Deutsch-Englisch Teach Yourself

It's true that some people spend years studying French before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses

that try to teach you the rules of French, #LanguageHacking shows you how to learn and speak French through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks - shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in French from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have

conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

*Deutsch ganz leicht* Barrons Educational Series

In this witty, adventurous sequel to *Mothership*, Elvie Nara is back on earth—but her life (including her new baby) is still pretty out there! “Irreverent humor makes this work of science fiction a comic treat” (VOYA). Pregnancy was pretty rough for Elvie Nara, what with the morning sickness, constant food cravings, and the alien race war she found herself in the middle of. But if she thought giving birth to an extraterrestrial’s baby would be the hard part, she was sorely mistaken. After Elvie’s baby is not what was expected, the Almiri completely freak out. Suddenly Elvie’s supposed allies have shipped her—along with her father, her best friend, Ducky, and her maybe-boyfriend, boneheaded Almiri commando Cole Archer—off to a remote “retention facility” (aka alien jail) in Antarctica. Talk about cold. But things really get complicated when a new group of hybrid aliens arrive with information that sends Elvie’s world spinning. Before long, Elvie is trekking across the bottom of the Earth

with a band of friends and frenemies to uncover the secrets of her own origin. Will Elvie ever be able to convince the Almiri that a conspiracy to conquer the planet is a greater threat than a sixteen-year-old girl and a newborn who won’t stop crying? *The Anxiety Cure* Teach Yourself Do you know what the hardest thing for a German learner is?
