practice-based philosophy, readers will learn more effective talent management strategies for a complex market in which people are often the only competitive advantage. Inclusivity is emphasized, and discussion centres on innovative, dynamic, fluid approaches to talent acquisition, development, and retention. In today's market environment, talent has moved from audience to community while leadership has shifted from control to empowerment. This book provides practical guidance on more modern approaches, helping organizations to: Attract and retain the best talent by expanding talent resource

management Augment traditional management methods with more dynamic techniques Develop a talent strategy that recognizes the new diversity of supply and demand Consider the evolving roles of talent and leadership in a global context Contextual changes in workplace dynamics necessitate an updated approach for keeping the best people on board and using them to their utmost potential.
