One New Year's Day, Noelle

Oxenhandler took stock of her life and found that she was alone after a long marriage, seemingly doomed to perpetual house rental and separated from the spiritual community that once had sustained her. With little left to lose, she launched a year's experiment in desire, forcing herself to take the plunge and try the path of Putting It Out There. It wasn't easy. A skeptic at heart, and a practicing Buddhist as well, Oxenhandler had grown up with a strong aversion to mixing spiritual and earthly matters. Still, she suspended her doubts and went

for it all: a new love, a healed soul, and the 2RBD/1.5 BA of her dreams. Thus began her initiation into the art of wishing brazenly. In this charming, compelling, and ultimately joyful book, Oxenhandler records a journey that is at once comic and poignant, light and dark, earthy and spiritual. Along the way she wonders: Does wishing have power? Is there danger in wishing? Are some wishes more worthy than others? And what about the ancient link between suffering and desire? To answer her questions, she delves into the history of wishing, from the rain dance and deer song of primeval magic to modern beliefs about mind over matter, prosperity consciousness, and the law of attraction. As the months go by, Oxenhandler is humbled to discover the

courage it takes to make a wish and thus open oneself to the unknown. She is surprised when her experiment expands to include other people and other places in ways she never imagined. But most of all, she is amazed to find that there is, indeed, both power and danger in the act of wishing. For soon her wishes begin to come true—in ways that meet, subvert, and overflow her expectations. And what started as a year's dare turns into a way of life. A delightfully candid memoir, unfettered, poetic, and ripe with discovery, Oxenhandler's journey into the art and soul of wishing will inspire even the most skeptical reader to search the skies for the next shooting star. Praise for THE WISHING YEAR "This is a wonderful book, full of wisdom gleaned from a year of Noelle Oxenhandler's

daring to embrace what she had previously denied herself—her own personal wishes. I highly recommend The Wishing Year for anyone wanting to learn more about what life has to offer when we pay attention to our heart's desires." –Sarah Susanka, author of The Not So Big Life "Do you want to know how wishes come true? Then read The Wishing Year. It's a book that beautifully illuminates the art and mystery of wishing—and it does so in a way that is inspiring, funny, serious, honest, heartfelt, and irresistibly readable." –Jack Kornfield, author of After the Ecstasy, the Laundry "The Wishing Year is an elegant exploration of the way thought shapes reality. Writing with great personal honesty and candor, Noelle Oxenhandler's exhilarating prose takes

us deep into the pain and glory of being human." -Mark Epstein, M.D., author of *Open to Desire* "Oxenhandler's new book makes it okay to be a smart, sophisticated grow-up who also believes in magic. She dives beneath the new age veneer and deconstructs how wishes really come true." -Susan Piver, author of *How Not to Be Afraid of Your Own Life*

Eyetracking Web Usability is based on one of the largest studies of eyetracking

usability in existence. Best-selling author Jakob Nielsen and coauthor Kara Pernice used rigorous usability methodology and eyetracking technology to analyze 1.5 million instances where users look at Web sites to understand how the human eyes interact with design. Their findings will help designers, software developers, writers, editors, product managers, and advertisers understand what people see or don't see, when they look, and why. With their comprehensive three-year study, the authors confirmed many known Web design conventions and the book provides additional insights on those standards. They also discovered important new user behaviors that are revealed here for the first time. Using compelling eye gaze plots and heat maps, Nielsen and Pernice guide the

reader through hundreds of examples of eye movements, demonstrating why some designs work and others don't. They also provide valuable advice for page layout, navigation menus, site elements, image selection, and advertising. This book is essential reading for anyone who is serious about doing business on the Web.

The \$350 Billion Question SAGE

This prize-winning book reinterprets more than 200 years of American political history as the interplay between the public's dread of government power and its yearning for communal democracy. James Morone argues that Americans will never solve their collective problems as long as they instinctively fear all public power as a threat to liberty. This revised edition includes a new final chapter about contemporary populism, government bashing, and democratic wishes. Winner of the 1991 Gladys M. Kammerer Award "The Democratic Wish merits the highest compliments one can accord a public policy book. It spotlights a problem that can no longer be evaded.

And it makes you think."-Alan Tonelson, New York Times Book Review "Morone writes with flair and passion. The fact that he puts forth a provocative argument and provides concise histories of labor, civil rights, and health care politics makes this book especially useful for teaching American politics."-R. Shep Melnick, Journal of Interdisciplinary History "Morone's contribution to our understanding of state building . . . is substantial and profound."-John S. Dryzek, American Political Science Review "This stimulating reinterpretation of American political history will interest both scholars concerned about the past and citizens concerned about the future."-Arthur Schlesinger, Jr. "This is a persuasive, illuminating study in American political ideas and the

disappointments of reform.”-Dean McSweeney, American Politics Review.
