A Time magazine and New York Times Best Book of the Year Charles Mason (1728-1786) and Jeremiah Dixon (1733-1779) were the British surveyors best remembered for running the boundary between Pennsylvania and Maryland that we know today as the Mason-Dixon Line. Here is their story as reimagined by Thomas Pynchon, featuring Native Americans and frontier folk, ripped bodices, naval warfare, conspiracies erotic and political, major caffeine abuse. Unreflectively entangled in crimes of demarcation, Mason and Dixon take us along on a grand tour of the Enlightenment's dark hemisphere, from their first journey together to the Cape of Good Hope, to pre-Revolutionary America and back to England, into the shadowy yet redemptive turns of their later lives, through incongruities in conscience, parallaxes of personality, tales of questionable altitude told and intimated by voices clamoring not to be lost. Along the way they encounter a plentiful cast of characters, including Benjamin Franklin, George Washington, and Samuel Johnson, as well as a Chinese feng shui master, a Swedish irredentist, a talking dog, and a robot duck. The quarrelsome, daring, mismatched pair—Mason as melancholy and Gothic as Dixon is cheerful and pre-Romantic—pursues a linear narrative of irregular lives, observing, and managing to participate in the many occasions of madness presented them by the Age of Reason.

Seminar paper from the year 2006 in the subject American Studies - Literature, grade: 1,3, University of Potsdam, course: HS: From Poe to Akunin: Highlights of the international Mystery Story in literature and film, language: English, abstract: This paper is building up on postmodern patterns of fragmentation, loneliness and disorientation. The Quest is a central storytelling technique - in times where traditional ways of living and social constellations fade and the grand narratives have lost their guiding functions, people have to "mind-map" their own routes through a fragmentary world. The paper establishes the quest form in the 1966 book by Pynchon and draws lines of tradition to Jarmusch's

Beginning its life as the sensational entertainment of the eighteenth century, the novel has become the major literary genre of modern times. Drawing on hundreds of examples of famous novels from all over the world, Marina MacKay explores the essential aspects of the novel and its history: where novels came from and why we read them; how we think about their styles and techniques, their people, plots, places, and politics. Between the main chapters are longer readings of individual works, from Don Quixote to *Midnight's Children*. A glossary of key terms and a guide to further reading are included, making this an ideal accompaniment to introductory courses on the novel.

Winner of the 1974 National Book Award "A screaming comes across the sky. . ." A few months after the Germans' secret V-2 rocket bombs begin falling on London, British Intelligence discovers that a map of the city pinpointing the sexual conquests of one Lieutenant Tyrone Slothrop, U.S. Army, corresponds identically to a map showing the V-2 impact sites. The implications of this discovery will launch Slothrop on an amazing journey across war-torn Europe, fleeing an international cabal of military-industrial superpowers, in search of the mysterious Rocket 00000, through a wildly comic extravaganza that has been hailed in *The New Republic* as "the most profound and accomplished American novel since the end of World War II."

Thomas Pynchon is now recognized as a major contemporary novelist and perhaps the most important American writer since Melville. His work is both richly imaginative and amazingly erudite and can be compared, in its complexity, linguistic playfulness and experimentation and wealth of allusion, to the work of James Joyce. Aspects of history, psychology, technology and science, cultural and political movements, problems of identity and society

and the status and function of fiction and narrative in the modern world are all dramatized with extraordinary wit and power. Tony Tanner provides a brief, comprehensive introduction to his work. Against the background of Pynchon the man, this book, originally published in 1982, examines in detail his early short stories (some of which are not easily accessible) and offers a guide to the reading of his novels, *V.*, *The Crying of Lot 49* and *Gravity's Rainbow*. Many of Pynchon's recurrent themes, from entropy and information theory to his interest in the operations and divisions of power in the world since the Second World War, are considered. Finally, Tony Tanner places Pynchon and his work in a broader cultural and literary context.

The Crying of Lot 49 is widely recognized as a significant contemporary work that frames the desire for meaning and the quest for knowledge within the social and political contexts of the '50s and '60s in America. In the introduction to this collection of original essays on Thomas Pynchon's important novel, Patrick O'Donnell discusses the background and critical reception of the novel. Further essays by five experts on contemporary literature examine the novel's "semiotic regime" or the way in which it organizes signs; the comparison of postmodernist Pynchon and the influential South American writer, Jorge Luis Borges; metaphor in the novel; the novel's narrative strategies; and the novel within the cultural contexts of American Puritanism and the Beat movement. Together, these essays provide an examination of the novel within its literary, historical, and scientific contexts.

