A story of family--whether the one you inherit or the one you create--bound together and torn apart in the struggle for a better world. Change rarely comes easily or without a fight. In her much-anticipated fourth novel Beverly Gologorsky takes a close, loving look at the members of a working-class family in the Bronx, each in their own way struggling for a better world. At the heart of the story is Josie, a

young woman whose fraught relationship with her family is further stretched by her commitment to anti-Vietnam War activities and her deepening relationship with a rising star in the Black Panther Party. Her brother Johnny is a police officer, rough and judgmental. Closest in age to Josie is sweet Richie, who, inexplicably to her, has just become an enlisted soldier. Her sister Celia is pulled toward activism in the women's fight for equality, but paralyzed by fear for her eldest son who may or may not have blown up an enlistment center. Their lives intertwine through acts of

violence, loyalty, and, above all, the bonds of family love and loss. One thing is certain--that in the long run of life, change is inevitable.

Can You See What I See? Can You See What I See

This is what I see exaggerated. That is why

this is fiction! With me a new twist of the conscious. We think but never speak about the sensitive side. Place in metaphors and statements, presenting reality and a bonus of fiction. Welcome to my sighting, vision, and exaggeration of what could be true. Become my eyes, as you focus on the words. Now can you see what I see? Twisting scenes, transferring thoughts to an emotion, touching the unseen, holding hands with fear, realizing it's truth to an open opinion. This is why I felt compelled to tell the story. A plan from deep within set a sail for my new adventures of what I see, and what I think I see, and to learn the difference. Taught speak no evil, see no evil, hear no evil, so I wrote it instead. These rules were never clarified outside the main ingredients. So telling the story this way makes it easier for my conscience, releasing a poison that was slowly trying to kill a humble soul. Sins and unwanted memories can be at peace, through the conclusion of a fictional story. Or is it? My gift of a fictional horror with an inspirational meaning. Read my exaggeration, and form your opinion of a book called "Can You See What I See?" I'm not a big fan of gambling, but I bet a

pocket full of coins that this book is different, heads or tails. P.S. Remember three is a charm. Two more will follow. *Can You See a Chimpanzee?* Scholastic Inc.

Can You See what I See? Ballantine Books For kids starting to think about their place in the world, here's a unique look at point of view. Being small — or big — is not

always what we think it is! We all know which things are big, and which are small, right? But do we really? Or do things look different, depending on who's doing the looking? For example, to a human, an orangutan is small like a child. But to a flea, it's gigantic! Here's a quirky and original introduction to the idea of perspective and the importance of recognizing that each of us has our own way of seeing things. Kids who feel too small — or too big — in the world will be happy to learn: Size is in the eye of the beholder!

"Can You See Me Now?", is the question that men will ask their church community, spouses, children, and even the world after applying these three components: Mission, Fellowship, and Evangelism to their spiritual development. If no one can see you developing as a Christian man; then you probably can't see yourself developing either. If you ask the question "Can You See Me Now?"; What would the response be?

From bestselling author Susan Verde comes a new series exploring the five senses through a mindfulness perspective, highlighting how they allow us to appreciate the world around us. When I am busy—moving through my day, watching where I go—looking shows me what is

right in front of my eyes. But when I slow down—find stillness, and notice with patience and curiosity—I can see. Seeing shows me more . . . Gracefully written by Susan Verde, bestselling author of the I Am books, and winsomely illustrated by Juliana Perdomo, the Sensing Your World

series teaches little ones to experience the world around them more deeply, using the five senses to find joy, connection, and beauty in the small, everyday moments. Can You See It? encourages us to look closer to see deeper: not just with our eyes, but with our whole hearts.
