 In late 2001 the engine was fitted with Delphi

common rail fuel injection and called the Duratorq TDCi (Turbo Diesel Commonrail injection), with the original unit being renamed the Duratorq TDDi (Turbo Diesel Direct injection). Although generally identical to the original engine, the addition of the common rail system meant power was increased to 130 PS (128 hp/95 kW), with torque rising to 330 Nm (244 lb·ft).
