Hauntingly beautiful photographs of dogs in cars As a child, photographer Martin Osborne was once left in a car. This was not for long, but he wondered if anyone would come back. Around the same age he fell in love with dogs - they could not speak, just as he felt he was silent in that car. Thirty years later the two experiences came together in this cinematic and darkly humorous project that looks at the way humans are able to silence the animals they love best. No dogs were harmed in the making of this project.

Swallow Me Whole Feiwel & Friends

Before becoming the prophet of Islam, Mohammed was a simple man of flesh and blood who started life as a poor orphan in the Arabian city of Mecca. Through his union with Khadija, he became a prosperous merchant and caravaner. He was visited by God at the age of forty to become a prophet and visionary statesman.

'The Silence of Mohammed' is the story of "this exceptional man" (Bachi). Based on historical fact and legends, the novel presents a fictionalised account of the life of Mohammed told by four key characters: his first wife, Khadija his closest friend, Caliph Abu Bakr the fiery warrior, General Khalid and, his last love Aisha, who became his wife at the age of nine.

ONE FOR THE GIRLS There are some life stories you just cannot beat. Each time the names of such champions drop, one might as well perform a rite of acknowledgment...any. Their lives have graced hundreds of lives, and hundreds of lives continue to be redeemed through them. They have seen it all. Done it all. They love and they are loved. These individuals have given, and still have more in store. According to the Canon of the Classics, these persons, even the gods envy. Rosina Aboagye Acheampong is one such mortal. From the precocity of her childhood, her dance with life has been one amazing ball of faith ... and chance, nay, destiny. These captivating pages reel out the adventures of a pathfinder, a mould breaker and a pacesetter. Yes, her name might be synonymous with Wesley Girls, but be it at the national or community level, to list what she has achieved is to embark on the impossible. Beautifully, however, Archie the Matriarch does not seem to see the power of her influence. She only wants to give thanks and praise. Not only does this book make interesting reading, it also gives deep insights into the author and her experiences as one of Ghana's influential and foremost educationist. It is, undoubtedly, a must-read book! - John Agyekum Kufuor, former President of Ghana I am yet to hear of any group of students who passed through her hands...who do not remember her with utmost respect and affection. - Professor Ama Ata Aidoo As the Headmistress, she re-defined the role. Indeed, the personality she brought to the position is irreplaceable and iconic. - Ambassador Evelyn Anita Stokes

The Politics of Friendship Blink

An NPR Best Book of the Year A 2020 International Latino Book Award Finalist An Entertainment Weekly, The Millions, and LitHub Most Anticipated Book of the Year This unforgettable memoir from a prize-winning poet about growing up undocumented in the United States recounts the sorrows and joys of a family torn apart by draconian policies and chronicles one young man's attempt to build a future in a nation that denies his existence. "You were not a ghost even though an entire country was scared of you. No one in this story was a ghost. This was not a story." When Marcelo Hernandez Castillo was five years old and his family was preparing to cross the border between Mexico and the United States, he suffered temporary, stress-induced blindness. Castillo regained his vision, but quickly understood that he had to move into a threshold of invisibility before settling in California with his parents and siblings. Thus began a new life of hiding in plain sight and of paying extraordinarily careful attention at all times for fear of being truly seen. Before Castillo was one of the most celebrated poets of a generation, he was a boy who perfected his English in the hopes that he might never seem extraordinary. With beauty, grace, and honesty, Castillo recounts his and his family's encounters with a system that treats them as criminals for seeking safe, ordinary lives. He writes of the Sunday afternoon when he opened the door to an ICE officer who had one hand on his holster, of the hours he spent making a fake social security card so that he could work to support his family, of his father's deportation and the decade that he spent waiting to return to his wife and children only to be denied reentry, and of his mother's heartbreaking decision to leave her children and grandchildren so that she could be reunited with her estranged husband and retire from a life of hard labor. Children of the Land distills the trauma of displacement, illuminates the human lives behind the headlines and serves as a stunning meditation on what it means to be a man and a citizen.

