A Reader's Perspective Preview of the earlier chapters:
Chapter 1 Carson grew

up in Detroit and Boston when the civil rights movement was changing the social landscape. He was aware of racism all around him. Carson belonged to a segment of the population that was often deprived of opportunities. Rather than cause him to stop fighting, racism inspired him to prove his worth by excelling in school. America was built on a legacy of rebellion. Early Americans fought for change at great personal risk. The Founding Fathers understood injustices that existed in the world and strove to design a government that would level the playing field. However, Americans appear to have lost the ability to endure hardship and to sacrifice for future

generations. America's current state, its growing debt, excessive spending, and elected leaders who ignore the will of the people, closely resembles the circumstances preceding the American Revolution. During that time, colonists were forced to rebel against extreme taxation and threats to the freedoms they enjoyed in the New World. However, modern Americans seem to have forgotten what their Founding Fathers sacrificed for the privileges they continue to enjoy... **Ben Carson** Central Recovery Press "One of the most profound and illuminating studies of this century to have been published in

recent decades.”—John Gray, New York Times Book Review Hailed as “a magisterial critique of top-down social planning” by the New York Times, this essential work analyzes disasters from Russia to Tanzania to uncover why states so often fail—sometimes catastrophically—in grand efforts to engineer their society or their environment, and uncovers the conditions common to all such planning disasters. “Beautifully written, this book calls into sharp relief the nature of the world we now inhabit.”—New Yorker “A tour de force.”— Charles Tilly, Columbia University [My Life](#) Penguin
 At the age of twenty, George Ritchie died in an Army hospital. Nine minutes later, he

returned to life. What happened to him during those minutes was so compelling that it changed his life forever. In *Return from Tomorrow*, Ritchie tells of his transforming encounter with the Son of God, who led him to encounters with other nonphysical beings at the very doorway of eternity. Ritchie's extraordinary experience not only altered his view of eternity, but it has also altered the lives of hundreds of thousands of readers. One of the most startling and hopeful descriptions of the realm beyond, this classic will inspire readers from all walks of life. It includes a brand-new preface from Elizabeth Sherrill.

NEW YORK TIMES
BESTSELLER • The award-winning book that inspired an Apple Original series from Apple TV+ • A landmark investigation of patient deaths at a New Orleans hospital ravaged by Hurricane Katrina—and the suspenseful portrayal of the quest for truth and justice—from a Pulitzer Prize-winning physician and reporter “An amazing tale, as inexorable as a Greek tragedy and as gripping as a whodunit.”—Dallas Morning News After Hurricane Katrina struck and power failed, amid rising floodwaters and heat, exhausted staff at Memorial Medical Center designated certain patients last for rescue. Months later, a

doctor and two nurses were arrested and accused of injecting some of those patients with life-ending drugs. *Five Days at Memorial*, the culmination of six years of reporting by Pulitzer Prize winner Sheri Fink, unspools the mystery, bringing us inside a hospital fighting for its life and into the most charged questions in health care: which patients should be prioritized, and can health care professionals ever be excused for hastening death? Transforming our understanding of human nature in crisis, *Five Days at Memorial* exposes the hidden dilemmas of end-of-life care and reveals how ill-prepared we are for large-scale disasters—and how we can do better. **ONE OF THE TEN BEST BOOKS**

 No risk, pay the cost. Know risk, reap the rewards. In our risk-avoidance culture, we place a high premium on safety. We insure our vacations. We check crash tests on cars. We extend the warranties on our appliances. But by insulating ourselves from the unknown—the risks of life—we miss the great adventure of living our lives to their full potential. Ben Carson spent his childhood as an at-risk child on the streets of Detroit, and today he takes daily risks in

performing complex surgeries on the brain and the spinal cord. Now, offering inspiring personal examples, Dr. Carson invites us to embrace risk in our own lives. From a man whose life dramatically portrays the connection between great risks and greater successes, here are insights that will help you dispel your fear of risk so you can dream big, aim high, move with confidence, and reap rewards you've never imagined. By avoiding risk, are you also avoiding the full potential of your life? The surgery was as risky as anything Dr. Ben Carson had seen. The Bijani sisters—conjoined twins—shared part of a skull, brain tissue, and crucial blood flow. One or both of them could

