Is your child a dreamer? Does your child see visions? If so, do not ignore them. Although every dream or vision does not have any spiritual benefit we still need to listen to our children. This is so important because dreams and visions are the language of God. Every human being on the planet has the innate ability to receive divine communication from God especially in the form of a dream. The concept of dreams is fascinating and has researchers across the globe trying to find answers. Dreams are a language all their own and interpretation comes solely from our Heavenly Father. So, if your child is a dreamer you need to explain to them that God can speak to them through dreams. And take the time to show them scriptures about dreams. This will cause them to be more mindful and pay attention when they have dreams. Remember in 1 Samuel the 3rd chapter God was speaking to Samuel but he was young and did not yet know the voice of the Lord. Very often God is speaking to our children and it is up to us to teach them to recognize and respond to the voice of the Lord. Understand that not only will God communicate with children in dreams and visions the enemy will try and come with demonic communication. Many prophetic children that are dreamers battle with nightmares and being harassed at night by demonic spirits. Some children dream vividly almost every night and taking the time to listen to their dreams can give some insight to the source of their dreams or even reveal a message that God has been speaking through dreams. The first half of this book is geared towards you, the parents and other adults that are responsible for prophetic children. The second half of this book is some activities for you to do along with your prophetic child.

Learn to Walk in Revelatory Realms of Heaven Multnomah
 Most people associate visions, and dream as wired and superstitious thing but from the biblical perspective and from my personal experience over a period of an effective time in the ministry, I believe that this supernatural spiritual phenomenon are still authentic now as it was then. Those who believe that life is just about the natural realm where we now live are deceived and need someone to bring them to the dimension of spirituality. In this book I will prove to you how God used visions, revelations and dream to make his word real to me and for me. I believe that some of you who are reading some of these account of what God did in my life have also had your own share of experiences with God. It is important for those who want to grow spiritually to know that God does use Visions, dreams, and revelation as one of his ways of teaching us about who he is and about his words. In other words, no one is that a born again Holy Spirit Christian that will not have an account of a time that God taught them spiritual things through a dream, vision or revelation. If Paul was taught by God through visions, and revelations then the same God who taught him by those means will do the same today. Some may argue that we don't need to get vision, revelations and dreams anymore because we have the written word; but they forget to understand that the bible never said that God was never going to teach us or show us things by visions or revelations or dreams but rather whatever he teaches us by those means ill line up with his word or else it may lead to deception. It is important that I warn people however, that those who walk with God do not go about conjuring for visions, revelations and dreams; this things happens only by the doing of the Holy Spirit if is really of God. Those who go about telling people to pay them so that they will get revelations, dreams, and visions are out of the will of God; people that operate like that are likely false prophets and those who follow such may end in end up not in the gospel but in spiritism instead of true spirituality. Since Christianity is not a cult it is important that visions, revelations, and even dream be from God and not of human making. If those who are believers trust God he will know when it may be necessary to communicate to them by these means. Jesus said that when the Holy Spirit comes he will show us things to come; how is he going to show us things to come without doing so by revelation. Paul the Apostle praying for the Church of Ephesus prayed that God will grant them the spirit of revelation in the knowledge of him. There are two ways to learn from God one is through information from the word and the second is from revelation of his spirit. It is important to know that Christianity is not all about information only it is also about revelations. The word "Apocalyptic" means the hidden knowledge. How are Christians going to deal with apocalyptic events if they have no clue that every knowledge about God and the universe is not all written in the bible; the bible gives us a

guideline to c coming to the knowledge of those things and the Holy Spirit reveals them when it is necessary in God's timing. I often ponder when I read the last chapter of the gospel of John. It states: "Jesus did many other things as well. If every one of them were written down, I suppose that even the whole world would not have room for the books that would be written" [John 21:25 NIV]. There are no book in the world or library that can contain all the information about God however, God teaches us about these things through vision, dreams and revelations. We now live in a world that believe and only trust in television but the apostles did not have television yet they were able to transact the business of the kingdom of God through heavenly visions. I submit to you that vision is for us today and those who truly walk with God are going to be shown things to come by the Holy Spirit as promised by God.

