear destination hasn't kept up with the pace. When we iterate without a clear vision or strategy, our products become bloated, fragmented, and driven by irrelevant metrics. They catch “product diseases” that are often fatal to true innovation. In *Radical Product Thinking* (RPT), product development is led by the vision for the change it's intended to create. This methodology helps leaders reimagine the problems they face and align their team to find creative solutions using five elements: Vision, Strategy, Prioritization, Execution, and Culture. R. Dutt guides readers through these elements so they develop a clear process for achieving their desired change, incorporate it into daily activities, and turn RPT skills into muscle memory. This book gives organizations a repeatable model for building vision-driven products by helping us systematically translate vision and strategy into everyday actions so our product becomes a vehicle for creating the change we want to see in the world. Dutt shows us that you don't have to be a

natural-born visionary to produce extraordinary results.

Radical Outcomes North Atlantic Books
In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas on how to adapt and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: *Leadership on the Line*, by Ron Heifetz and Marty Linsky, and *The Practice of Adaptive Leadership*, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article, “Leadership in a (Permanent) Crisis,” written by all three authors. Available together for the first time, this collection includes full digital editions of each work. Adaptive leadership is a practical framework for dealing with today’s mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive

leadership serves as a guide to distinguishing the essential from the expendable, beginning the meaningful process of adaptation, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of leadership. Marty Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior Advisor to CLA, having previously held the position of CEO.

A Memoir of a Life in Leadership Lifetree

As interest in competency-based education (CBE) continues to grow by leaps and bounds, the need for a practical resource to guide development of high-quality CBE programs led the authors to write this book. Until now, there has been no how-to manual that captures in one place a big picture view of CBE along with the down-to-earth means for building a

CBE program. A variety of pressures are driving the growth in CBE, including the need for alternatives to the current model of higher education (with its dismal completion rates); the potential to better manage the iron triangle of costs, access, and quality; the need for graduates to be better prepared for the workforce; and the demands of adult learners for programs with the flexible time and personalized learning that CBE offers. Designed to help institutional leaders become more competent in designing, building, and scaling high-quality competency-based education (CBE) programs, this book provides context, guidelines, and process. The process is based on ten design elements that emerged from research funded by the Gates Foundation, and sponsored by AAC&U, ACE, EDUCAUSE, and the Competency-Based Education Network (C-BEN), with thought partners CAEL and Quality Matters. In short, the book will serve administrators, higher education leaders, faculty, staff, and others who have an interest in CBE by:

- Giving context to enable the audience to discover the importance of each design element and to help frame the CBE

- Providing models, checklists, and considerations to determine the “what” component for each design element;
- Sharing outlines and templates for the design elements to enable institutions to build quality, relevant, and rigorous CBE programs (the “how”).

The Game Changer's Guide to Radical Success Harvard Business School Press Educators often invoke the term care to describe why they entered the field and what compels them to continue. This book argues that care, as typically described and enacted, is not sufficient for leading schools, particularly those serving Black and Brown children. Instead, school

leaders need to embrace radical care. Drawing from 20 years of researching and working in New York City public schools, Rosa Rivera-McCutchen outlines the five components of radical care: adopting an antiracist stance, cultivating authentic relationships, believing in students' and teachers' capacity for excellence, leveraging power strategically, and embracing a spirit of radical hope. To demonstrate practical strategies, the author shares vignettes from her personal experiences that exemplify each of the components. Calling for today's school leaders to thoughtfully challenge existing structures that reproduce inequality, *Radical Care* offers a much-needed framework that will guide leadership practice with a sense of urgency and a spirit of hope. **Book Features:** Focuses on the school principal as critical catalyst for school transformation. Centers antiracism as essential to leadership practice. Includes practical strategies for navigating the sociopolitical and policy climate. Offers a roadmap for engaging teachers and staff in practicing radical care.

Red, White and Radical explores how and why America has become so conservative since World War II. In the process, it offers lessons that professional leaders, regardless of their political stance, should heed if they want their organisational change plans to succeed. Over the past 70

years, a motley crew of suburban activists, libertarian businessmen and political opportunists have radically changed America and its national values. The rise of American conservatism is the greatest modern example of cultural change in the Western world. How did they do it - and what can we learn from this? *Red, White and Radical* is a manual for organisational change. It tells nine stories from American cultural, political and business history that illuminate how conservatives have pioneered change. From these stories, it extracts a change management lesson for professional leaders and explains how to apply that lesson in the workplace. These nine lessons are organised into a clear change framework: understanding and motivating people communicating with emotion and authenticity building teams and networks that can deliver lasting change. Along the way you'll also learn: how Marlboro became the world's biggest cigarette brand why conservatives love Ronald Reagan but despise Richard Nixon the origins of the social media echo chamber how Silicon Valley learned to lobby the secrets of Donald Trump's populist X Factor. *Red, White and Radical*

is not for the faint of heart. If you're a passionate business leader who relishes the challenge of delivering true organisational change for the better, then this book is for you.

Ingram journeys through over a century of history, from the Islamist modernists of the late-1800s into the 21st century, in the first full length examination of the charismatic leadership phenomenon in Islamist radicalism and militancy. Exhaustively researched and founded upon a suite of innovative multidisciplinary paradigms, this book features case studies of Hassan al-Banna, Sayyid Qutb, Abdullah Azzam, Osama Bin Laden and Anwar al-Awlaki. At a micro-level, Ingram argues that charismatic leaders act as vehicles for the evolution of modern Islamist radicalism and militancy. At a macro-level, he argues that the transformative charisma phenomenon in Islamist radicalism and militancy produces complex chains of charismatic leaders as individual figures rise by leveraging, to varying degrees, the charismatic capital of preceding charismatic leaders. Within

these case studies, Ingram offers new approaches to understanding the nuances of these complex phenomena; from his ideal-types of charismatic leadership in Islamist militancy (spiritual guides, charismatic leaders and neo-charismatic leaders) to his framing of al-Qaeda as a 'charismatic adhocracy'. The result is an authoritative analysis of a phenomenon largely ignored by scholars of both charismatic leadership and Islamism. Ultimately, this ground-breaking investigation offers important insights into the complex nuances that drive the rise and evolution of not only Islamist militancy but radical and militant groups more broadly.