die during the operation. But the women wanted separate lives. And they were willing to accept the risk to reach the goal, even against the advice of their doctors ... As a child on the dangerous streets of Detroit, and as a surgeon in operating theaters around the world, Dr. Ben Carson has learned all about risk—he faces it on a daily basis. Out of his perilous childhood, a world-class surgeon emerged precisely because of the risks Dr. Carson was willing to take. In his compelling new book, he examines our safety-at-all-costs culture and the meaning of risk and security in our lives. In our 21st-century world, we insulate ourselves with safety. We insure everything from

vacations to cell phones. We go on low-cholesterol diets and buy low-risk mutual funds. But in the end, everyone faces risk, like the Bijani twins did with their brave decision. Even if our choices are not so dramatic or the outcome so heartbreaking, what does it mean if we back away instead of move forward? Have we so muffled our hearts and minds that we fail to reach for all that life can offer us—and all that we can offer life? Take the Risk guides the reader through an examination of risk, including: • A short review of risk-taking in history. • An assessment of the real costs and rewards of risk. • Learning how to assess and accept

risks. • Understanding how risk reveals the purpose of your lives.

The Beast Side

The children of Ham are a group of young people ranging in age from fourteen to twenty-two, who live in a condemned tenement in upper Harlem, a shell of a building owned by New York City. The children look out for themselves; they are a self-constituted family. They give to each other what they cannot get anywhere else: friendship and a sense of belonging. As you eavesdrop on their conversations, you learn about the families who abandoned -- or who abandoned them. Home for the children of Ham is this wreck of

a house, the Harlem castle where they protect and sustain each other on hope as tenuous as life. It is their life that brims over in this book by Claude Brown. -- From publisher's description.

Now a New York Times Bestseller! Bestselling author and conservative icon Dr. Ben Carson lays out a hopeful and inspiring road map for how America can come together. External physical characteristics that are genetically encoded are things over which no individual has control. But rather than appreciating the gift of diversity, some have chosen to use it to drive wedges between groups of people.

Some of these external characteristics are associated with the past moral failing of slavery. Though slavery in America formally ended in the 1860s, the vestiges of that evil institution are still with us today, and those vestiges often inflict guilt on some and facilitate feelings of victimhood in others. In *Created Equal*, Dr. Carson uses his own personal experiences as a member of a racial minority, along with the writings and experiences of others from multiple backgrounds and demographics, to analyze the current state of race relations in America. Instead of using race as an excuse to remake America into something completely antithetical to the

Constitution, Dr. Carson suggests ways to enhance and bring great success to our nation and all multiethnic societies by magnifying America's incredible strengths instead of her historical weaknesses.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 When I was 8 years old, my father left home for good. I loved my father, but I was heartbroken when he left. I couldn't imagine a life without him and didn't know if I would ever see him again. #2 I had learned to handle my deep hurt by forgetting. I didn't remember going through stages of anger and resentment,

instead I just remembered how much I had loved my father and how sad I was when he left. #3 I had a deep appreciation and respect for my mother, Sonya Carson, who was the first and strongest influence in my life. I understood that she was doing it for me and my brother, and that dedication and sacrifice made a profound impression on me.

Grief Connects Us

Harper Collins

A New York Times Best Seller! To many, the past 8 years under President Obama were meant to usher in a

new post-racial American political era, dissolving the divisions of the past. However, when seventeen-year-old Trayvon Martin was shot by a wannabe cop in Florida; and then Ferguson, Missouri, happened; and then South Carolina hit the headlines; and then Baltimore blew up, it was hard to find any evidence of a new post-racial order.