WHAT END-TIMES WILL MEAN FOR YOU !!(NOTE: All profits from this book go to missions). The 2nd Coming of Christ is undoubtedly on the horizon (Mathew Chapter 24). I believe this. The Scriptures and signs in Israel prove it, yet I am a PhD biologist! More importantly, I am a dedicated Christian planted in a local congregation. Our preparations as grassroots Christians, and as leaders, in the global & local Church, are critical to His coming. Jesus wants to use us! The Father has bound Himself to achieve final victory through us, the Body of Christ. Jesus is the Head. My visions are challenging, timely and 100% consistent with Scripture. They are also rich in Biblical symbolism from the Book of Revelations, Daniel, Ezekiel & the Tabernacle, Temples & Feasts of Israel - which I explain - and which I learned from many years of study at church Bible studies, seminars and home. Along the way, through personal visions after seeking the Lord, I learned that I would never become a leader in the church because that is not my calling. But I do believe I need to share these visions with the Body of Christ and seekers of His way. In my visions I have seen: * important aspects and the eternal security of the New Jerusalem* events of the 2nd Coming* the preparations we need to give ourselves to* the specific shortcomings of present Church leadership* the dangers of ignoring His word* what we can do to honour The Lord in our daily lives* what determines my own mansion in the New Heavens & Earth* the ways He will reward us, or deny us, according to the degree of our faithfulness in this life. Like Joseph in the Bible God has granted me (Charles Pallaghy) numerous visions and dreams together with the gift of interpreting them. Each God- and angelic- encounter has been either for personal encouragement, or for a confirmation of my identity in Christ, or as a warning of events to come, or to deliver a prophecy to the church. I particularly cherish those visions and dreams that have enhanced my understanding of the Word of God. I am excited to share these with you.

In our modern culture, we have everything from ATV's to MTV. God will never be outdone by modern technology. He has always had His DTV's: dreams, trances and visions which He uses to communicate His direction and deliverance for our lives. In this book, Dr. Derber explores the Biblical basis for each of these and explains their purpose, function and operation. We don't pursue them merely to experience them, but to better understand God's means of communication. Although God's eternal Word is more than enough for our lives, our supernatural God still chooses at times to speak to some of us in Dreams, Trances, and Visions.

If You Believe Miraculous Gifts Have Ceased, You're in for a Big Surprise! What caused a former Dallas Seminary professor to believe that the miraculous gifts of the Holy Spirit are being given today? What convinced someone skeptical about miracles that God still speaks and heals? A dramatic change took place in Jack Deere's life when he took a fresh look at the Scriptures. He discovered that his arguments against miraculous gifts were based more on prejudice and lack of personal experience than on the Bible. As soon as Deere became a seeker instead of a skeptic, the Holy Spirit revealed himself in new and surprising ways. In *Surprised by the Power of the Spirit*, Deere provides a strong biblical defense for the Spirit's speaking and healing ministries today. He also describes several reliable cases of people who were miraculously healed or who heard God speak in an unmistakable way. Finally, he gives sound advice for using spiritual gifts in the church. Written in a popular style, with the care of a scholar but the passion of personal experience, this book explores: - The real reason Christians do not believe in miraculous gifts - Responding to Charismatic abuses - Were miracles meant to be temporary? - Why God still heals "'Must' reading for all Bible-believing Christians. I wish with all my heart I could place it in the hands of every conservative evangelical." - James Robison, Life Outreach International

Throughout the centuries angels have been featured in, among others, theological works on scripture; studies in comparative religions; works on art, architecture and music; philological studies; philosophical, sociological, anthropological, archeological and psychological works; and even a psychoanalytical study of the implications that our understanding of angels has for our understanding of sexual differences. This bibliography lists 4,355 works alphabetically by author. Each entry contains a source for the reference, often a Library of Congress call number followed by the name of a university that holds the work. More than 750 of the entries are annotated. Extensive indexes to names, subjects and centuries provide further utility.
