In 1528, a mission set out from Spain to colonize Florida. But the expedition went horribly wrong: Delayed by a hurricane, knocked off course by a colossal error of navigation, and ultimately doomed by a disastrous decision to separate the men from their ships, the mission quickly became a desperate journey of survival. Of the three hundred men who had embarked on the journey, only four survived—three Spaniards and an African slave. This tiny band endured a horrific march through Florida, a harrowing raft passage across the Louisiana coast, and years of enslavement in the American Southwest. They journeyed for almost ten years in search of the Pacific Ocean that would guide them home, and they were forever changed by their experience. The men lived with a variety of nomadic Indians and learned several indigenous languages. They saw lands, peoples, plants, and animals that no outsider had ever seen before. In this enthralling tale of four castaways wandering in an unknown land, Andrés Reséndez brings to life the vast, dynamic world of North America just a few years before European settlers would transform it forever.

From a Sibert Medalist comes the epic story of Manhattan--a magical, maddening island "for all" and a microcosm of America. A veteran nonfiction storyteller dives deep into the four-hundred-year history of Manhattan to map the island's unexpected intersections. Focusing on the evolution of four streets and a square (Wall Street, 42nd Street, West 4th Street, 125th Street, and Union Square) Marc Aronson explores how new ideas and forms of art evolved from social blending. Centuries of conflict--among original Americans and Europeans, slavers and the enslaved, rich and poor, immigrants and native-born--produced segregation, oppression, and violence, but also new ways of speaking, singing, and being American. From the Harlem Renaissance to Hammerstein, from gay pride in the Village to political clashes at Tammany Hall, this clear-eyed pageant of the island's joys and struggles--enhanced with photos and drawings, multimedia links to music and film, and an extensive bibliography and source notes--is, above all, a love song to Manhattan's triumphs.

Won the prestigious Writer's Digest award. 1,900 books entered the national competition, Miss America by Day won first place in the "Most Inspirational Book" category. In this award winning book, former Miss America, Marilyn Van Derbur, describes, in detail, her healing process after 13 years of incest. "I wrote the book, not because I want someone to learn more about me but so readers can learn more about themselves. And so that loved ones can better understand the brutal recovery process and never again say, "just get over it." The pain ends, I promise . . . IF you do the 'work' of healing. A loving, long-term relationship and grounded well, adjusted children await you. A judge for the Writers Digest book competition wrote: "Seldom as a judge have I wanted to read the entire book but I devoured every word of this riveting story... Told with stark honesty and vivid details that were so important in ridding herself of the pain, torment and shame..." Anyone who knew Marilyn Van Derbur as a child and young adult believed she had it all -- a loving family, a beautiful home, an active social life. But beneath the surface, Van Derbur was a troubled young woman who lived through horrific panic attacks and excruciating physical pain every day of her adult life. Starting when she was just a child of five, she was sexually abused by her father until she turned 18. Van Derbur uses the term "incested," eschewing the more vanilla terms of "molestation" or "abuse." As a student and young adult, Van Derbur was an overachiever with an unconscious need to stay very busy. She realizes now this was a coping mechanism to keep her two worlds separated-the "night child" who suffered at the hands of her father and the "day child" who was happy and outgoing. After being named valedictorian of her high school class, she went on to college. Persuaded to enter a local beauty pageant, she ultimately was crowned Miss America. Ignoring the sheer terror she felt at the prospect of speaking in front of others, Van Derbur went on to become a highly successful motivational speaker. She writes of her endless need to be respected by others, all the while believing that if others really knew who she was, they would hate her and look at her with disdain and disgust. The perfectly poised mask she showed the outside world was a far cry from the tortured, panic-stricken, anxious woman within. The shame she felt within was a constant in her life, reminding her that she was "unworthy." When a newspaper reporter learned of her story, Van Derbur's private shame became front-page news. Then she landed on the cover of People magazine. Soon incest survivors from around the country were reaching out to her, desperate to tell someone what had happened to them. It became instantly clear that her new role in life was to help others who had suffered incest and to help teach everyone how to make sure their children are safe from predators.

