*South Pole Station* Twenty-First Century Books™

In the summer of 1910, a race began. A race to be the first man at the South Pole, in Antarctica. Robert Falcon Scott, an Englishman, left London in his ship, the Terra Nova, and began the long journey south. Five days later, another ship also began to travel south. And on this ship was Roald Amundsen, a Norwegian. But Antarctica is the coldest place on earth, and it is a long, hard journey over the ice to the South Pole. Some of the travellers never returned to their homes again. This is the story of Scott and Amundsen, and of one of the most famous and dangerous races in history.

An Account of the Norwegian Antarctic Expedition in the "Fram," 1910-1912 Wellington, N.Z., Reed

A fact-packed book that explores some of the coldest places on Earth, and the latest title in the award-winning DKfindout! series. Journey to the icy lands at the ends of the Earth and learn all about life at the poles. Explore Earth's polar regions--from amazing wildlife to the heroic explorers who ventured there. Discover snowy mountains, frozen seas, and icebergs bigger than skyscrapers! Children will meet the remarkable animals that survive and thrive in the harsh conditions of these icy worlds. There's the giant polar bear using its large padded paws to trek many miles across the ice and snow, and the Arctic tern whose incredible flight from one side of the world to the other, is the

longest animal migration in the world. Learn all about the spectacular natural light displays that transform the night skies near the North and South Poles, then find out why the Arctic experiences an entire day of darkness at the same time as the Antarctic sees 24 hours of brilliant sunshine. Packed with incredible information, and stunning scenes, DKfindout! Arctic and Antarctic offer a unique look into the fascinating life on, above, and under the ice.

Charting the Wide, Weird World of Geography Wonks Red Chair Press

When winter comes, how do wild animals survive the bitterest cold, day after day? Kids can join award-winning author, illustrator, and naturalist Jim Arnosky as he follows otters, beavers, moose, polar bears, penguins, fur seals, and other fascinating creatures to learn how they cope with the frigid weather. Stunning art and five magnificent foldouts reveal worlds under the ice and up to the farthest, frostiest reaches of the globe.

The Coldest Place on Earth

**Global Science from a Frozen Continent** Gareth Stevens Publishing LLLP

Antarctica is the coldest, windiest, highest, driest, and most remote part of the world. It's the world's largest polar desert. Antarctica is a true wilderness. Author Leilani Raashida Henry, daughter of George W. Gibbs, Jr., the first person of African descent to go to Antarctica, recounts her father's expedition while educating readers on the incredible geography, biodiversity, and history of the continent. Using diary entries from Gibbs' expedition, *The Call of Antarctica* takes readers on a journey to the rugged Antarctic landscape to learn its history, its present, and the importance of protecting its future.

**Antarctic Ice** The Coldest Place on Earth In the summer of 1910, a race began. A race to be the first man at the South Pole, in Antarctica. Robert Falcon Scott, an Englishman, left London in his ship, the Terra Nova, and began the long journey south. Five days later, another ship also began to travel south. And on this ship was Roald Amundsen, a Norwegian. But Antarctica is the coldest place on earth, and it is a long, hard journey over the ice to the South Pole. Some of the travellers never returned to their homes again. This is the story of Scott and Amundsen, and of one of the most famous and dangerous races in history. *The Hottest Places on Earth*

For many decades, courageous men and women have ventured to our planet's foreboding icy regions. These brave explorers risk

life and limb in the name of science or for the thrill of adventure. Who are these thrill seekers and why do they do it? Turn the pages to find out!

**The Frozen Wild** OUP Oxford

"An introduction to the coldest places on Earth, including maps and colorful photographs"--Provided by publisher.

Antarctica Bearport Publishing

An account of the Wilkes-Vostok traverse.

HMH SCIENCEFUSION TEXAS Elsevier

An account of the Wilkes-Vostok traverse.

The Hottest Places on Earth Capstone

Introduces the physical characteristics, behavior, habitat, and migration of walruses, sea mammals that have flippers and tusks.

Seymour Simon's Extreme Earth Records Oxford University Press

Many people know that Antarctica is the coldest place on Earth, but they might not know why. Readers of this globetrotting volume will learn how the sun's rays affect our planet's surface. They'll also discover other bitter cold places around the globe and how people manage to live there. In one town in Russia, people leave their glasses at home so they don't freeze to their face! Science and social studies topics combine to present some truly absorbing and chilling peeks at some of the world's most fascinating and frigid places.

Picador USA

Introduces readers to polar bear cubs and highlights how they learn to survive on their own.

**Polar Bear** Bearport Publishing

Traces the history of mapmaking while offering insight into the role of cartography in human civilization and sharing anecdotes about the cultural arenas frequented by map enthusiasts.

**Explorers of the Coldest Places on Earth** Oxford University

For many decades, courageous men and women have ventured to our planet's foreboding icy regions. These brave explorers risk life and limb in the name of science or for the thrill of adventure. Who are these thrill seekers and why do they do it? Turn the pages to find out!

Exploring and Protecting Earth's Coldest Continent Chronicle Books

Narrative of Amundsen's attainment of the South Pole, December 1911. Vol. 2. contains appendices on the eastern sledge journey, the voyage of the Fram, the construction of the Fram, and scientific results of the expedition.

**Coldest Places on the Planet** Cambridge University Press

"Describes the fight for survival while exploring Antarctica"--Provided by publisher.

Tusk, Tusk Yale University Press

In [Oymyakon] a small village in Russia, winters are long and temperatures hover around -50°F (-45° C). The people who live there know how to survive in the bone-chilling cold. Could you?

Walrus Capstone

Details the expedition of Robert Falcon Scott and his British team to the South Pole in 1912.
