"In Artful Sentences:

Syntax as Style,

Virginia Tufte shows

how standard sentence patterns and forms contribute to meaning and art in more than a thousand wonderful sentences from the twentieth and twenty-first centuries. The book has special interest for aspiring writers, students of literature and language, and anyone who finds joy in reading and writing."-- Publisher's description.

Dale Seymour Publications Problem Solving Experiences
Sophia Institute for Teachers

It is a big, vast, beautiful (and sometimes overwhelming) world out there and each year, Mr. McDonough has a chance to spend 10 months teaching 8th graders about the cultures of the world. He realizes, of course,

that they won't remember EVERYTHING. Nevertheless, this book serves as a collection of all the "important things"--the wisdom and the knowledge--he hopes his students will carry with them after they leave his classroom. It is also an interactive book with opportunities to color, illustrate, answer questions about one's own relationship with the world. While they'll throw out many of their notes from the course, this book was written with the hope that they won't throw out a witty, simple, yet informative book that has been dedicated to them. As cosmopolitan global citizens of tomorrow, the wisdom from phrases and words that don't exist in English, as well as

the World Cultures Alphabet contained in this book will inspire any reader to push deeper into their own understanding of--and relationship with--the world and those with whom we share it.

[note: this book was edited by former students of Mr. McDonough]

The Answer is 'C'

Austin and Lydia are set to enjoy their 8th grade year and finally get out of Cedar Lakes Middle School. There's just one problem- one big problem. Cedar Lakes has a new principal, Dr. Fulcher, who only cares about one thing- the achievement test. Because the achievement test is so important, the extra stuff has to go. This means no more clubs, no more recess, no more field day, and no more fun. Not that school was fun to begin with, but this is so much worse. Something will have to change, but to do that Austin and Lydia will

have to rally a diverse group of students to take a stand. Written in their own journal, Austin and Lydia detail their story.

2000 Conran Octopus
The Language Arts series emphasizes the improvement of communication skills. All Language Arts skills are integrated into a single learning sequence. This unique learning approach combines the study of these skills: reading comprehension, grammar, handwriting, composition, spelling, literature, speaking, and listening. The integrated approach combines drill and analysis of grammar with immediate application in composition exercises.