Death at a beauty pageant turns Tita Rosie's Kitchen upside down in the latest entry of this witty and humorous cozy mystery series by Mia P. Manansala. Things are heating up for Lila Macapagal. Not in her love life, which she insists on keeping nonexistent despite the attention of two very eligible bachelors. Today's convergent media environment offers unprecedented opportunities for sourcing and disseminating previously obscure popular culture material from Japan. However, this presents concerns regarding copyright, ratings and exposure to potentially illegal content which are serious problems for those teaching and researching about Japan. Despite young people's enthusiasm for Japanese popular culture, these concerns spark debate about whether it can be judged harmful for youth audiences and could therefore herald the end of 'cool Japan'. This collection brings together Japan specialists in order to identify key challenges in using Japanese popular culture materials in research and teaching. It addresses issues such as the availability of unofficially translated and distributed Japanese material; the emphasis on adult-themes, violence, sexual scenes and under-age characters; and the discrepancies in legislation and ratings systems across the world. Considering how these issues affect researchers, teachers, students and fans in the US, Canada, Australia, China, Japan and elsewhere in Asia, the contributors discuss the different ways in which academic and fan practices are challenged by local regulations. Illustrating from personal experience the sometimes fraught nature of teaching about 'cool Japan', they suggest ways in which Japanese Studies as a discipline needs to develop clearer guidelines for teaching and research, especially for new scholars entering the field. As the first collection to identify some of the real problems faced by teachers and researchers of Japanese popular culture as well as the students over whom they have a duty of care, this book will be of great interest to students and scholars of Japanese Studies and Cultural Studies.

Why can't a Quechua speaker wear pants? Anna M. Babel uses this question to open an analysis of language and social structure at the border of

eastern and western, highland and lowland Bolivia. Through an exploration of categories such as political affiliation, ethnic identity, style of dress, and history of migration, she describes the ways that people understand themselves and others as Quechua speakers, Spanish speakers, or something in between. Between the Andes and the Amazon is ethnography in storytelling form, a rigorous yet sensitive exploration of how people understand themselves and others as members of social groups through the words and languages they use. Drawing on fifteen years of ethnographic research, Babel offers a close examination of how people produce oppositions, even as they might position themselves "in between" those categories. These oppositions form the raw material of the social system that people accept as "normal" or "the way things are." Meaning-making happens through language use and language play, Babel explains, and the practice of using Spanish versus Quechua is a claim to an identity or a social position. Babel gives personal perspectives on what it is like to live in this community, focusing on her own experiences and those of her key consultants. Between the Andes and the Amazon opens new ways of thinking about what it means to be a speaker of an indigenous or colonial language—or a mix of both.

The American Pageant (AP* Edition) Simon and Schuster

A fresh exploration of American feminist history told through the lens of the beauty pageant world. Many predicted that pageants would disappear by the 21st century. Yet they are thriving. America's most enduring contest, Miss America, celebrates its 100th anniversary in 2020. Why do they persist? In *Here She Is*, Hilary Levey Friedman reveals the surprising ways pageants have been an empowering feminist tradition. She traces the role of pageants in many of the feminist movement's signature achievements, including bringing women into the public sphere, helping them become leaders in business and politics, providing increased educational opportunities, and giving them a voice in the age of #MeToo. Using her unique perspective as a NOW state president, daughter to Miss America 1970, sometimes pageant judge, and scholar, Friedman explores how pageants became so deeply embedded in American life from their origins as a P.T. Barnum spectacle at the birth of the suffrage movement, through Miss Universe's bathing beauties to the talent- and achievement-based competitions of today. She looks at how pageantry has morphed into culture everywhere from *The Bachelor* and *RuPaul's Drag Race* to cheer and specialized contests like those for children, Indigenous women, and contestants with disabilities. Friedman also acknowledges the damaging and unrealistic expectations pageants place on women in society and discusses the controversies, including Miss America's ableist and racist history, Trump's ownership of the Miss Universe Organization, and the death of child pageant-winner JonBenét Ramsey. Presenting a more complex narrative than what's been previously portrayed, *Here She Is* shows that as American women continue to evolve, so too will beauty pageants.

Better Together! Concord Theatricals

Nature is perhaps the most ancient philosophical category, yet few others are of greater current relevance. Still, a quarter century back, not even the most astute observer would have predicted a wild turn in philosophy. There has been no more surprising philosophical development than the recent,

serious reconsideration of the human relationship to the ecosystemic Earth. The questions come in many forms: Have we any duties to natural things at all, or merely duties to persons concerning natural things? What sort of human dominion over nature is proper? In what senses can or should humans follow nature? Have we duties to animals, perhaps at least to sentient animals? Have we duties to endangered species, or, again, only duties to persons concerning rare species? Is nature only a resource for human needs, natural things accordingly having merely instrumental value? Or are there intrinsic values in ecosystems, apart from human concerns? Are these to be located in organic individuals or in their biological communities, the whole of which the organism is a part? Are the values associated with nature subjective or objective? Precisely what are these values carried by

natural things? How are they to be traded off against other human values, against the legitimate and not-so-legitimate demands of industry, business, development? How much nature do we destroy in order to benefit the poor? How much nature do we owe to future generations? How does the present debate about valuing nature reconnect with longstanding issues within philosophy such as the (so-called) naturalistic fallacy, that of moving from an is, describing nature, to an ought, prescribing an ethic? How does it relate to the Darwinian portrait of nature red in tooth and claw? What, after all, is the nature of nature, and what experiences encountering nature are appropriate in the light on contemporary bioscience and of philosophical criticism? These essays discuss the environmental turn in philosophy.-- from the Preface
