Two Birds in a Tree Le vie della Cristianità

THESE HABITS WILL MAKE YOU EXTRAORDINARY. Twenty years ago, author Brendon Burchard became obsessed with answering three questions: 1. Why do some individuals and teams succeed more quickly than others and sustain that success over the long term? 2. Of those who pull it off, why are some miserable and others consistently happy on their journey? 3. What motivates people to reach for higher levels of success in the first place, and what practices help them improve the most After extensive original research and a decade as the world's leading high performance coach, Burchard found the answers. It turns out that just six deliberate habits give you the edge. Anyone can practice these habits and, when they do, extraordinary things happen in their lives, relationships, and careers. Which habits can help you achieve long-term success and vibrant well-being no matter your age, career, strengths, or personality? To become a high performer, you must seek clarity, generate energy, raise necessity, increase productivity, develop influence, and demonstrate courage. The art and science of how to do all this is what this book is about. Whether you want to get more done, lead others better, develop skill faster, or dramatically increase your sense of joy and confidence, the habits in this book will help you achieve it faster. Each of the six habits is illustrated by powerful vignettes, cutting-edge science, thought-provoking exercises, and real-world daily practices you can implement right now. If you've ever wanted a science-backed, heart-centered plan to living a better quality of life, it's in your hands. Best of all, you can measure your progress. A link to a free professional assessment is included in the book.

Moonwalking with Einstein by Joshua Foer | Summary & Analysis Preview: Moonwalking with Einstein recounts author Joshua Foer's yearlong journey from participant-journalist covering the national memory championships to becoming the 2006 USA World Memory Champion. Other segments offer a journalistic history of the human relationship with memory, addressing its failings, its successes, and its limitations. Most people operate according to a series of misconceptions about human

memory. Above all, many believe that they have an average brain and are therefore incapable of performing mental feats such as swiftly memorizing a deck of playing cards shuffled into random order. This belief, however, is false. Memory champions are no smarter than anyone else and have unremarkable brains from a biological standpoint. The difference is in how memory champions use their brain. They employ techniques and training to overcome shortcomings that are hard-wired into the human brain anatomy. Even those who appear to possess a photographic memory likely do not and are instead employing other memorization techniques... An ancient title of respect for women, the word "cunt" long ago veered off this noble path. Inga Muscio traces the road from honor to expletive, giving women the motivation and tools to claim "cunt" as a positive and powerful force in their lives. With humor and candor, she shares her own history as she explores the cultural forces that influence women's relationships with their bodies. Sending out a call for every woman to be the Cuntlovin' Ruler of Her Sexual Universe, Muscio stands convention on its head by embracing all things cunt-related. This updated edition features a new foreword by Betty Dodson, an introduction by Derrick Jensen, a new afterword by the author and an updated and expanded resource section.

Summary of The Motivation Manifesto Addison Wesley Publishing Company

"The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom, spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Kevin Kruse knows two things about leadership that most people do not believe: First, leadership is a superpower. Second, almost everything we've been taught about leadership is wrong. In *Great Leaders Have No Rules*, New York Times bestselling author and highly successful entrepreneur Kevin Kruse debunks popular wisdom with ten contrarian principles for better, faster, easier leadership. Grounded in solid research and three decades of entrepreneurial experience, this book has one purpose: to teach you how to be both the boss everyone wants to work for and the high achiever every CEO wants to hire—all without drama, stress, or endless hours in the office. Inspired by Kruse's viral article "Why Successful Leaders Don't Have an Open Door Policy," this contrarian approach to leadership reveals why you should throw out the rulebook and instead play favorites, crowd your calendar, tell employees everything (even salaries), stay out of meetings, hide your phone, and more. Kruse makes the case for these principles with engaging real-world stories and case studies, and shows how to use this wisdom to buck the trend and become more effective. He also shares applications beyond the office—at home, in sales, in sports, and more. Ultimately, his advice empowers you to focus on what matters, which is the key to success for you, your employees, and your company.

The Motivation Manifesto Cards Simon and Schuster

An expert on the psychology of leadership and the bestselling author of *Integrity, Necessary Endings, and Boundaries For Leaders* identifies the critical ingredient for personal and professional wellbeing. Most leadership coaching focuses on helping leaders build their skills and knowledge and close performance gaps. These are necessary, but not sufficient. Using evidence from neuroscience and his work with leaders, Dr. Henry Cloud shows that the best performers draw on another vital resource: personal and professional relationships that fuel growth and help them surpass current limits. Popular wisdom suggests that we should not allow others to have power over us, but the reality is that they do, for better or for worse. Consider the boss who diminishes you through cutting remarks versus one who challenges you to get better. Or the colleague who always seeks the limelight versus the one who gives you the confidence to finish a difficult project. Or the spouse who is honest and supportive versus the one who resents your success. No matter how talented, intelligent, or experienced, the greatest leaders share one commonality: the power of the others in their lives. Combining engaging case studies, persuasive findings from cutting-edge brain research, and examples from his consulting practice, Dr. Cloud argues that whether you're a Navy SEAL or a corporate executive, outstanding performance depends on having the right kind of connections to fuel personal growth and minimize toxic associations and their effects. Presenting a dynamic model of the impact these different kinds of connections produce, Dr. Cloud shows readers how to get more from themselves by drawing on the strength and expertise of others. You don't have a choice whether or not others have power in your life, but you can choose what kinds of relationships you want.

In this perfectly compact read, #1 New York Times bestselling author John C. Maxwell explains how true leadership works. It is not generated by your title. In fact, being named to a position is the lowest of the five levels every effective leader achieves. To be more than a boss people are required to follow, you must master the ability to inspire and invest in people. You need to build a team that

produces not only results, but also future leaders. By combining the advice contained in these pages with skill and dedication, you can reach the pinnacle of leadership—where your influence extends beyond your immediate reach for the benefit of others. Derived from material previously published in the Wall Street Journal bestseller *The 5 Levels of Leadership*.

The first-ever collection of writings by Christian D. Larson, author of the famous "Optimist Creed" and one of the twentieth-century's pioneers of motivational thought. Contemporary research has shown that optimistic people experience longer and healthier lives, better relationships, and higher incomes. Generations before such findings, however, inspirational writer Christian D. Larson showed an amazing grasp of the life-changing power of gratitude and optimism. Today, Larson is known worldwide for his powerful meditation, "The Optimist Creed," and other classics of spiritual living. But no single volume has collected his greatest writings. Here, at last, is a long-overdue anthology that makes Larson's foundational writings available to the countless readers who already know his name and work. Like no one else of his day, Larson understood the metaphysical and psychological

dimensions of grateful living – or, as he famously put it, “an attitude of gratitude.” Affirmative thought, Larson reasoned, sets in motion unseen forces, both spiritual and psychical, and aids in manifesting our desires. The Optimist Creed features complete editions of Larson’s most deeply affecting works, each redesigned and reset. It contains: The Pathway of Roses; Your Forces and How to Use Them (the work that features his original “Optimist Creed”); Mastery of Self; The Ideal Made Real; and Just Be Glad.
