'That sense of the meaninglessness of existence that runs through much of twentieth-century writing - from Conrad and Kafka, to Beckett and beyond - starts in Dostoyevsky's work' Malcolm Bradbury Alienated from society and paralysed by a sense of his own insignificance, the anonymous narrator of Dostoyevsky's Notes from Underground tells the story of his tortured life. With bitter irony, he describes his refusal to become a worker in the 'anthill' and his gradual withdrawal from society. The seemingly ordinary world of St Petersburg takes on a nightmarish quality in The Double when a government clerk encounters a man who looks exactly like him - his double perhaps, or possibly the darker side of his own personality. Like Notes from Underground, this is a masterly tragi-comic study of human consciousness. Translated by Ronald Wilks with an Introduction by Robert Louis Jackson

A seminal collection of Haida myths and legends; now in a gorgeous new package. The linguist and ethnographer John Swanton took dictation from the last great Haida-speaking storytellers, poets and historians from the fall of 1900 through the summer of 1901. Together they created a great treasury of Haida oral literature in written form. Having worked for many years with these century-old manuscripts, linguist and poet Robert Bringhurst brings both rigorous scholarship and a literary voice to the English translation of John Swanton's careful work. He sets the stories in a rich context that reaches out to dozens of native oral literatures and to myth-telling traditions around the globe. Attractively redesigned, this collection of First Nations oral literature is an important cultural record for future generations of Haida, scholars and other interested readers. It won the Edward Sapir Prize, awarded by the Society for Linguistic Anthropology, and it was chosen as the Literary Editor's Book of the Year by the Times of London. Bringhurst brings these works to life in the English language and sets them in a context just as rich as the stories themselves one that reaches out to dozens of Native American oral literatures, and to mythtelling traditions around the world.

'In recent decades, interest in hunger artists has greatly diminished.' Kafka published two collections of short stories in his lifetime, A Country Doctor: Little Tales (1919) and A Hunger Artist: Four Stories (1924). Both collections are included in their entirety in this edition, which also contains other, uncollected stories and a selection of posthumously published works that have become part of the Kafka canon. Enigmatic, satirical, often bleakly humorous, these stories approach human experience at a tangent: a singing mouse, an ape, an inquisitive dog, and a paranoid burrowing creature are among the protagonists, as well as the professional starvation artist. A patient seems to be dying from a metaphysical wound; the war-horse of Alexander the Great steps aside from history and adopts a quiet profession as a lawyer. Fictional meditations on art and artists, and a series of aphorisms that come close to expressing Kafka's philosophy of life, further explore themes that recur in his major novels. Newly translated, and with an invaluable introduction and notes, Kafka's short stories are haunting and unforgettable. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

### Metamorphosis and Other Stories Harper Collins

A brilliant new translation of Kafka's best-known work, published for the 125th anniversary of his birth This collection of new translations brings together the small proportion of Kafka's works that he thought worthy of publication. It includes Metamorphosis, his most famous work, an exploration of horrific transformation and alienation; Meditation, a collection of his earlier studies; The Judgement, written in a single night of frenzied creativity; The Stoker, the first chapter of a novel set in America and a fascinating occasional piece, The Aeroplanes at Brescia, Kafka's eyewitness account of an air display in 1909. Together, these stories reveal the breadth of Kafka's literary vision and the extraordinary imaginative depth of his thought.

Franz Kafka, the author has very nicely narrated the story of Gregou Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including 'The Judgement', and much of his novels 'Amerika', 'The Castle', 'The Hunger Artist'. Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature.

Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The *Metamorphosis* is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

This selection of Kafka's shorter prose writings includes one of the few works published during his lifetime: the harrowing story of Gregor Samsa's overnight transformation into a verminous insect, his record of the effect of this sudden metamorphosis on himself and the reaction of his family. It conveys with an unsettling mixture of subjective involvement and objective detachment the complex feelings of guilt, affection, responsibility and self-doubt that characterise Kafka's perception of intimate emotional relationships - themes that are continued in the quasi-fictional story *The Judgement* and the quasi-autobiographical *Letter to his Father*. Issues of guilt, punishment and penance are also treated with startling brutality in the story set in a tropical penal colony that describes in horrific detail a machine designed to inflict an ingenious and barbaric form of execution on victims of a summary and arbitrary justice - a machine, however, that in this instance destroys not its intended victim, but its zealous operator and, simultaneously, itself. Kafka's enigmatic fables deal, often in dark and quirkily humorous terms, with the insoluble dilemmas of a world in which there appears to be no reassurance, no reliable guidance to resolving our existential and emotional uncertainties and anxieties.

Collects Kafka's short stories and parables, each reflecting his concern for modern man's search for identity, place, and purpose.

**Endurance of Life** OUP Oxford

"The *Metamorphosis*" (original German title: "Die Verwandlung") is a short novel by Franz Kafka, first published in 1915. It is often cited as one of the seminal works of fiction of the 20th century and is widely studied in colleges and universities across the western world. The story begins with a traveling salesman, Gregor Samsa, waking to find himself transformed into an insect. This hugely influential work inspired George Orwell, Albert Camus, Jorge Louis Borges, and Ray Bradbury, while continuing to unsettle millions of readers. Franz Kafka was born in 1883 in Prague, where he lived most of his life. During his lifetime, he published only a few short stories, including "The *Metamorphosis*," "The Judgment," "Amerika", "The Trial", and "The Stoker." He died in 1924, before completing any of his full-length novels. At the end of his life, Kafka asked his lifelong friend and literary executor Max Brod to burn all his unpublished work. Brod overrode those wishes.

I have only one request," Kafka wrote to his publisher Kurt Wolff in 1913. "'The Stoker,' 'The *Metamorphosis*,' and 'The Judgment' belong together, both inwardly and outwardly. There is an obvious connection among the three, and, even more important, a secret one, for which reason I would be reluctant to forego the chance of having them published together in a book, which might be called *The Sons*."
