Bibliographia Aethiopica II Springer

Nature

This book discusses the issues and stages in the development of water supplies, from the initiation of a programme through to the community management of a supply system. The importance of involving all the members of a community in decisions about water provision is emphasised, as is the need to incorporate hygiene education.

THE ESSENTIAL RESOURCE FOR SELLING YOUR BOOK If you want to publish a book, you must present it to agents and publishers with a knock-your-socks-off proposal. Whether you're seeking a traditional press to publish your self-published book or trying to win over an agent for your graphic novel, memoir, or nonfiction title, you need an irresistible proposal. The better your proposal, the better the editor, publisher, and deal you will get. Nailing your proposal requires an understanding of how publishers work and how to brand yourself, build a platform, and structure your book. You'll learn it all in this breezy top-to-bottom revision of the classic 100,000-copy best-seller. Inside *How to Write a Book Proposal* 5th Edition, you will find:

- Examples of successful proposals that earned six-figure deals
- Guidance from agents, publishers, and writers
- Ways to customize your proposal
- Strategies for proposals in the Digital Age
- Effective

structures for narrative writers • A list of the "Top Ten Proposal Killers" This sassy, thorough guide from industry professionals Jody Rein and Michael Larsen will become your go-to for advice about publishing.

'A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of *Writing Your Dissertation in Fifteen Minutes a Day* 'Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success* is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

The Yemissrach Dimts Literacy Campaign in Ethiopia, begun in 1962 and concentrated in rural areas for the benefit of adults, was evaluated in a study of 466 program participants and 66 additional adult villagers. The study focused on student achievement, teaching methods, benefits experienced by participants, and the literacy campaign's role within a larger socioeconomic and political context. Results indicate that students became literate in one to two years of participation. However, individual students said they had not experienced benefits from their literacy skills. Reading in Amharic was taught by synthetic and analytic methods, with the influence of traditional teaching methods obvious. While motivation for sending children to school was strong, adults said it was seldom possible for them to attend themselves. In the case of women and girls, tradition was probably a major obstacle to attendance. (MSE) (Adjunct ERIC Clearinghouse on Literacy Education)

This 'Handbook on Planning, Monitoring and Evaluating for Development Results' is an updated edition of the 2002 edition of 'Handbook on Monitoring and Evaluation for Results'. It seeks to address new directions in planning, monitoring and evaluation in the context of the United Nations Development Programme (UNDP) corporate strategic plan, the requirements of the UNDP

evaluation policy approved by the Executive Board in 2006 and the United Nations Evaluation Group (UNEG) 'Standards for Evaluation in the UN System'. The updated Handbook also incorporates information recommended by key users of the Handbook during various workshops held by UNDP units. *A History of Ethiopia* Otto Harrassowitz Verlag

Troilus and Cressida is a tragedy by William Shakespeare, believed to have been written in 1602. It was described by Frederick S. Boas as one of Shakespeare's problem plays. The play ends on a very bleak note with the death of the noble Trojan Hector and destruction of the love between Troilus and Cressida. The work has in recent years "stimulated exceptionally lively critical debate".

Erstmals wird hier die Fülle der englischsprachigen Äthiopienliteratur geordnet dargeboten. In 100 Sections führt der Autor alle für die wissenschaftliche Beschäftigung mit Äthiopien wichtigen Buch- und Zeitschriftenbeiträge zum Beispiel zur "History of Research", "Archaeology", "Religion", aber auch Fragen der "Sociology", "Agriculture", "Zoology" und "Medical Sciences" auf. Wie im Falle der deutschsprachigen Literatur ("Bibliographia Aethiopica: Die äthiopienkundliche Literatur des deutschsprachigen Raumes" = Äthiopistische Forschungen 9 [1982]) berücksichtigt der Autor auch alle ihm zugänglichen Besprechungen, womit bei einer Aufnahme von mehr als 24.000 Titeln eine Art "Bibliographic Encyclopedia" entstanden ist.

Subtitled ""The Work of Michael Jackson,"" this book spans the career of one of software engineering's most important figures. Half the chapters are an anthology of Jackson's past writings, exemplifying the clarity, wisdom, and wit for which he is so well known. The other half of the book is new: Jackson and his colleagues give their latest views on requirements, specifications, design, problem frames, and programming methods. Although many people have observed that software development should be more of an engineering discipline, few have drawn from the wider engineering literature more deeply or usefully than Jackson. Because of his work, many software engineers have a better perspective on their software and the real world it is intended to serve.

The World Malaria Report 2015 assesses global malaria disease trends and changes in the coverage and financing of malaria control programs between 2000 and 2015. It also summarizes progress towards international targets, and provides regional and country profiles that summarize trends in each WHO region and each country with malaria. The report is produced with the help of WHO regional and country offices, ministries of health in endemic countries, and a broad range of other partners. The data presented are assembled from the 96 countries and territories with ongoing malaria transmission, and a further five countries that have recently eliminated malaria. Most data are those reported for 2014 and 2015, although in some cases projections have been made into 2015, to assess progress towards targets for 2015.

Hard-headed evidence on why the returns from investing in girls are so high that no nation or family can afford not to educate their girls. Gene Sperling, author of the seminal 2004 report published by the Council on Foreign Relations, and Rebecca Winthrop, director of the Center for Universal Education, have written this definitive book on the importance of girls' education. As Malala Yousafzai expresses in her foreword, the idea that any child could be denied an education due to poverty, custom, the law, or terrorist threats is just wrong and unimaginable. More than 1,000 studies have provided evidence that high-quality girls' education around the world leads to wide-ranging returns: Better outcomes in economic areas of growth and incomes Reduced rates of infant and maternal mortality Reduced rates of child marriage Reduced rates of the incidence of HIV/AIDS and malaria Increased agricultural productivity Increased resilience to natural disasters Women's empowerment What Works in Girls' Education is a compelling work for both concerned global citizens, and any academic, expert, nongovernmental organization (NGO) staff member, policymaker, or journalist seeking to dive into the evidence and policies on girls' education.

Automotive Technician Training is the definitive student textbook for

automotive engineering. It covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is ideal for courses and exams run by other awarding bodies. This revised edition overhauls the coverage of general skills and advanced diagnostic techniques. It also includes a new chapter about electric and hybrid vehicles and advanced driver-assistance systems, along with new online learning activities. Unlike current textbooks on the market, this takes a blended-learning approach, using interactive features that make learning more enjoyable and effective. It is ideal to use on its own but when linked with IMI eLearning online resources, it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence to meet teacher and learner needs, as well as qualification requirements.