Silence is Goldfish Beacon Press

From the National Book Award-winning author of *Underworld*, a "daring...provocative...exquisite" (The Washington Post) novel about five people gathered together in a Manhattan apartment, in the midst of a catastrophic event. It is Super Bowl Sunday in the year 2022. Five people, dinner, an apartment on the east side of Manhattan. The retired physics professor and her husband and her former student waiting for the couple who will join them from what becomes a dramatic flight from Paris. The conversation ranges from a survey telescope in North-central Chile to a favorite brand of bourbon to Einstein's 1912 Manuscript on the Special Theory of Relativity. Then something happens and the digital connections that have transformed our lives are severed. What follows is a "brilliant and astonishing...masterpiece" (Chicago Tribune) about what makes us human. Don DeLillo completed this novel just weeks before the advent of the Covid pandemic. His language, the dazzle of his sentences offer a kind of solace in our bewildering world. "DeLillo's shrewd, darkly comic observations about the extravagance and alienation of contemporary life can still slice like a scalpel" (Entertainment Weekly). "In this wry and cutting meditation on collective loss, a rupture severs us, suddenly, from everything we've come to rely on. The Silence seems to absorb DeLillo's entire body of work and sand it into stone or crystal." —Rachel Kushner

Winner, Charles Hatfield Book Prize, Comic Studies Society, 2020 A CHOICE Outstanding Academic Title, 2019 The history of America's civil rights movement is marked by narratives that we hear retold again and again. This has relegated many key figures and turning points to the margins, but graphic novels and graphic memoirs present an opportunity to push against the consensus and create a more complete history. Graphic Memories of the

Civil Rights Movement showcases five vivid examples of this: Ho Che Anderson's *King* (2005), which complicates the standard biography of Martin Luther King Jr.; Congressman John Lewis's three-volume memoir, *March* (2013–2016); *Darkroom* (2012), by Lila Quintero Weaver, in which the author recalls her Argentinian father's participation in the movement and her childhood as an immigrant in the South; the bestseller *The Silence of Our Friends*, by Mark Long, Jim Demonakos, and Nate Powell (2012), set in Houston's Third Ward in 1967; and Howard Cruse's *Stuck Rubber Baby* (1995), whose protagonist is a closeted gay man involved in the movement. In choosing these five works, Jorge Santos also explores how this medium allows readers to participate in collective memory making, and what the books reveal about the process by which history is (re)told, (re)produced, and (re)narrativized. Concluding the work is Santos's interview with Ho Che Anderson.

Wood thrush, Kentucky warbler, the Eastern kingbird-migratory songbirds are disappearing at a frightening rate. By some estimates, we may already have lost almost half of the songbirds that filled the skies only forty years ago. Renowned biologist Bridget Stutchbury convincingly argues that songbirds truly are the "canaries in the coal mine"—except the coal mine looks a lot like Earth and we are the hapless excavators. Following the birds on their six-thousand-mile migratory journey, Stutchbury leads us on an ecological field trip to explore firsthand the major threats to songbirds: pesticides, still a major concern decades after Rachel Carson first raised the alarm; the destruction of vital habitat, from

the boreal forests of Canada to the diminishing continuous forests of the United States to the grasslands of Argentina; coffee plantations, which push birds out of their forest refuges so we can have our morning fix; the bright lights and structures in our cities, which prove a minefield for migrating birds; and global warming. We could well wake up in the near future and hear no songbirds singing. But we won't just be missing their cheery calls, we'll be missing a vital part of our ecosystem. Without songbirds, our forests would face uncontrolled insect infestations, and our trees, flowers, and gardens would lose a crucial element in their reproductive cycle. As Stutchbury shows, saving songbirds means protecting our ecosystem and ultimately ourselves.

is the story of the Iliad as we've never heard it before: in the

words of Briseis, Trojan queen and captive of Achilles. Given only

a few words in Homer's epic and largely erased by history, she is

nonetheless a pivotal figure in the Trojan War. In these pages she

comes fully to life: wry, watchful, forging connections among her

fellow female prisoners even as she is caught between Greece's

two most powerful warriors. Her story pulls back the veil on the

thousands of women who lived behind the scenes of the Greek

army camp—concubines, nurses, prostitutes, the women who lay

out the dead—as gods and mortals spar, and as a legendary war

hurtles toward its inevitable conclusion. Brilliantly written, filled

with moments of terror and beauty, *The Silence of the Girls* gives

voice to an extraordinary woman—and makes an ancient story

new again.
