Agricultura

Agri culture is the science and art of cultivating plants and livestock. Agriculture was the key development in the rise of sedentary human civilization, whereby farming of domesticated species created food surpluses that enabled people to live in cities. The history of agriculture began thousands of years ago. After gathering wild grains beginning at least 105,000 years ago, nascent farmers ...Agriculture - Wikipedia

Agricultura is the culmination of multiple projects I've worked on in the past related to the sensing and control of