Suddenly the entire country seemed to be awakened to a stark fact: African American men are in danger in America. This has only become clearer as groups like Black Lives Matter continue to draw attention to this reality daily not only online but also in the streets of our nation's embattled cities. Now one of our country's quintessential urban

war zones is brought powerfully to life by a rising young literary talent, D. Watkins. The author fought his way up on the eastside (the “beastside”) of Baltimore, Maryland—or “Bodymore, Murderland,” as his friends call it. He writes openly and unapologetically about what it took to survive life on the streets while the casualties piled up around him, including his own brother. Watkins pushed drugs to pay his way through school, staying one step ahead of murderous business rivals and equally predatory lawmen. When black residents of Baltimore finally decided they had had enough—after the brutal killing of twenty-five-year-old Freddie

Gray while in police custody—Watkins was on the streets as the city erupted. He writes about his bleeding city with the razor-sharp insights of someone who bleeds along with it. Here are true dispatches from the other side of America. In this new paperback edition, the author has also added new material responding to the rising tide of racial resentment and hate embodied by political figures like Donald Trump and Ted Cruz, and the impact this has had on issues of race in America. This book is essential reading for anyone trying to make sense of the chaos of our current political moment.

A More Perfect Union
Zondervan
In 1987, Dr. Benjamin Carson gained

worldwide recognition for his part in the first successful separation of Siamese twins joined at the back of the head. The extremely complex and delicate operation, five months in the planning and twenty-two hours in the execution, involved a surgical plan that Carson helped initiate. Carson pioneered again in a rare procedure known as hemispherectomy, giving children without hope a second chance at life through a daring operation in which he literally removed one half of their brain. But such breakthroughs aren't unusual for Ben Carson. He's been beating the odds since he was a child. Raised in inner-city Detroit by a mother with a third grade education, Ben lacked motivation. He

had terrible grades. And a pathological temper threatened to put him in jail. But Sonya Carson convinced her son that he could make something of his life, even though everything around him said otherwise. Trust in God, a relentless belief in his own capabilities, and sheer determination catapulted Ben from failing grades to the top of his class --- and beyond to a Yale scholarship . . . the University of Michigan Medical School . . . and finally, at age 33, the directorship of pediatric neurosurgery at Johns Hopkins Hospital in Baltimore, Maryland. Today, Dr. Ben Carson holds twenty honorary doctorates and is the possessor of a long

string of honors and awards, including the Horatio Alger Award, induction into the 'Great Blacks in Wax' Museum in Baltimore, Maryland, and an invitation as Keynote Speaker at the 1997 President's National Prayer Breakfast. Gifted Hands is the riveting story of one man's secret for success, tested against daunting odds and driven by an incredible mindset that dares to take risks. This inspiring autobiography takes you into the operating room to witness surgeries that made headlines around the world --- and into the private mind of a compassionate, God-fearing physician who lives to help others. Through it all shines a humility, quick wit, and

down-to-earth style that make this book one you won't easily forget. Gifted Hands Zondervan NATIONAL BOOK AWARD FINALIST ONE OF THE BEST BOOKS OF THE YEAR NPR • Time Magazine • The Washington Post • Entertainment Weekly • The Boston Globe A NEW YORK TIMES NOTABLE BOOK From one of our most accomplished and widely admired historians—a revelatory portrait of Benjamin Franklin's youngest sister, Jane, whose obscurity and poverty were matched only by her brother's fame and wealth but who, like him, was a passionate reader, a gifted writer, and an astonishingly shrewd political commentator.

Making use of an astonishing cache of little-studied material, including documents, objects, and portraits only just discovered, Jill Lepore brings Jane Franklin to life in a way that illuminates not only this one extraordinary woman but an entire world. *Gifted Hands, Kids Edition: The Ben Carson Story* B&H Publishing Group

It can no longer be assumed that most people--or even most Christians--have a basic understanding of the Bible. Many don't know the difference between the Old and New Testament, and even the more well-known biblical figures are often misunderstood. It is getting harder to talk about Jesus accurately and compellingly

because listeners have no proper context with which to understand God's story of redemption. In this basic introduction to faith, D. A. Carson takes seekers, new Christians, and small groups through the big story of Scripture. He helps readers to know what they believe and why they believe it. The companion leader's guide helps evangelistic study groups, small groups, and Sunday school classes make the best use of this book in group settings.