"Generous and big-hearted, Gauthier has stories to tell and worthwhile advice to share." —Wally Lamb, author of *I Know This Much Is True* "Gauthier has an uncanny ability to combine songwriting craft with a seeker's vulnerability and a sage's wisdom." —Amy Ray, *Indigo Girls* From the Grammy nominated folk singer and songwriter, an inspiring exploration of creativity and the redemptive power of song Mary Gauthier was twelve years old when she was given her Aunt Jenny's old guitar and taught herself to play with a Mel Bay basic guitar workbook. Music offered her a window to a world where others felt the way she did. Songs became lifelines to her, and she longed to write her own, one day. Then, for a decade, while struggling with addiction, Gauthier put her dream away and her call to songwriting faded. It wasn't until she got sober and went to an open mic with a friend did she realize that she not only still wanted to write songs, she needed to. Today, Gauthier is a decorated musical artist, with numerous awards and recognition for her songwriting, including a Grammy nomination. In *Saved by a Song*, Mary Gauthier pulls the curtain back on the artistry of songwriting. Part memoir, part philosophy of art, part nuts and bolts of songwriting, her book celebrates the redemptive power of song to inspire and bring seemingly different kinds of people together.

America's Most Critical Book St. Martin's Essentials

Virtually all theories of satire define it as a criticism of contemporary society. Some argue that satire criticizes the

present in favor of a standard of values that has been superseded, and thus that satire is generally backward-looking and conservative. While this is often true of poetic satire, in this study Frank Palmeri asserts that narrative satire performs a different function, that it parodies both the established view of the world and that of its opponents, offering its own distinctive critical perspective. This theory of satire builds on the idea of dialogical parody in the work of Russian theorist Mikhail Bakhtin, while revising Bakhtin's estimate of carnival. In Palmeri's view, the carnivalesque offers only an inverted mirror image of authoritative discourse, while parodic narrative satire suggests an alternative to both the official world and its inverted opposite. Palmeri applies this theory of narrative satire to five works of world literature, each of which has generated sharp controversy about the genre to which it rightly belongs: Petronius' *Satyricon*, Jonathan Swift's *A Tale of a Tub*, Edward Gibbon's *Decline and Fall of the Roman Empire*, Herman Melville's *The Confidence-Man*, and Thomas Pynchon's *The Crying of Lot 49*. He analyzes the features that link these works and shows how the changing pairs of alternatives that are parodied in these satires reflect changes in the terms of social and cultural oppositions. Satire in Narrative will appeal to comparatists, specialists in eighteenth-century and American literature, and others interested in theories of genre and the relations between literary forms and social history.

"From the prize-winning author of *The Beekeeper of Aleppo*, a stunning novel about the disappearance of a Sri Lankan nanny and how the most vulnerable people find their voices. "It began with a crunch of leaves and earth. So early, so cold, the branches shone with ice. I'd returned to collect the songbirds. They are worth more than their weight in gold." Yiannis is a poacher, trapping the tiny protected songbirds that stop in Cyprus as they migrate each year from Africa to Europe and selling them on the black market. He dreams of finding a new way of life, and of marrying Nisha, who works on the island as a nanny and maid--having left her native Sri Lanka to try to earn enough to support her daughter, left behind and raised by relatives. But Nisha has vanished; one evening, she steps out on a mysterious errand and doesn't return. The police write off her disappearance as just another runaway domestic worker, so her employer, Petra, undertakes the investigation. Petra's unravelling of Nisha's last

days in Cyprus lead her to Nisha's friends--other maids in the neighborhood--and to the darker side of a migrant's life, where impossible choices leave them vulnerable, captive, and worse. Based on the real-life disappearance of domestic workers in Cyprus, Christy Lefteri has crafted a poignant, deeply empathetic narrative of the human stories behind the headlines. With infinite tenderness and skill, *Songbirds* offers a triumphant story of the fight for truth and justice, and of women reclaiming their lost voices"--

Thomas Pynchon in Context Cambridge University Press
 Part noir, part psychedelic romp, all Thomas Pynchon—Private eye Doc Sportello surfaces, occasionally, out of a marijuana haze to watch the end of an era In this lively yarn, Thomas Pynchon, working in an unaccustomed genre that is at once exciting and accessible, provides a classic illustration of the principle that if you can remember the sixties, you weren't there. It's been a while since Doc Sportello has seen his ex- girlfriend. Suddenly she

shows up with a story about a plot to kidnap a billionaire land developer whom she just happens to be in love with. It's the tail end of the psychedelic sixties in L.A., and Doc knows that "love" is another of those words going around at the moment, like "trip" or "groovy," except that this one usually leads to trouble. Undeniably one of the most influential writers at work today, Pynchon has penned another unforgettable book.
