 The field of disability history continues to evolve rapidly. In this collection, Susan Burch and Michael Rembis present nineteen essays that integrate critical analysis of gender, race, historical context, and

other factors to enrich and challenge the traditional modes of interpretation still dominating the field. As the first collection of its kind in over a decade, *Disability Histories* not only brings readers up to date on scholarship within the field but fosters the process of moving it beyond the U.S. and Western Europe by offering work on Africa, South America, and

Asia. The result is a broad range of readings that open new vistas for investigation and study while encouraging scholars at all levels to redraw the boundaries that delineate who and what is considered of historical value. *Informed and Accessible, Disability Histories* is essential for classrooms engaged in all facets of disability studies within and across disciplines. The

unforgettable

memoir of a

woman at the

front lines of the civil rights movement—a harrowing account of black life in the rural South and a powerful affirmation of one person’s ability to affect change. “Anne Moody’s autobiography is an eloquent, moving testimonial to her courage.”—Chicago Tribune Born to a poor couple who were tenant farmers on a plantation in Mississippi, Anne Moody lived through some of the most

dangerous days of the pre-civil rights era in the South. The week before she began high school came the news of Emmet Till's lynching. Before then, she had "known the fear of hunger, hell, and the Devil. But now there was . . . the fear of being killed just because I was black." In that moment was born the passion for freedom and justice that would change her life. A straight-A

student who realized her dream of going to college when she won a basketball scholarship, she finally dared to join the NAACP in her junior year. Through the NAACP and later through CORE and SNCC, she experienced firsthand the demonstrations and sit-ins that were the mainstay of the civil rights movement—and the arrests and jailings, the shotguns, fire hoses, police dogs, billy clubs, and deadly

force that were used to destroy it. A deeply personal story but also a portrait of a turning point in our nation's destiny, this autobiography lets us see history in the making, through the eyes of one of the footsoldiers in the civil rights movement. Praise for *Coming of Age in Mississippi* "A history of our time, seen from the bottom up, through the eyes of someone who decided for herself that

things had to be changed . . . a timely reminder that we cannot now relax.”—Senat or Edward Kennedy, The New York Times Book Review

 Undocumented migration is a global and yet elusive phenomenon. Despite contemporary efforts to patrol national borders and mass deportation programs, it remains firmly placed at the top of the political agenda in many countries where it receives hostile media

coverage and generates fierce debate. However, as this much-needed book makes clear, unauthorized movement should not be confused or crudely assimilated with the social reality of growing numbers of large, settled populations lacking full citizenship and experiencing precarious lives. From the journeys migrants take to the lives they seek on arrival and beyond, Undocumente

d Migration provides a comparative view of how this phenomenon plays out, looking in particular at the United States and Europe. Drawing on their extensive expertise, the authors breathe life into the various issues and debates surrounding migration, including the experiences and voices of migrants themselves, to offer a critical analysis of a hidden and too often

misrepresente d population. *King Henry VI, part 1. King Henry VI, part 2. King Henry VI, part 3. King Richard III. King Henry VIII* Cambridge University Press

Post A "taut, chiseled and propulsive" (Vogue) new novel from the bestselling mystery writer who "is in a class by herself." (The New York Times) Cal Hooper thought a fixer-upper in a bucolic Irish village would be the perfect escape. After twenty-five years in the Chicago police force and a bruising divorce, he just wants to build a new life in a pretty spot with a good pub where nothing much

happens. But when a local kid whose brother has gone missing arm-twists him into investigating, Cal uncovers layers of darkness beneath his picturesque retreat, and starts to realize that even small towns shelter dangerous secrets. "One of the greatest crime novelists writing today" (Vox) weaves a masterful, atmospheric tale of suspense, asking what we sacrifice in our search for

truth and justice, and what we risk if we don't.

Devotion to Saint Anne, the apocryphal mother of the Virgin Mary, reached its height in the fifteenth and early sixteenth centuries. Until now, Anne's reception history and political symbolism during this period have been primarily discussed through the lens of art history. This is the first study

to explore the music that honoured the saint and its connections to some of the most prominent court cultures of western Europe. Michael Alan Anderson examines plainchant and polyphonic music for Saint Anne, in sources both familiar and previously unstudied, to illuminate not only Anne's wide-ranging intercessional capabilities but also the political force of the music devoted to

her. Whether viewed as a fertility aide, wise mother, or dynastic protector, she modelled a number of valuable roles that rulers reflected in the music of their devotional programmes to project their noble lineage and prestige. *A Memoir* PublicAffairs The AAP's authoritative guide on preventing, recognizing, and treating more than 200 childhood infectious diseases. Developed by

the AAP's Committee on Infectious Diseases as well as the expertise of the CDC, the FDA, and hundreds of physician contributors. *The King who Never was* Penguin In this important new book the renowned historian Serge Gruzinski returns to two episodes in the sixteenth century which mark a decisive stage in global history and show how China and Mexico

experienced the expansion of Europe. In the early 1520s, Magellan set sail for Asia by the Western route, Cortes seized Mexico and some Portuguese based in Malacca dreamed of colonizing China. The Aztec Eagle was destroyed but the Chinese Dragon held strong and repelled the invaders - after first seizing their cannon. For the first time, people from three continents

encountered one other, confronted one other and their lives became entangled. These events were of great interest to contemporaries and many people at the time grasped the magnitude of what was going on around them. The Iberians succeeded in America and failed in China. The New World became inseparable from the Europeans who were to conquer it, while the Celestial

Empire became, for a long time to come, an unattainable goal. Gruzinski explores this encounter between civilizations that were different from one another but that already fascinated contemporaries, and he shows that our world today bears the mark of this distant age. For it was in the sixteenth century that human history began to be played out on a global stage. It was then that

connections between different parts of the world began to accelerate, not only between Europe and the Americas but also between Europe and China. This is what is revealed by a global history of the sixteenth century, conceived as another way of reading the Renaissance, less Eurocentric and more in tune with our age.
