The Vienna Genesis (Austrian National Library, Codex Theologicus graecus 31) is a fragmentary Greek manuscript of the Book of Genesis written on purple dyed parchment with silver ink. It is assumed that the book was created in the first half of the 6th century in the Near East. 24 folios with 48 miniatures have survived and have been stored at the Austrian National Library since 1664. The Vienna Genesis is famous for its rich cycle of biblical illuminations. The silver ink's degradation, which has resulted in extensive damage to the parchment, was already observed in the 17th century. In a three-year research project the parchment, the silver inks, the pigments and dyes were investigated. The detailed material analysis formed the base for conservation and preservation of the manuscript. The book describes the different studies of the project and their results: How was parchment made in Late Antiquity? How was parchment dyed purple? What is the purple dye of the Vienna Genesis? What is the composition of the silver ink and what are the causes of the severe damage? Which pigments were used by the different painters? How can the Vienna Genesis be best conserved for the future?

Explore a story told across the millennia that delves deep into a pair of fascinating necron characters, their relationship and their plans for the galaxy. Before the being called the Emperor

revealed Himself, before the rise of the aeldari, before the necrontyr traded their flesh for immortal metal, the world was born in violence. Even when they inhabited bodies of flesh, Trazyn the Infinite and Orikan the Diviner were polar opposites. Trazyn, a collector of historical oddities, presides over a gallery full of the most dangerous artefacts – and people – of the galactic past. Orikan, a chronomancer without peer, draws zodiacs that predict and manipulate the future. But when an artefact emerges that may hold the key to the necrons' next evolution, these two obsessives enter a multi-millennia game of cat and mouse that ends civilisations, reshapes timelines, and changes both forever. As riddles unwind and ancient secrets are revealed, the question remains: will their feud save the necron race or destroy it?

A tutorial on the ancient practice of limpias to heal the mind, body, and soul • Offers step-by-step instructions for the practice of limpias, shamanic cleansing rituals to heal, purify, and revitalize people as well as physical spaces • Examines different types of limpia ceremonies, such as fire rites for transformation, water rites for cleansing and influencing, and sweeping rites for divination • Explores the sacred stories behind limpia rituals and traces these curanderismo practices to their indigenous roots Exploring the essential tools and practices of Mesoamerican shamans and curanderos, specifically the ancient Yukatek Maya and Mexica (Aztec), Erika Buenaflores, M.A., J.D., provides a step-by-step guide for conducting the most common practice within curanderismo: limpias. These practical and incredibly effective shamanic cleanses heal, purify, and revitalize people and spaces with herbs, flowers, eggs, feathers, fire, and water. They are also powerful tools for self-empowerment, spiritual growth, soul retrieval, rebirth, and gracefully opening up pathways for new beginnings. Drawing on her 20 years' experience as a curandera and her graduate studies focused on Mesoamerican shamanism, the author traces modern curanderismo practices to their indigenous roots. She explores the sacred stories behind limpia rituals and examines different types of limpia ceremonies in depth, such as fire rites for transformation, water rites for cleansing and influencing, and sweeping rites for divination. She outlines how limpias work holistically to enable one to let go and cleanse the body, mind, and spirit of limiting beliefs, traumas, and broken stories; heal acute and chronic illnesses such as depression, insomnia, and anxiety; and revitalize and activate sacred spaces by renewing their essence and clearing negative energies. She explains the healing properties of the plants used in limpia rites and how to perform the medicinal chants used by the curanderos. In addition, the author details how the practice of platicas, heart-straightening talks, supports limpia rites by encouraging one to vocalize their needs as they eject traumas and unwanted energies from the body, setting the stage for self-awareness and healing. Sharing the story of her own complete healing from a catastrophic injury with limpias as well as inspirational testimonies from others who have experienced limpias, the author provides a personal and thoroughly practical guide to the ancient shamanic method of limpias to promote healing and personal transformation in our times.

Are we alone? asks the writeup on the back cover of the dust jacket. The contributors to this collection raise questions that may have been overlooked by physical scientists about the ease of establishing meaningful communication with an extraterrestrial intelligence. By drawing on issues at the core of contemporary archaeology and anthropology, we can be much better prepared for contact with an extraterrestrial civilization, should that day ever come.
